Handbook of Competition in Banking and Finance Jacob A. Bikker,Laura Spierdijk,2017-09-29 For academics regulators and policymaker alike it is crucial to measure financial sector competition by means of reliable well established methods However this is easier said than done The goal of this Handbook is to provide a collection of state of the art chapters to address this issue The book consists of four parts the first of which discusses the characteristics of various measures of financial sector competition The second part includes several empirical studies on the level of and trends in competition across countries The third part deals with the spillovers of market power to other sectors and the economy as a whole Finally the fourth part considers competition in banking submarkets and subsectors **The Nigerian Banking Sector Reforms** S.

Apati,2015-12-11 This is the first comprehensive book on the politics and economics of financial sector consolidation in an emerging market in West Africa It draws on the author s twenty years experience working with multinationals in this oil rich zone to address key issues and examine banking reform in one of the world s fastest growing economies Financial Risk Management in Banking Shahsuzan Zakaria,Sardar Islam,2019-08-08 As risk taking is an essential part of the banking industry banks must practise efficient risk management to ensure survival in uncertain financial climates Banking operations are specifically affected by fluctuations in interest rates which cause financial imbalance thus banks are now required to put in place an effective management structure that incorporates risk management efficiency measures that help mitigate the wide range of risks they face In this book the authors have developed a new modelling approach to determine banks financial

risk management by offering detailed insights into the integrated approach of dollar offset ratio and Data Envelopment Analysis DEA based on derivatives usage It further analyses the efficiency measurement under stochastic DEA approaches namely i Bootstrap DEA BDEA ii Sensitivity Analysis and iii Chance Constrained DEA CCDEA As demonstrated in the modelling exercise this integrated approach can be applied to other cases that require risk management efficiency measurement strategies Additionally this is the first book to comprehensively review the derivative markets of both the developed and developing countries in the Asia Pacific region by examining the differences of risk management efficiency of the banking institutions in these countries Based on this measurement approach strategies are provided for banks to improve their strategic risk management practices as well as to reduce the impacts from external risks such as changes in interest rates and exchange rates Furthermore this book will help banks to keep abreast of recent developments in the field of efficiency studies in management accounting specifically in relation to hedge accounting used by banks in the Asia Pacific region

EIB Working Papers 2019/07 - What firms don't like about bank loans: New evidence from survey data European Investment Bank,2019-10-15 We use the association between non financial firms and their banks an information available in the European Investment Bank Investment Survey EIBIS to disentangle the effects of borrowers and lenders financial weakness on the satisfaction with the loan contracted The dataset matches survey data of non financial firms about their satisfaction with bank lending with their financial data and the financial data of their banks We find evidence of both demand and supply factors determining firm satisfaction with bank loan financing non financial firms with weaker finances and those financed by weaker banks are less satisfied with their bank financing We also find that the impact of supply factors differs across regions within the EU the effect of bank s financial weakness on borrower satisfaction is not significant in core countries but is in periphery countries

The Measurement of Productive Efficiency and Productivity Growth Harold O. Fried,C. A. Knox Lovell,Shelton S. Schmidt,2008-02-04 When Harold Fried et al published *The Measurement of Productive Efficiency Techniques and Applications* with OUP in 1993 the book received a great deal of professional interest for its accessible treatment of the rapidly growing field of efficiency and productivity analysis The first several chapters providing the background motivation and theoretical foundations for this topic were the most widely recognized In this tight direct update these same editors have compiled over ten years of the most recent research in this changing field and expanded on those seminal chapters The book will guide readers from the basic models to the latest cutting edge extensions and will be reinforced by references to classic and current theoretical and applied research It is intended for professors and graduate students in a variety of fields ranging from economics to agricultural economics business administration management science and public administration It should also appeal to public servants and policy makers engaged in business performance analysis or regulation

Data Envelopment Analysis in the Financial Services Industry Joseph C. Paradi,H. David Sherman,Fai Keung Tam,2017-11-21 This book presents the methodology and applications of Data Envelopment Analysis

DEA in measuring productivity efficiency and effectiveness in Financial Services firms such as banks bank branches stock markets pension funds mutual funds insurance firms credit unions risk tolerance and corporate failure prediction Financial service DEA research includes banking insurance businesses hedge pension and mutual funds and credit unions Significant business transactions among financial service organizations such as bank mergers and acquisitions and valuation of IPOs have also been the focus of DEA research The book looks at the range of DEA uses for financial services by presenting prior studies examining the current capabilities reflected in the most recent research and projecting future new uses of DEA in finance related applications

Microfinance, EU Structural Funds and Capacity Building for Managing Authorities Pasqualina Porretta, Giovanni Pes, 2016-09-30 In recent years the European Commission has attached increasing importance to the use of financial engineering instruments rather than traditional grant based financing for the microcredit sector considering these to be the most efficient option available This book presents a study of capacity building and structural funds in public managing authorities for the microcredit sector It presents two surveys to highlight the strengths and weaknesses of the managing authorities capacity building The first survey investigates the authorities need for and interests in capacity building activities assessing the areas in which capacity building support is needed and explores the different types of support offered The second survey analyses the results of the microcredit and microfinance programming activity investigating its target groups and other operational features It examines the key monitoring and reporting issues involved in this activity before analysing the regulatory framework of the microcredit and microfinance sector This book presents an in depth analysis of structural funds and their management by policy makers

in the European convergence regions It explores the interests of managing authorities microcredit institutions operators and other financial intermediaries involved in microcredit programming activities and offers some core strategic and operational recommendations for the use of structural funds in the microcredit sector **International Capital Markets, August 2001** Mr.Donald J. Mathieson,Mr.Garry J. Schinasi,2001-08-22 This paper reports the on off nature of emerging market access to international capital markets appears to have become a key characteristic of international financial markets Emerging market borrowers have begun to adapt when the market for US dollar denominated bonds has closed these borrowers turn to the syndicated loan markets attempt to issue in bonds denominated in euro or yen or issue in local currency bond markets In addition they employ staff with extensive experience in investment banking and securities trading exploit windows of opportunity to prefund their yearly financing requirement and engage in debt exchanges to extend the maturity of their debt and avoid a bunching of maturities The consolidation of financial institutions is driven by attempts to exploit economies of scale and scope and technological advances such as the Internet and deregulation that facilitate universal banking activities are making it easier to reap such economies Advances in technology are also transforming the securities trading industry Globalization of Financial Markets Claudia M. Buch,2004-05-26 The internationalization of financial markets is one of the focal points in the discussion about recent globalization trends These discussions suggest that capital can move freely between countries However there is ample evidence that national borders do matter and that there are many implicit and explicit barriers to integration Understanding the factors that unify and that separate financial markets and thus reconciling these two stylized facts is at the core of this book While the main focus of the empirical work is on banking industry results are yet informative also with regard to developments in other financial market segments Also the book uses European financial integration as a case study for general integration trends
