## **Permanent Revolution:**

*The Permanent Revolution & Results and Prospects* Leon Trotsky, 2020-05-22 Trotsky's theory of the permanent revolution is one of the most important additions to the arsenal of Marxism. It was first developed by Trotsky in 1904 on the eve of the first Russian Revolution. At that time all the tendencies of the Russian Social Democracy had the perspective of a bourgeois democratic revolution. Trotsky alone in 1905 put forward the idea that the Russian working class could come to power before the workers of Western Europe. The correctness of Trotsky's theory was brilliantly demonstrated in 1917 when the Bolshevik Party under Lenin and Trotsky led the Russian proletariat to power in the first workers state in the world. However, after the death of Lenin in 1924 the theory of the permanent revolution was subject to a vitriolic onslaught by the Stalinist bureaucracy which had in effect renounced world revolution in favour of socialism in one country. The attack on the theory came to epitomise the struggle against Trotskyism. Today however with the collapse of Stalinism and with it socialism in one country Trotsky's theory of the permanent revolution has become more relevant than ever.

**Permanent Revolution** James Simpson, 2019-02-18 How did the Reformation which initially promoted decidedly illiberal positions end up laying the groundwork for Western liberalism? The English Reformation began as an evangelical movement driven by an unyielding belief in predestination, intolerance, stringent literalism, political quietism and destructive iconoclasm. Yet by 1688 this illiberal early modern upheaval would deliver the foundations of liberalism: free will, liberty of conscience, religious toleration, readerly freedom, constitutionalism and aesthetic liberty. How did a movement with such illiberal beginnings lay the groundwork for the Enlightenment? James Simpson provocatively rewrites the history of liberalism and uncovers its unexpected debt to evangelical religion. Sixteenth-century Protestantism ushered in a culture of permanent revolution, ceaselessly repudiating its own prior forms. Its rejection of tradition was divisive, violent and unsustainable. The proto-liberalism of the later seventeenth century emerged as a cultural package designed to stabilize the social chaos brought about by this evangelical revolution. A brilliant assault on many of our deepest assumptions, *Permanent Revolution* argues that far from being driven by a new strain of secular philosophy, the British Enlightenment is a story of transformation and reversal of the Protestant tradition from within. The gains of liberalism were the unintended results of the violent early Reformation. Today those gains are increasingly under threat in part because liberals do not understand their own history. They fail to grasp that liberalism is less the secular opponent of religious fundamentalism than its dissident younger sibling, uncertain how to confront its older evangelical competitor.

The Permanent Revolution Leon Trotsky, 2018-07-28 Trotsky's conception of Permanent Revolution is based on his understanding drawing on the work of fellow Russian Alexander Parvus that a Marxist analysis of events began with the international level of development, both economic and social. National peculiarities are only an expression of the contradictions in the world system. According to this perspective the tasks of the Bourgeois Democratic Revolution could not be achieved by the

bourgeoisie itself in a reactionary period of world capitalism The situation in the backward and colonial countries particularly Russia bore this out This conception was first developed in the essays later collected in his book 1905 and in his essay Results and Prospects and later developed in his 1929 book The Permanent Revolution The basic idea of Trotsky's theory is that in Russia the bourgeoisie would not carry out a thorough revolution which would institute political democracy and solve the land question These measures were assumed to be essential to develop Russia economically Therefore it was argued the future revolution must be led by the proletariat who would not only carry through the tasks of the Bourgeois Democratic Revolution but would commence a struggle to surpass the bourgeois democratic revolution Trotsky's theory was developed in opposition to the Social Democratic theory that undeveloped countries must pass through two distinct revolutions First the Bourgeois Democratic Revolution which socialists would assist and at a later stage the Socialist Revolution with an evolutionary period of capitalist development separating those stages This is often referred to as the Theory of Stages the Two Stage Theory or Stagism

**Permanent Revolution** Sigmund Neumann, 2023-10-16 Permanent Revolution stands out as a classic study of the social structure of totalitarian rule The problem of totalitarianism and democracy is still with us and Neumann's dictum that it is much more than a problem of constitutional structure of economic progress it is above all the difference in basic human concepts is as valid today as it was in 1942 Neuman's analysis of dictatorship opens a new approach to political dynamism for the democracies For it deals ultimately with a lasting problem the dignity and personal responsibility of the individual from the Preface by Hans Kohn

**The Permanent Revolution & Results and Prospects** Leon Trotsky, 2010 Originally published Moscow New York Progress Publishers Militant Publishing Association 1931

**Permanent Revolution in Latin America** John Peter Roberts, Jorge Martin, 2018-11-22 This book presents the histories of the revolutions in Cuba Nicaragua and Venezuela as the latest demonstrations of the price the popular masses pay for the absence of a correct revolutionary strategy The goal of the leaders of the revolutionary movements in all three countries was

to create a progressive independent bourgeois democratic state but contrary to expectations the national bourgeoisie did not welcome a national democratic revolution. Instead faced with a mass movement it fought hard to reassert its own and US imperialism's economic and political stranglehold opposing increased democratic rights, greater social equality, agrarian reform and the redistribution of wealth. We trace how in all three countries the national bourgeoisie joined forces with imperialism and used violent methods to reverse the progressive measures made and when these attempts failed carried on a campaign of economic sabotage to starve the masses into submission. In Cuba the revolution was propelled forward by abolishing capitalism and enormous conquests were made. In Nicaragua and Venezuela the revolution was stopped half way leading to disaster and defeat. As the world enters a decisive revolutionary epoch reformists just as they did in Nicaragua and Venezuela attempt to hold that revolution back. In the face of all experience their solution to social crises is one which stubbornly remains within the narrow limits of capitalism. This book is a contribution to the debate about revolutionary strategy. It highlights the lessons to be learned from the recent past, argues against the failed reformist approach and draws the conclusion that only through the workers coming to power and expropriating the oligarchy can we begin to overcome the exploitation and oppression of the masses.

**100 Years of Permanent Revolution** Bill Dunn, Hugo Radice, 2006-05-20. One hundred years on from their first appearance in Leon Trotsky's *Results and Prospects* this is a critical re-evaluation of two key Marxist theories: uneven and combined development and permanent revolution. It brings together a formidable array of Marxist intellectuals from across the world including Daniel Bensaid, Michael LeWey, Hillel Ticktin and Patrick Bond. Marx saw societies progressing through distinct historical stages: feudal, bourgeois and communist. Trotsky advanced this model by considering how countries at different stages of development influence each other. Developed countries colonise less developed countries and exploit their people and resources. Elsewhere even as many were kept in poverty the influence of foreign capital and state-led industrialisation produced novel economic forms and prospects for political alliances and change. The contributors show how 100 years on from its original publication Trotsky's theories are hugely useful for understanding today's globalised economy dominated by US imperialism.

**Witnesses to Permanent Revolution** Richard B. Day, Daniel Gaido, 2009. The theory of Permanent Revolution has been associated with Leon Trotsky for more than a century since the first Russian Revolution in 1905. Trotsky was the most brilliant proponent of Permanent Revolution but by no means its sole author. The documents in this volume, most of them translated into English for the first time, demonstrate that Trotsky was one of several participants in a debate from 1903-7 that involved numerous leading figures of Russian and European Marxism including Karl Kautsky, Rosa Luxemburg, Franz Mehring, Parvus and David Ryazanov. This volume reassembles that debate, assesses it with reference to Marx and Engels and provides new evidence for interpreting the formative years of Russian revolutionary Marxism.

**China: From Permanent Revolution to Counter-Revolution** John Peter Roberts, 2018-11-12. This book is a comprehensive analysis of the revolutionary history of China from the early 20th century to the present era of

crisis aided by a wealth of research which cuts across the many historical distortions both of bourgeois academia and of the Chinese Communist Party This book answers the questions What was the class composition and class nature of the Chinese Communist Party when it took power in 1949 What forces pushed the Mao regime despite its explicitly class collaborationist strategy to take measures which were objectively socialist and to establish the Chinese workers state The Chinese Revolution was a practical test of both Trotsky s theory of permanent revolution and Mao s theory of uninterrupted revolution by stages Which theory matched reality The degeneration of the Chinese People s Republic to capitalism has been a second rigorous practical test of Trotsky s analyses Has his prognosis that without a political revolution to overthrow the regime a Stalinist bureaucratic state would return to capitalism been proved correct

**Lenin, Trotsky and the Theory of the Permanent Revolution** John Peter Roberts,2014 Today yet again from Latin America to Nepal in India and the Middle East the question of which strategy the masses should adopt to take control of their own lives is being posed Without exception the leaders of the mass workers parties urge class collaboration as the way forward Actively supported by the national Communist Parties and even Maoist guerrilla groups a petty bourgeois amalgam proposes collaboration with the so called national bourgeoisie as the only path to national independence and democracy In the century since the Russian Revolution the first modern popular revolution to succeed in throwing out the imperialists much time and effort has been spent especially by the former Soviet bureaucracy in neutering Lenin praising him while tearing out the revolutionary heart of his theories This book demonstrates that the Russian Revolution a model for a victorious popular revolution in a semi colonial country in the era of imperialism required not a bourgeois democratic but a socialist revolution for the people to take power The old regime had to be destroyed and the state and governmental power seized by the working classes before it was possible to achieve national independence and carry through any meaningful agrarian reform for the benefit of the peasantry Lenin s close collaborator in October 1917 was Leon Trotsky and the success of that revolution was due to the combination of the discipline and organisation of Lenin s Bolshevik Party and Trotsky s political theory of the permanent revolution This book goes back to basics critically analysing and comparing Lenin s and Trotsky s own writings which are sited in their source and inspiration the Russian Revolution of 1905 It is shown that Lenin in October 1917 adopted the perspectives of Permanent Revolution that to finally rid Russia of autocracy and legitimise the peasants seizure of the land the Russian Revolution required the introduction of the dictatorship of the proletariat and the first steps towards the collectivisation of the means of production Those who attack the theory of Permanent Revolution never challenge the correctness of its basic concept that the international socialist revolution could begin in semi feudal Russia Instead in the guise of anti Trotskyism they deny the validity of Lenin s struggle for a socialist revolution in October 1917

**Poland's Permanent Revolution** Jane Leftwich Curry, Luba Fajfer, 1996 This is a history of Poland's post World War II Communist era that approaches the transition from Communism to democracy through an analysis of Poland's political crises beginning with the 1956 uprising and culminating in the 1990 collapse of the former Communist regime. **International Press Correspondence**, 1926 **Witnesses to Permanent Revolution: The Documentary Record** Richard B.
