Ground Anchors and Anchored Structures Petros P. Xanthakos, 1991-09-03 Treating anchorages as a direct application of the laws of statics and the theories governing the transfer of load, this book focuses on designs that are safe and reasonably priced. It is divided into two parts. Following a general introduction in the first chapter, Part One goes on to explore anchor systems, components, installation and construction details. Presents special anchor systems such as extractable compression type, multibell and regroutable anchors. Analyzes the transfer of load and its relation to failure modes and anchor load capacity. Deals with design considerations, covers mechanisms and types of corrosion and details anchor stressing testing programs and evaluation standards. Part Two considers uses and applications and design aspects of anchored structures, presents design examples of practical value and reasonable simplicity and incorporates examples and case histories. Next Generation Science Standards NGSS Lead States, 2013-08-15 Next Generation Science Standards identifies the science all K-12 students should know. These new standards are based on the National Research Council's A Framework for K-12 Science Education. The National Research Council, the National Science Teachers Association, the American Association for the Advancement of Science and Achieve have partnered to create standards through a collaborative state-led process. The standards are rich in content and practice and arranged in a coherent manner across disciplines and grades to provide all students an internationally benchmarked science education. The print version of Next Generation Science Standards complements the nextgenscience.org website and provides an authoritative offline reference to the standards when creating lesson plans. Arranged by grade level and by core discipline, making information quick and easy to find. Printed in full color with a lay-flat spiral binding. Allows for bookmarking, highlighting and annotating. **Electric Light & Power**, 1927
