Permanently Failing Organizations:

Permanently Failing Organizations Marshall W. Meyer, Lynne G. Zucker, 1989-02 In this volume the authors closely examine performance and draw on both sociology and economics to explain why some organizations perform well and others perform badly They first separate the concept of organizational performance from that of organizational persistence Then they develop a provocative theory of why and how organizations tend towards failure and how they survive in spite of it Meyer and Zucker contend that management plays a critical role in the movement towards or away from poor performance yet persistence is determined by the often competing interests of owners managers workers and the public *Permanently Failing Organizations* Marshall W. Meyer, Lynne G. Zucker, 1989-02-01 In this volume the authors closely examine performance and draw on both sociology and economics to explain why some organizations perform well and others perform badly They first separate the concept of organizational performance from that of organizational persistence Then they develop a provocative theory of why and how organizations tend towards failure and how they survive in spite of it Meyer and Zucker contend that management plays a critical role in the movement towards or away from poor performance yet persistence is determined by the often competing interests of owners managers workers and the public The Contingency Theory of Organizations Lex Donaldson, 2001-02-20 Written by one of the foremost scholars in the field this volume presents a comprehensive in depth analysis of the theories evidence and methodological issues of contingency theory one of the major theoretical lenses used to view organizations It includes both an appreciation of the coherency of contingency theory overall and a frank recognition of some of the deficiencies in contingency theory research The coherent underlying model provides the platform from which to make good some of the deficiencies through a series of improvements in theory and method that chart the course for future research **The Rise and Fall of Faith-Based Hospitals** Georgine Scarpino Rsm Ph.

D., 2013-03 This book is a meta analysis of the relationship of margin and mission of faith based hospitals in Allegheny County Pennsylvania to their beginnings and endings It reviews the various local state and federal events and factors that impacted these hospitals during their growth and decline from 1847 through 2008 Most importantly the book shares the courage hardships and perseverance of the founders of these institutions many of whom were women as they responded to one crisis after another but never gave up their commitment to serve the poor and sick of Pittsburgh and Allegheny County

Temporary Organizations Patrick Kenis, Martyna Janowicz, Bart Cambré, 2009-01-01 This important and timely book provides a systematic treatment of temporary organizations an increasingly prevalent organizational form in which organizations work together on a joint task for example a movie production a rescue operation development of a new product for an ex ante limited period of time Demonstrating that temporary organizations are increasingly common the book provides insights on how they differ from the classical organization and contributes to our understanding of what makes temporary organizations effective Contributions by reputed organization scholars focus on the impact that this limited duration has on

the way that temporary organizations structure their activities organize work use resources and achieve outcomes Moreover the tenability of various organizational concepts and theories for temporary contexts is examined and some unique phenomena inherent to temporariness are explored Researchers interested in organizational design and project management scholars will warmly welcome this book as will graduate students in organization studies management studies public policy studies leisure studies public administration and students of project management *Organizational Behavior* 4 John B.

Miner,2007-03-05 This unique work bridges the gap between theory and practice in organizational behavior It provides a practical guide to real life applications of the 35 most significant theories in the field The author describes each theory then analyzes its usefulness and importance to the successful practice of management His analysis covers key managerial topics such as goal setting training and development assessment job enrichment influence processes decision making group processes organizational development organizational structuring and effective organizational operation **Prisoners of**

Myth Erwin C. Hargrove,1994-08-08 Prisoners of Myth is the first comprehensive history of the Tennessee Valley Authority from its creation to the present day It is also a telling case study of organizational evolution and decline Building on Philip Selznick s classic work TVA and the Grass Roots 1949 a seminal text in the theoretical study of bureaucracy Erwin Hargrove analyzes the organizational culture of the TVA by looking at the actions of its leaders over six decades from the heroic years of the New Deal and World War II through the postwar period of consolidation and growth to the time of troubles from 1970 onward when the TVA ran afoul of environmental legislation built a massive nuclear power program that it could not control and sought new missions for which there were no constituencies The founding myth of multipurpose regional development was inappropriately pursued in the 1970s and 80s by leaders who became prisoners of myth in their attempt to keep the TVA heroic A decentralized organization which had worked well at the grass roots was difficult to redirect as the nuclear genie spun out of control TVA autonomy from Washington once a virtue obscured political accountability This study develops an important new theory about institutional performance in the face of historical change **Reworking the Student**

Departure Puzzle John M. Braxton,2000 Contributors offer a variety of theoretical and methodological perspectives on the departure puzzle and student retention Adapted from publisher s description **Evolutionary Dynamics of Organizations**

Joel A.C. Baum,Jitendra V. Singh,1994-03-31 This book presents the latest research and theory about organizational evolutionary change It brings together the work of organization theorists who have played key roles in challenging the orthodox adaptation views that prevailed until the beginning of the 1980s Joel A C Baum and Jitendra V Singh emphasize hierarchy of evolutionary processes at the intraorganizational level the organizational level the population level and the community level Derived from a conference held at the Stern School of Business at New York University Evolutionary Dynamics of Organizations is organized in a way that gives order and coherence to what has been a diverse and multidisciplinary field *Do Organizations Have Feelings?* Martin Albrow,2002-11-01 Do Organisations have Feelings

argues that any adequate explanation of the way organizations function for those engaged in business and those who study it must transcend the traditional divide between reason and emotion. The papers in this important collection by one of the leading world authorities in the studies of organizations were written over a period of thirty years. They are now presented together for the first time with an extended commentary and discussion by the author and two specially written chapters to bring the story right up to date. Together they provide a fascinating history of the way organizations have reflected changes in society at large as we move into the epoch of globalisation.

Nonprofit Organizations Helmut K. Anheier, 2006-08-21

This text is the first to dedicate itself to the nonprofit sector. It provides a comprehensive overview of nonprofit and voluntary organizations: nongovernmental organizations, philanthropic foundations, and civil society institutions. Taking an international perspective, it details the background and concepts behind these organizations and examines the theory, management, and policy which informs them. Questions answered include: What are nonprofit and voluntary organizations? What is the history of the nonprofit sector? What is the scale and structure of the nonprofit sector? How can we explain the existence and behaviour of nonprofit organizations? How do nonprofits obtain funding and how do they manage resources? With strong pedagogical features and the author's own extensive experience, this book is a valuable reference for all those involved in nonprofit making organizations as well as those in the wider public administration and management arena.

When Things Go

Wrong Helmut K. Anheier, 1999-01-01 To understand success you must first understand failure. This understanding is especially critical since failure is a phenomenon that is much more common to everyday life, businesses, and government practice than standard theory would lead us to assume. Failure manifests itself in many ways, including breakdowns, bankruptcies, and other forms of organizational catastrophes and fiascos. Thus, learning from failure will enable success. *When Things Go Wrong* brings together contributions from 24 leading scholars who examine the causes, patterns, process, and outcomes of such failures from economic, managerial, cognitive, and political perspectives. This book presents failure as a relative concept in terms of the expectations and strategies of stakeholders putting a claim on the performance of the organization and the notion of success. It challenges future research in this field to combine both economic and non-economic performance measures to assess organizational tendencies toward success and failure and to differentiate between failure as process and failure as an outcome.

Rethinking Education Stephen Murgatroyd, 2011-10 This publication represents the

first of a series of books that will profile some of the forward thinking work being undertaken by leading education researchers and policy experts focused on transforming the face of public education and the future of Alberta. The Co-creating a Learning Alberta book series is a partnership with leading public policy thinkers and the Alberta Teachers Association that flows from the public lecture series called Learning our Way to the Next Alberta. Since its inception in 2004, this lecture series has drawn over 5,000 participants and continues to push our thinking about the hopes and possibilities for the future of this province and is profiled at www.learningourway.ca. In these public lectures, three questions have come to

dominate the conversations about the future of the Alberta What is the Alberta that the world needs to see What kind of Albertans do we need to become to get us there and How will leadership in learning help us become our best selves Free to Fail Arjen van Witteloostuijn, Hugh C. van der Mandele, 2013-01-01 This challenging book tackles one of the most fundamental questions in economics Why are commercial organizations more efficient than organizations in the public domain It is generally accepted that the traditional answer the fact that commercial organizations maximize profits does not necessarily hold true Finding a solution to this anomaly as this book attempts to do should therefore be a prime concern in economics The authors believe the answer lies in the fact that even in a completely stable environment all organizations will eventually fail irreparably Organizations operating in the market are more efficient because once in decline they are free to fail and allowed to be disassembled or even replaced Public organizations that fail are more often than not protected and allowed to continue even though their efficiency is questionable This fascinating and thought provoking book will provide a stimulating read for academics and students with an interest in economics business and management and public policy

Human Service Organizations in Times of the COVID-19 Hillel Schmid, Itay Greenspan, 2025-05-09 This book explores the ramifications of the COVID 19 pandemic crisis on human service organizations from an international perspective The pandemic is described as a disruptive extreme event that has resulted in extensive and intolerable physical psychological and material consequences for members and clients within human service

organizations The chapters in this volume highlight the need for organizations to strengthen their resilience adapt to changing external circumstances and continue to serve their missions effectively They address the implications of a health and social pandemic on economic resilience changes in work technologies therapeutic intervention programs human resources organizational structure and social media tools used by human service organizations The eleven chapters of this volume cover seven countries representing diverse socio political cultural and economic systems ranging from the USA and the UK to Austria Bangladesh China and Israel The perspectives presented in these chapters offer a significant contribution to theory research and practice in the management of human service organizations during times of disruptive extreme events The chapters in this book were originally published in Human Service Organizations Management Leadership Governance

The Leadership Lifecycle A. Ward, 2002-11-18 This book presents a model of the leadership process that identifies which factors create an effective leader at different points in the organisation's lifecycle and which forces act as moderators to that effectiveness The dimension of how the dynamics of leadership play out over time is what distinguishes this work from previous books on leadership Why Decisions Fail (EasyRead Comfort Edition) Paul C. Nutt, 2003 This book analyzes the chains of blunders and bad judgments that led to fifteen legendary debacles including the Firestone tire recall EuroDisney and Quaker's failed acquisition of Snapple In each case the author pinpoints exactly how and where the decision making process went wrong and shows what managers in any organization can learn from these monumental fiascoes Based on his analysis of 400 strategic decisions made by top managers in areas such as products and services pricing and markets personnel policy technology acquisition and strategic reorganization the author estimates that two thirds of all decisions are based on failure prone or questionable tactics He uses the fifteen monumental decision making disasters to illustrate the potential consequences of these common tactical errors and traps He then details successful alternative approaches to decision making Back cover
