status are articulated The adornment of the body is thus an effective means of non verbal communication but one which at the same time is controlled by and dictated through normative social values Exploring dress adornment and the body can therefore open up hitherto unexplored perspectives on these social values in the ancient world an essential missing piece in understanding the social and cultural world which shaped the Hebrew Bible **On Earth as in Heaven?** Melanie

Ross,2025-05-15 Explore the ways material economies have shaped past liturgical practices and continue to underlie our worship today Because the stuff of Christian worship is inextricably enmeshed in the marketplace it seems that our liturgical practices materiality and economics are forever intertwined In On Earth as in Heaven leading scholars who presented the 2023 Yale Institute of Sacred Music Liturgy Conference break new disciplinary ground by investigating complex dynamics of liturgical production distribution and power throughout history This collection critically engages the tension between earthly materialities and eschatological visions of Christian hope offering innovative methodologies case studies and approaches that promise to stimulate further research in liturgical studies and beyond **Dictionary of Daily Life in Biblical and**

discussion of the technical and the natural to the physiological body In doing so the present collection focuses on body technologies in the specific form of beautification and body enhancement techniques as well as medical and surgical treatments The volume elucidates two main points Firstly ancient techno bodies show that the categories of gender and sexuality are at the core of the intersection of the natural and the technical and intersect with notions of race age speciesism class and education and disability Secondly the collection argues that new body technologies have in fact a very ancient history that can help to address the challenges of contemporary technological innovation To this end the volume showcases the intersection of natural bodies with technology gender sexuality and reproduction On the one hand techno bodies tend to align with normative ideas about gender and sexuality On the other hand body modification and or enhancement techniques work hand in hand with economic and political power and knowledge thus they often produce techno bodies that are shaped according to individual needs i e according to a certain lifestyle Consequently techno bodies threaten to alter traditional ideas of masculinity femininity male and female sexuality and beauty

Sweat,2013-10-10 Scholarship on the Gospel of Mark has long been convinced of the paradoxical description of two of its primary themes christology and discipleship This book argues that paradoxical language pervades the entire narrative and that it serves a theological purpose in describing God s activity Part One focuses on divine action

present in Mark 4 10 12 In the first paradox Mark portrays God's revelatory acts as consistently accompanied by concealment The second paradox is shown in the various ways in which divine action confirms yet counters scripture Finally Mark describes God's actions in ways that indicate both wastefulness and goodness deeds that are further illuminated by the ongoing yet defeated presence of evil Part Two demonstrates that this paradoxical language is widely attested across Mark's passion narrative as he continues to depict God's activity with the use of the three paradoxes observed in Mark 4 Through paradoxical narrative Mark emphasizes God's transcendence and presence showing that even though Jesus has brought revelation a complete understanding of God remains tantalizingly out of their grasp until the eschaton 4 22
