#### **Perfection The State And The Victorian Liberalism:**

Perfection, the State, and Victorian Liberalism D. Malachuk, 2005-08-19 This book recovers and recommends the core conviction of Victorian liberal theory that human beings with the help of the state can achieve an objective moral perfection The first half of the book considers the diverse modern biases that have blinded us to the merit of this core conviction and weaves together disparate new scholarship primarily in political theory and Victorian Studies to set the stage for a reconsideration of that conviction The second half of the book is that reconsideration outlining the various policies the Victorian liberals John Stuart Mill and Matthew Arnold primarily with a half dozen other nineteenth century British and American authors recommended the state employ in the perfection of human beings The Oxford Handbook of Victorian Literary Culture Juliet John, 2016-06-30 The Oxford Handbook of Victorian Literary Culture is a major contribution to the dynamic field of Victorian studies This collection of 37 original chapters by leading international Victorian scholars offers new approaches to familiar themes including science religion and gender and gives space to newer and emerging topics including old age fair play and economics Structured around three broad sections Ways of Being Identity and Ideology Ways of Understanding Knowledge and Belief and Ways of Communicating Print and Other Cultures the volume is sub divided into nine sub sections each with its own lead essay on subjectivity politics gender and sexuality place and race religion science material and mass culture aesthetics and visual culture and theatrical culture The collection like today s Victorian studies is thoroughly interdisciplinary and yet its substantial Introduction explores a concern which is evident both implicitly and explicitly in the volume s essays that is the nature and status of literary culture and the literary from the Victorian period to the present The diverse and wide ranging essays present original scholarship framed accessibly for a mixed readership of advanced undergraduates graduate students and established scholars The Routledge Companion to Victorian Literature Dennis Denisoff, Talia Schaffer, 2019-11-11 The Routledge Companion to Victorian Literature offers 45 chapters by leading international scholars working with the most dynamic and influential political cultural and theoretical issues addressing Victorian literature today Scholars and students will find this collection both useful and inspiring Rigorously engaged with current scholarship that is both historically sensitive and theoretically informed the Routledge Companion places the genres of the novel poetry and drama and issues of gender social class and race in conversation with subjects like ecology colonialism the Gothic digital humanities sexualities disability material culture and animal studies This guide is aimed at scholars who want to know the most significant critical approaches in Victorian studies often written by the very scholars who helped found those fields It addresses major theoretical movements such as narrative theory formalism historicism and economic theory as well as Victorian models of subjects such as anthropology cognitive science and religion With its lists of key works rich cross referencing extensive bibliographies and explications of scholarly trajectories the book is a crucial resource for graduate students and advanced undergraduates while offering invaluable support to more seasoned

scholars A Companion to George Eliot Amanda Anderson, Harry E. Shaw, 2016-01-19 This collection offers students and scholars of Eliot's work a timely critical reappraisal of her corpus including her poetry and non fiction reflecting the latest developments in literary criticism It features innovative analysis exploring the relation between Eliot s Victorian intellectual sensibilities and those of our own era A comprehensive collection of essays written by leading Eliot scholars Offers a contemporary reappraisals of Eliot's work reflecting a broad range of current academic interests including religion science ethics politics and aesthetics Reflects the very latest developments in literary scholarship Traces the revealing links between Eliot's Victorian intellectual concerns and those of today Literature, Journalism, and the Vocabularies of **Liberalism** J. Macleod, 2013-05-07 This book examines the impact of the new liberalism on English literary discourse from the fin de si cle to World War One It maps out an extensive network of journalists men of letters and political theorists showing how their shared political and literary vocabularies offer new readings of liberalism's relation to an emerging modernist culture Nature and Culture in the Northern Forest Pavel Cenkl, 2010-03-15 Nearly 30 million acres of the Northern Forest stretch across New York Vermont New Hampshire and Maine Within this broad area live roughly a million residents whose lives are intimately associated with the forest ecosystem and whose individual stories are closely linked to the region's cultural and environmental history. The fourteen engaging essays in Nature and Culture in the Northern Forest effectively explore the relationships among place work and community in this complex landscape Together they serve as a stimulating introduction to the interdisciplinary study of this unique region Each of the four sections views through a different lens the interconnections between place and people The essayists in Encounters have their hiking boots on as they focus on personal encounters with flora and fauna of the region The energizing accounts in Teaching and Learning question our assumptions about education and scholarship by proposing invigorating collaborations between teachers and students in ways determined by the land itself not by the abstractions of pedagogy With the freshness of Thoreau s irreverence the authors in Rethinking Place look at key figures in the forest s literary and cultural development to help us think about the affiliations between place and citizenship In Nature as Commodity three essayists consider the ways that writers from the nineteenth and early twentieth centuries thought about nature as a product and thus how their conclusions bear on the contemporary retailing of place The writers in Nature and Culture in the Northern Forest reveal the rich affinities between a specific place and the literature thought and other cultural expressions it has nurtured Their insightful and stimulating connections exemplify adventurous bioregional thinking that encompasses both natural and cultural realities while staying rooted in the particular landscape of some of the Northeast's wildest forests and oldest settlements Poetic Force Kevin McLaughlin, 2014-09-17 This book argues that the theory of force elaborated in Immanuel Kant's aesthetics and in particular his theorization of the dynamic sublime is of decisive importance to poetry in the nineteenth century and to the connection between poetry and philosophy over the last two centuries Inspired by his deep engagement with the critical theory of Walter

Benjamin who especially developed this Kantian strain of thinking Kevin McLaughlin uses this theory of force to illuminate the work of three of the most influential nineteenth century writers in their respective national traditions Friedrich H Iderlin Charles Baudelaire and Matthew Arnold The result is a fine elucidation of Kantian theory and a fresh account of poetic language and its aesthetic ethical and political possibilities A Political Companion to Ralph Waldo Emerson Alan Levine, 2011-09-16 From before the Civil War until his death in 1882 Ralph Waldo Emerson was renowned and renounced as one of the United States most prominent abolitionists and as a leading visionary of the nation s liberal democratic future Following his death however both Emerson's political activism and his political thought faded from public memory replaced by the myth of the genteel man of letters and the detached sage of individualism In the 1990s scholars rediscovered Emerson s antislavery writings and began reviving his legacy as a political activist A Political Companion to Ralph Waldo Emerson is the first collection to evaluate Emerson's political thought in light of his recently rediscovered political activism What were Emerson's politics A Political Companion to Ralph Waldo Emerson authoritatively answers this question with seminal essays by some of the most prominent thinkers ever to write about Emerson Stanley Cavell George Kateb Judith N Shklar and Wilson Carey McWilliams as well as many of today s leading Emerson scholars With an introduction that effectively destroys the pernicious myth about Emerson's apolitical individualism by editors Alan M Levine and Daniel S Malachuk A Political Companion to Emerson reassesses Emerson s famous theory of self reliance in light of his antislavery politics demonstrates the importance of transcendentalism to his politics and explores the enduring significance of his thought for liberal democracy Including a substantial bibliography of work on Emerson's politics over the last century A Political Companion to Ralph Waldo Emerson is an indispensable resource for students of Emerson American literature and American political thought as well as for those who wrestle with the fundamental challenges of democracy and liberalism

Nineteenth-Century Poetry and Liberal Thought Anna Barton,2017-11-27 This book explores the relationship between nineteenth century poetry and liberal philosophy It carries out a reassessment of the aesthetic possibilities of liberalism and it considers the variety of ways that poetry by William Wordsworth Elizabeth Barrett Browning Arthur Hugh Clough George Meredith Robert Browning Matthew Arnold and Algernon Charles Swinburne responds to and participates in urgent philosophical social and political debates about liberty and the rule of law It provides an account of poetry s intervention into four different sites where liberalism has a stake the self the university married life and the nation state and it seeks to assert the peculiar capacity of poetry to articulate liberal concerns proposing poetic language as a means of liberal enquiry Matthew Arnold and English Education Brendan A. Rapple,2017-07-19 Poet and critic Matthew Arnold 1822 1888 was a prominent educator One of Her Majesty s Inspectors of Elementary Schools for 35 years he traveled abroad to report on foreign education Though Arnold is recognized as an early proponent of comparative education there has been little study of his work in the field The author examines Arnold s writings and presents three related arguments that England

was well behind countries like France and Germany in the civilization of her middle class that advances being made abroad were largely due to strong state education systems and that it was essential for England to establish a system of post elementary education modeled on foreign systems Nineteenth Century Prose, 2007 Emerson in Context Wesley Mott, 2014 This collection explores the many intellectual and social contexts in which Emerson lived thought and wrote

Policy Foundations of Education Andrew Wilkins, 2023-03-23 This volume introduces the histories and traditions that have inspired innovation in thinking and writing about policy making and policy worlds in the field of education Through a focus on post positivist epistemologies and anti foundationalist philosophies this volume documents some of the most recent theoretical and empirical developments in the education sub field of policy sociology also known as sociology of education policy or critical policy sociology. The result is a comprehensive text and navigational tool for studying the application and merit of poststructuralist and social constructivist approaches to education policy scholarship About the Educational Foundations series Education as an academic field taught at universities around the world emerged from a range of older foundational disciplines The Educational Foundations series comprises six volumes each covering one of the foundational disciplines of philosophy history sociology policy studies economics and law This is the first reference work to provide an authoritative and up to date account of all six disciplines showing how each field s ideas methods theories and approaches can contribute to research and practice in education today The six volumes cover the same set of key topics within education which also form the chapter titles Mapping the Field Purposes of Education Curriculum Schools and Education Systems Learning and Human Development Teaching and Teacher Education Assessment and Evaluation This structure allows readers to study the volumes in isolation by discipline or laterally by topic and facilitates a comparative thematic reading of chapters across the volumes Throughout the series attention is paid to how the disciplines comprising the educational foundations speak to social justice concerns such as gender and racial equality Overcoming Matthew Arnold James Walter Caufield, 2016-05-13 Opening the way for a reexamination of Matthew Arnold's unique contributions to ethical criticism James Walter Caufield emphasizes the central role of philosophical pessimism in Arnold s master tropes of culture and conduct Caufield uses Arnold's ethics as a lens through which to view key literary and cultural movements of the past 150 years demonstrating that Arnoldian conduct is grounded in a Victorian ethic of renouncement a form of altruism that wholly informs both Arnold's poetry and prose and sets him apart from the many nineteenth century public moralists Arnold's thought is situated within a cultural and philosophical context that shows the continuing relevance of renouncement to much contemporary ethical reflection from the political kenosis of Giorgio Agamben and the pensiero debole of Gianni Vattimo to the ethical criticism of Wayne C Booth and Martha Nussbaum In refocusing attention on Arnold's place within the broad history of critical and social thought Caufield returns the poet and critic to his proper place as a founding father of modern cultural criticism The Coleridge Legacy Philip Aherne, 2018-09-08 This book examines the development of Samuel Taylor

Coleridge's intellectual legacy in Britain and America from 1834 to 1934 by focusing on his late role as the Sage of Highgate and his programme of educating young minds who were destined for the higher professions particularly preaching and teaching Chapters assess his pedagogy and his late publications his posthumous reputation and his influence on aesthetics theology philosophy politics and social reform The book discusses a wide range of British and American intellectuals including Thomas and Matthew Arnold F D Maurice John Stuart Mill Henry Sidgwick Shadworth Hodgson T H Green James Marsh Ralph Waldo Emerson Horace Bushnell William James and John Dewey It demonstrates how Coleridgean ideas were developed and distorted into something he would never have recognized as his own and emphasizes his significance as a catalyst who played a vital role in shaping the intellectual vocation of the long nineteenth century Thought of the Civil War Alan Levine, Thomas W. Merrill, James R. Stoner, Jr., 2019-08-08 Why does the Civil War still speak to us so powerfully If we listen to the most thoughtful forceful and passionate voices of that day we find that many of the questions at the heart of that conflict are also central to the very idea of America and that many of them remain unresolved in our own time The Political Thought of the Civil War offers us the opportunity to pursue these questions from a new critical perspective as leading scholars of American political science history and literature engage in some of the crucial debates of the Civil War era and in the process illuminate more clearly the foundation and fault lines of the American regime The essays in this volume use practical dilemmas of the Civil War to reveal and probe fundamental guestions about the status of slavery and race in the American founding the tension between moralism and constitutionalism and the problem of creating and sustaining a multiracial society on the basis of the original principles of the American regime Adopting a deliberative approach the authors revisit the words and deeds of the most important political actors of era from William Lloyd Garrison John C Calhoun and Abraham Lincoln to Alexander Stephens and Frederick Douglass with reference to the American Founders and the architects of Reconstruction The essays in this volume consider the difficult choices each of these figures made the specific problems they were responding to and the consequences of those choices As this book exposes and explores the theoretical principles at play within their historical context it also offers vivid reminders of how the great controversies surrounding the Civil War continue to shape American political life to this day Handbook of Transatlantic North American Studies Julia Straub, 2016-05-10 Transatlantic literary studies have provided important new perspectives on North American British and Irish literature They have led to a revision of literary history and the idea of a national literature They have changed the perception of the Anglo American literary market and its many processes of transatlantic production distribution reception and criticism Rather than dwelling on comparisons or engaging with the notion of influence transatlantic literary studies seek to understand North American British and Irish literature as linked with each other by virtue of multi layered historical and cultural ties and pay special attention to the many refractions and mutual interferences that have characterized these traditions since colonial times This handbook brings together articles that summarize some of

the crucial transatlantic concepts debates and topics The contributions contained in this volume examine periods in literary and cultural history literary movements individual authors as well as genres from a transatlantic perspective combining theoretical insight with textual analysis Literature, Writing, and the Natural World James Guignard, T. P. Murphy, 2020-06-12 The English Association of Pennsylvania State Universities held its annual meeting in 2006 at Mansfield University in Pennsylvania The conference theme was Literature Writing and the Natural World This collection grows out of the conference and indicates the desire to understand all aspects of our relationship with the natural world the function of literature in clarifying that relationship in ways science and politics cannot and the role of the literature teacher scholar wanting to respond to pressures of environmental change In these times interpretation is a vital task not only for the way it educates us about our attitudes toward nature but because it develops the crucial skills of looking closely engaging reflecting and responding One could argue that as a culture Americans are behind the curve in understanding the ways we depend upon a healthy relationship with nature and one way among many depends upon examining it through texts and textual representation When the writers here dig into The Main Woods Jayber Crow the poetry of Pablo Guevara or the movie Crash they are contributing to our understanding of the ways in which we view nature and how that view plays a role in the way we relate to nature These days many disciplines engage global warming and other environmental issues routinely and the literature classroom should be no different Just as we read a book and address fundamental themes such as What does it mean to love or How do we develop identity we should also be asking What is my responsibility when I decide what resources to use If we understand literature as equipment for living in a warming world we may be able to help students make some sense out of their world and some decisions about how to act Old England, New England, and the Civil War Len Gougeon, 2025-05-01 The first study to document how the Civil War brought about a bitter cultural and political conflict between Great Britain and the United States a conflict that ignited a global struggle for racial equality and human rights This study tells for the first time the story of a bitter cultural and political conflict that arose between the leading writers and intellectuals of Great Britain and the United States during the Civil War The latter were virtually all New Englanders Ralph Waldo Emerson was a central figure The British side included such notables as Thomas Carlyle Matthew Arnold and John Ruskin The conflict was focused on the viability of liberal democracy and the notion that all men are created equal The question was What type of social political and cultural paradigm was best suited to ensure the advancement of civilization one in which all have equal rights regardless of race or class or one where a small number of privileged white elites exercise a controlling power The New Englanders embraced the former and the British the latter The result was a bitter alienation that ignited a global campaign for racial equality and universal human rights **Realism's Others** Eva Aldea, Geoffrey Baker, 2010-07-12 For at least a century scholarship on realist narrative and occasional polemics against realist narrative have assumed that realism promotes the values of sameness against those of otherness and that it does so by use of a

narrative mode that excludes certain epistemologies ideologies and ways of thinking However the truth is more complex than that as the essays in this volume all demonstrate Realism's Others examines the various strategies by which realist narratives create the idea of difference whether that difference is registered in terms of class ethnicity epistemology nationality or gender The authors in this collection examine in detail not just the fact of otherness in some canonical realist and canonical magical realist and postmodern novels but the actual means by which that otherness is established by the text These essays suggest that neither realist narrative nor narratives positioned as anti realist take otherness for granted rather the texts discussed here actively create difference and this creation of difference often occasions severe difficulties for the novels representational schema How does one represent different types of knowledge other aesthetic modes or other spaces for example in texts whose epistemology has long been seen as secular and empirical whose aesthetic mode has always been approached as pure descriptive mimesis and whose settings are largely domestic These essays all begin with a certain collision of nationalities of classes of representational matrices of religions and go on to chart the challenges that this collision presents to our ideas or stereotypes of realism or to the possibilities of writing against and beyond realism This question motivates examination of key realist or social realist texts in some of these essays by Honor de Balzac George Eliot Franz Grillparzer Theodor Storm Gottfried Keller Theodor Fontane Wilhelm Raabe Mar a Amparo Ruiz de Burton Henry James William Dean Howells Charles Chesnutt Theodore Dreiser H T Tsiang Alan Sillitoe and Richard Yates However it is no less central a question in certain non realist texts which engage realist aims to a surprising degree often to debate them openly some of these essays discuss in this light fantastic magical realist and postmodern works by Abram Tertz Paul Auster Alejo Carpentier Toni Morrison Gabriel Garc a M rquez Salman Rushdie and A S Byatt Realism becomes more than an aesthetic aim or narrative mode It becomes rather a value evoked and discussed by all of the works analyzed here in order to reveal its impact on fiction s treatment of ethnicity nationality ideology space gender and social class
