the globe that were highly successful according to both critics and audiences this book of case studies ethnographies of production and reception offers a combined cultural and media studies approach to analyzing theatre history production and audience Tulloch positions these concepts and methodologies within a broader current theatrical debate between postmodernity and risk modernity He also describes the continuing history of Shakespeare and Chekhov as a series of stories currently and locally told in the context of a blurring of academic genres that frames the two writers Drawn from research conducted over nearly a decade in Australia Britain and the U S Shakespeare and Chekhov in Production and Reception will be of interest to students and scholars of theatre studies media studies and audience research
