2010 CHOICE Outstanding Academic Title Why would someone choose bondage over individual freedom What type of freedom can be found in choosing conditions of enslavement In *Something Akin to Freedom* winner of the 2008 SUNY Press Dissertation First Book Prize in African American Studies Stephanie Li explores literary texts where African American women decide to remain in or enter into conditions of bondage sacrificing individual autonomy to achieve other goals In fresh

readings of stories by Harriet Jacobs Hannah Crafts Gayl Jones Louisa Picquet and Toni Morrison Li argues that amid shifting positions of power and through acts of creative agency the women in these narratives make seemingly anti intuitive choices that are simultaneously limiting and liberating She explores how the appeal of the freedom of the North is constrained by the potential for isolation and destabilization for women rooted in strong social networks in the South By introducing reproduction mother child relationships and community into discourses concerning resistance Li expands our understanding of individual liberation to include the courage to express personal desire and the freedom to love **The three brothers.**

Buonaparte Robert E. Robinson,1959 Hearings and Reports on Atomic Energy United States. Congress. Joint Committee on Atomic Energy,1946 *The Boundaries of Desire* Eric Berkowitz,2015-08-01 The act of reproduction and its variants never change much but our ideas about the meaning of sex are in constant flux Switch a decade cross a border or traverse class lines and the harmless pleasures of one group become the gravest crimes in another Combining meticulous research and lively storytelling *The Boundaries of Desire* traces the fast moving bloodsport of sex law over the past century and challenges our most cherished notions about family power gender and identity Starting when courts censored birth control information as pornography and let men rape their wives and continuing through the sexual revolution and into the present day when rape gay rights sex trafficking and sex on the internet saturate the news Berkowitz shows how the law has remained out of synch with the convulsive changes in sexual morality By focusing on the stories of real people Berkowitz adds a compelling human element to what might otherwise be faceless legal battles The law is made by people after all and

nothing sparks intolerance on the left and right more than sex Ultimately Berkowitz shows the emptiness of sanctimonious condemnation and argues that sexual questions are too subtle and volatile for simple catch all solutions

The Baroque in Architectural Culture, 1880-1980 Andrew Leach, John Macarthur, 2016-03-09 In his landmark volume *Space Time and Architecture* Sigfried Giedion paired images of two iconic spirals Tatlin's Monument to the Third International and Borromini's dome for Sant Ivo alla Sapienza The values shared between the baroque age and the modern were thus encapsulated on a single page spread As Giedion put it writing of Sant Ivo Borromini accomplished the movement of the whole pattern from the ground to the lantern without entirely ending even there And yet he merely groped towards that which could be completely effected in modern architecture achieving the transition between inner and outer space The intellectual debt of modern architecture to modernist historians who were ostensibly preoccupied with the art and architecture of earlier epochs is now widely acknowledged This volume extends this work by contributing to the dual projects of the intellectual history of modern architecture and the history of architectural historiography It considers the varied ways that historians of art and architecture have historicized modern architecture through its interaction with the baroque a term of contested historical and conceptual significance that has often seemed to shadow a greater contest over the historicity of modernism Presenting research by an international community of scholars this book explores through a series of cross sections the traffic of ideas between practice and history that has shaped modern architecture and the academic discipline of architectural history across the long twentieth century The editors use the historiography of the baroque as a lens through which to follow the path of modern ideas that draw authority from history In doing so the volume defines a role for the baroque in the history of architectural historiography and in the history of modern architectural culture
