Perfected Humanity:

Phenomenological Approaches to Moral Philosophy J.J. Drummond, Lester Embree, 2013-03-14 Against the background of the recent revival of ethics this handbook aims to show the great fertility of the phenomenological tradition for the study of ethics and moral philosophy by collecting a set of papers on the contributions to ethical thought by major phenomenological thinkers Twenty one chapters in the book are articles by experts who explore the thought of the major ethical thinkers in the first two generations of the phenomenological tradition and direct the reader toward the most relevant primary and secondary materials The final three chapters of the book sketch more recent developments in various parts of the world and the first three chapters investigate the relations between phenomenology and the dominant normative approaches in contemporary moral philosophy

determining their mode of existence Intratrinitarian relationships are manifested in the relationships between humankind and non human creation the Church and the world local and universal aspects of the Church clergy and the people and among various charisms The Andover Review ,1893 **The Ascension in Karl Barth** Andrew Burgess,2017-07-05 This book explores the doctrine of ascension and Barth s ascension thought in particular First it examines the doctrine of Jesus Christ s ascension into heaven presenting a sustained discussion of Karl Barth s approach to this doctrine and the significance of the doctrine within his theology as a whole Secondly through examining Barth s ascension thought and dialoguing with three other theologians Torrance Farrow and Jenson a clearer understanding of Barth and his theology is achieved The treatment of issues related to Christ s ascension across a broader protestant perspective increases the relevance and usefulness of this unique study Andrew Burgess presents the doctrine of the ascension as an important and undervalued doctrine and encourages Christians to see how like Barth they might benefit in their ability to think coherently about the present age and about Jesus in relation to this age enabling further thought about the work of the Holy Spirit the church and Christian ethics **American Protestant Ethics and the Legacy of H. Richard Niebuhr** William Werpehowski,2002-09-20 In this careful analysis and evaluation of the monumental influence of Niebuhr Werpehowski traces four streams that flow from Niebuhr s theology particularly as it deals with ethics In a tightly knit and comprehensive investigation of the work of four contemporary ethicists important in their own right Paul Ramsey Stanley Hauerwas James Gustafson and Kathryn Tanner Werpehowski explores how the legacy of Niebuhr has made an impact on their thought and work He presents a clear concise nuanced analytical criticism of the development of the four ethicist s construction of ethics and does it in a way that interweaves and puts the four into a dialogue and conversation with Niebuhr and each other Addressing a number of substantive issues including the viability of just war tradition and the relationship between church and world American Protestant Ethics and the Legacy of H Richard Niebuhr demonstrates that Christian ethics operates within a set of polar tensions and that such conversations as are developed within need to be a part of moral discourse inside and between a variety of communities of faith **The Son Who Learned Obedience** D. Glenn Butner,2018-09-07 This book offers a fresh perspective on the ongoing evangelical debate concerning whether the Son eternally submits to the Father Beginning with the pro Nicene account of will being a property of the single divine nature Glenn Butner explores how language of eternal submission requires a modification of the classical theology of the divine will This modification has problematic consequences for Christology various atonement theories and the doctrine of God because as historically developed these doctrines shared the pro Nicene assumption of a single divine will This new angle on an old debate challenges the reader to move beyond the inaccurate characterization of views on eternal submission as Arian or feminist toward a more accurate understanding of the real theological issues at stake **Buddhist-Christian Dialogue as Theological Exchange** Ernest M. Valea,2015-04-14 This book is intended to encourage the use of comparative theology in

contemporary Buddhist Christian dialogue as a new approach that would truly respect each religious tradition's uniqueness and make dialogue beneficial for all participants interested in a real theological exchange. As a result of the impasse reached by the current theologies of religious exclusivism, inclusivism, and pluralism in formulating a constructive approach in dialogue, this volume assesses the thought of the founding fathers of an academic Buddhist Christian dialogue in search of clues that would encourage a comparativist approach. These founding fathers are considered to be three important representatives of the Kyoto School: Kitaro Nishida, Keiji Nishitani, and Masao Abe, and John Cobb, an American process theologian. The guiding line for assessing their views of dialogue is the concept of human perfection as it is expressed by the original traditions in Mahayana Buddhism and Orthodox Christianity. Following Abe's methodology in dialogue, an Orthodox contribution to comparative theology proposes a reciprocal enrichment of traditions not by syncretistic means but by providing a better understanding and even correction of one's own tradition when considering it in the light of the other while using internal resources for making the necessary corrections.

Christian Grace and Pagan Virtue J. Warren Smith, 2010-12-21 Ambrose of Milan 340-397 was the first Christian bishop to write a systematic account of Christian ethics in the treatise *De Officiis*, variously translated as *On Duties* or *On Responsibilities*. But Ambrose also dealt with the moral life in other works, notably his sermons on the patriarchs and his addresses to catechumens and newly baptized. There is a vast modern literature on Ambrose, but only in recent decades has he begun to be taken seriously as a thinker, not just as a working bishop and ecclesiastical politician. Because Ambrose was one of the few Latin Christian writers in antiquity who knew Greek, another major area of Ambrose scholarship has been the study of his sources, notably the Jewish philosopher Philo and Christian writers such as Origen of Alexandria. In this book, Warren Smith examines the neglected biblical, liturgical, and theological foundations of Ambrose's thought on ethics. Earlier studies have found little that was distinctively Christian in Ambrose's image of the virtuous person. Smith shows that, though like the pagans, Ambrose emphasized moderation, courage, justice, and prudence for him, these characteristics were shaped by the church's beliefs about God's salvific economy. The courage of a Christian facing persecution, for example, was an expression of faith in Christ's resurrection and the church's eschatological hope. Eschatology for Ambrose was not pagan wisdom clothed in pious language but the very logic upon which virtue rests.

Connecting with the Arcturians 3 David K. Miller, 2018-12-20 The themes of this book focus on the evolution of humanity, the next stage of our planetary development, the planetary crisis in general, and how we as spiritual lightworkers and starseeds can prepare for our future and for the ascension. We look at the relationships between such complex subjects as quantum physics and spirituality and New Age physics to learn how that relates to the higher dimensions and healing techniques that use new terminology such as quantum healing and omega light. The Arcturians gladly integrate physics with spirituality. Ascension is the transmutation of the physical body into the fifth dimension, completing Earth's incarnational cycles. They report that the ascension is open to all seekers of higher spiritual truth, especially those who are

open to cosmic spirituality There is also an extensive glossary to help the reader Overall their messages are hopeful helpful and healing The healings provided through their thinking are relevant personally and planetarily The Monthly Religious Magazine and Theological Review Frederic Dan Huntington, Edmund Hamilton Sears, Rufus Ellis, James William

Thompson, John Hopkins Morison, 1865 **The Monthly Religious Magazine**, 1865 **Science, Culture and Man** Bepin Behari, 1963-01-01 In the present volume eminent scientists scholars and philanthropists have joined together to discuss the problems relating to the impact of technological progress on the cultural development of mankind The turmoil created by modern scientific inventions has threatened the very existence of our globe Will the humanity emerge more secure or will it be submerged once more in the Deluge **A Teachable Spirit** A. J. Swoboda, 2025-04-29 Being a know it all isn't a fruit of the Spirit But the ancient call of Jesus beckons us to love the Lord your God with all your heart mind soul and strength Matt 22:37 How do we love God with our mind In *A Teachable Spirit* A. J. Swoboda helps followers of Jesus develop the discipline of teachability In a world marked by distraction mind numbing entertainment endless content polarization and a decreasing desire to humbly learn from those we dislike the way we engage sources of information like news media science and social media content could not be more important Thankfully the Christian faith provides sharp tools and rich traditions for learning how to be the best learners By drawing on his experiences as a professor theologian and lay pastor Swoboda explores the potency of seeing learning as a part of one's spiritual formation to Jesus With the right posture Christians can learn from even the most unexpected places **A Skeptic's Investigation Into Jesus** J. P. Hannah, 2020-04-27 Does human life have any significance The statements below have become widely accepted in the Western world life is the accidental product of random events the laws of physics are totally deterministic science does not accept a connection between physical matter and human consciousness theism is a conclusion from evidence while faith is speculation science and faith are incompatible offering contradicts the existence of a loving omnipotent God Jesus was a compilation of pagan mythologies or a human teacher who was deified But do these statements represent eternal truths Are they logical conclusions based on established facts or merely opinions What is the evidence To investigate these and other questions of existence and faith a skeptical academic objectively explored relevant aspects of philosophy mythology history archaeology cosmology quantum physics biochemistry and various faiths that finally led to investigation of the Judeo Christian Scriptures including the Dead Sea Scrolls and the gnostic gospels The findings of this research not only challenge many modern assumptions but also have significant implications for our understanding of reality Written with minimum technicality for general readership this book presents a wide range of interesting and carefully confirmed facts relevant to the above questions Whether you are an atheist or an agnostic a Christian or a follower of another faith or have simply not been interested this investigation provides valuable and surprising insights into the nature of the universe and our place in it **Christ and His Seed; Central to All Things; Being a Series of Expository Discourses on Paul's Epistles to the Ephesians.** By John Pulsford.
