Performing Television:

Performing Television Elizabeth Klaver, 2000 Klaver applies post structuralist theories of subjectivity to drama while ranging through Beckett's plays National Hockey League games The Tonight Show gay and lesbian drama minority drama avant garde performance and the topics of theatrical paranoia the mediatized Imaginary and the spectatorial gaze By navigating the political minefield of television sex and violence Klaver shows how drama can subvert those ideologies that would discipline the performance arts BOOK JACKET **Liveness on Stage** Claudia Georgi, 2014-08-27 Theatre is traditionally considered a live medium but its liveness can no longer simply be taken for granted in view of the increasing mediatization of the stage Drawing on theories of intermediality Liveness on Stage explores how performances that incorporate film or video self reflexively stage and challenge their own liveness by contrasting or approximating live and mediatized action To illustrate this the monograph investigates key aspects such as ephemerality co presence unpredictability interaction and realistic representation and highlights their significance for re evaluating received notions of liveness The analysis is based on productions by Gob Squad Forkbeard Fantasy Station House Opera Proto type Theater Tim Etchells and Mary Oliver In their playful approaches these practitioners predominantly present such media combination as a means of cross fertilisation rather than as an antagonism between liveness and mediatization Combining an original theoretical approach with an in depth analysis of the selected productions this study will appeal to scholars and practitioners of theatre and performance as well as to those researching intermedial phenomena *Issues and Singularity in the British Media Volume 2* Renée Dickason, David Haigron, 2024-07-16 This book offers a historical cultural political and socio economic analysis of the British media It examines how facts and events are reported and interpreted but also how ideas and opinions circulate and are recycled with attention being paid to British traits and tropes in these domains This in depth study of issues and singularity aims at understanding how the British media have helped shape the country's culture and representations thereby providing its people with a sense of togetherness Volume 2 focuses on radio and mostly television broadcasting from the interwar period to the early 21st century In order to apprehend what is deeply engrained in British culture and thus contributes to shaping national identity it analyses the ideas disseminated and reflected not only in programmes but also within media institutions in the face of changing political contexts as well as providing a historiographical overview
