**Re-envisioning the Contemporary Art Canon** Ruth Iskin,2016-12-08 Re envisioning the Contemporary Art Canon Perspectives in a Global World seeks to dissect and interrogate the nature of the present day art field which has experienced dramatic shifts in the past 50 years In discussions of the canon of art history the notion of inclusiveness both at the level of rhetoric and as a desired practice is on the rise and gradually replacing talk of exclusion which dominated critiques of the canon up until two decades ago The art field has dramatically if insufficiently changed in the half century since the first protests and critiques of the exclusion of others from the art canon With increased globalization and shifting geopolitics the art field is expanding beyond its Euro American focus as is particularly evident in the large scale international biennales now held all over the globe Are canons and counter canons still relevant Can they be re envisioned rather than merely revised Following an introduction that discusses these issues thirteen newly commissioned essays present case studies of consecration in the contemporary art field and three commissioned discussions present diverse positions on issues of the canon and consecration processes today This volume will be of interest

to instructors and students of contemporary art art history and museum and curatorial studies     **American Avant-Garde**

**Mouse Muse** Lorna Owen,2014-11-18 A beautifully designed introduction to art history by way of artworks that feature the mouse from the ancient world to drawings by Picasso Disney and Art Spiegelman Across centuries and civilizations artists have used the mouse the planet s most common mammal after us to illustrate our myths and beliefs Mice have appeared as Japanese symbols of good luck or medieval emblems of evil in Arab fables Russian political satire and Nazi propaganda as scientific tools and to help us challenge the way we see nature With more than 80 rarely reproduced works including paintings by Hieronymus Bosch and Gustav Klimt a silkscreen by Andy Warhol a print by Hokusai a photograph by Andr Kert sz a sculpture by Claes Oldenburg a video installation by Bruce Nauman a performance by Joseph Beuys and many more Lorna Owen has created an engaging presentation of an extraordinary range The pieces which represent every period of visual art are accompanied by Owen s intriguing text about the story behind each work She has combined her passion for art and her empathy for the unsung archetype of the animal kingdom to explain not only how or why the artist came to use the mouse as a subject but how the art in the end reveals more about us than it could ever reveal about this humble creature

### **Beyond**

**Taboos** Boireau,2017-10-03 This collection of essays covers the related areas of aesthetics and politics both in the field of theatre and in everyday life Each contributor seeks to illustrate how drama subverts the foundations of the accepted models

### **Visualizing Feeling**

Susan Best,2011-06-30 Is late modern art anti aesthetic What does it mean to label a piece of art affectless These traditional characterisations of 1960s and 1970s art

are radically challenged in this subversive art history By introducing feeling to the analysis of this period Susan Best acknowledges the radical and exploratory nature of art in late modernism Her book focuses on four highly influential female artists Eva Hesse Lygia Clark Ana Mendieta and Theresa Hak Kyung Cha and it explores how their art transformed

established avant garde protocols by introducing an affective dimension This aspect of their work while often noted has never before been analysed in detail Visualizing Feeling also addresses a methodological blind spot in art history the interpretation

of feeling emotion and affect It demonstrates that the affective dimension alongside other materials and methods of art is part of the artistic means of production and innovation This is the first thorough re appraisal of aesthetic engagement with

affect in post 1960s art The book also extends and enlarges the applications of psychoanalytic theory to art history Susan

Best draws on a rich array of psychologists and psychoanalytic thinkers such as Andr Green Sarah Kofman Melanie Klein

Donald Winnicott Ignacio Matte Blanco Silvan Tomkins and Daniel Stern In addition key aesthetic ideas and concepts are interrogated including expressive theories of art beauty and the sublime and embodied responses to art By creatively re

evaluating late modern art Susan Best offers a new way of thinking about subjectivity and feeling which acknowledges and

celebrates the achievements of the feminine avant garde

### **Creating the Future**

Michael Fallon,2017-05-30 Conceived as a challenge to long standing conventional wisdom Creating the Future is a work of social history cultural criticism that

examines the premise that the progress of art in Los Angeles ceased during the 1970s after the decline of the Ferus Gallery the scattering of its stable of artists Robert Irwin Ed Kienholz Ed Moses Ed Ruscha and others and the economic struggles

throughout the decade and didn t resume until sometime around 1984 when Mark Tansey Alison Saar Judy Fiskin Carrie Mae

Weems David Salle Manuel Ocampo among others became stars in an exploding art market However this is far from the reality of the L A art scene in the 1970s The passing of those fashionable 1960s era icons in fact allowed the development of

a chaotic array of outlandish and independent voices marginalized communities and energetic sometimes bizarre visions that thrived during the stagnant 1970s Fallon s narrative describes and celebrates through twelve thematically arranged chapters

the wide range of intriguing artists and the world not just the objects they created He reveals the deeper more culturally

dynamic truth about a significant moment in American art history presenting an alternative story of stubborn creativity in the face of widespread ignorance and misapprehension among the art cognoscenti who dismissed the 1970s in Los Angeles as a

time of dissipation and decline Coming into being right before their eyes was an ardent local feminist art movement which had lasting influence on the direction of art across the nation an emerging Chicano Art movement spreading Chicano murals across Los Angeles and to other major cities a new and more modern vision for the role and look of public art a slow consolidation of local street sensibilities car fetishism gang and punk aesthetics into the earliest version of what would later become the Lowbrow art movement the subversive co opting in full view of Pop Art of the values aesthetics and imagery of Tinseltown by a number of young and innovative local artists who would go on to greater national renown and a number of independent voices who lacking the support structures of an art movement or artist cohort pursued their brilliant artistic visions in near isolation Despite the lack of attention these artists would later reemerge as visionary signposts to many later trends in art Their work would prove more interesting more lastingly influential and vastly more important than ever imagined or expected by those who saw it or even by those who created it in 1970 s Los Angeles Creating the Future is a visionary work that seeks to recapture this important decade and its influence on today s generation of artists

**The DIY Movement in Art, Music and Publishing** Sarah Lowndes, 2016-04-20 This book considers the history of Do It Yourself art music and publishing demonstrating how DIY strategies have transitioned from being marginal to emergent to embedded Through secondary research observation and 30 original interviews each chapter analyses one of 15 creative cities San Francisco Los Angeles Dusseldorf New York London Manchester Cologne Washington DC Detroit Berlin Glasgow Olympia Washington Portland Oregon Moscow and Istanbul and assesses the contemporary situation in each in the post subcultural era of digital and internet technologies The book challenges existing subcultural histories by examining less well known scenes as well as exploring DIY best practices to trace a template of best approaches for sustainable independent locally owned creative enterprises

**The Grove Encyclopedia of American Art** Joan M. Marter, 2011 Arranged in alphabetical order these 5 volumes encompass the history of the cultural development of America with over 2300 entries  
*Subjects and Objects* Jeffrey Strayer, 2007-04-30 The subject matter of Subjects and Objects is the limits of Abstraction in art The notion of Abstraction its development in art history and the relation of art and philosophy regarding Abstraction are considered in addition to identifying and examining things that are essential to artworks Any artwork has an identity and comprehension of that identity depends on a perceptual object A subject s apprehension of such an object creates an artistic complex of which the object the subject and the apprehension are constituents The essential elements of this kind of complex are the subject of the final part of the work Its concluding section considers these elements as material to be used to determine the limits of Abstraction

**Improvisation Hypermedia and the Arts since 1945** Roger Dean, Hazel Smith, 2013-11-05 First Published in 1997 The authors purpose in this book is to dissect developments in improvisation in the arts since 1945 with a particular emphasis on process and technique The approach is analytical and theoretical but is also relevant to practitioners and their audience Their key argument is that improvisation has been of great importance and value in the contemporary arts
