Barbara Brend, 2013-11-05 This is a detailed study of the illustrations to Amir Khusrau's Khamsah in which twenty discourses are followed by a brief parable and four romances Amir Khusrau 1253-1325 lived the greater part of adventurous life in Delhi he composed in Persian and also in Hindi From the point of view of manuscript illustration his most important work is his Khamsah Quintet Khusrau's position as a link between cultures of Persia and India means that the early illustrated copies of the Khamsah have a particular interest The first extant exemplar is from the Persian area in the late 14th century but a case can be made that work was probably illustrated earlier in India **Illustrated Poetry and Epic Images** Marie Lukens

W.

Robinson, 1993-03 In this book B W Robinson traces the development of the different styles of Persian painting during the fifteenth century and considers a number of the problems and issues involved in establishing a methodology and system of classification for Persian painting of that period Robinson begins by way of background with a review of the schools of Herat and Shiraz up to the middle of the century and then proceeds to tackle in order the three main fields of controversy painting under the Turkmans Timurid paintings in Transoxiana and Timurid painting in India The uneasy fusion of contrasting characteristics of Herat and Shiraz that resulted in the emergence of Turkman court painting is traced through the origins development and branching of the Turkman style into a definitive form Then the author reviews a branch of the art almost entirely neglected up to now which he identifies as originating in Transoxiana Finally he provides a new approach to the study of pre-Mughal Indian painting in Persian style by dividing the material into five stylistic groups **Jalayirids** Patrick

Wing,2016-01-18 This book traces the origins history and memory of the Jalayirid dynasty a family that succeeded the Mongol Ilkhans in Iran and Iraq in the 14th and early 15th centuries The story of how the Jalayirids came to power is illustrative of the political dynamics that shaped much of the Mongol and post Mongol period in the Middle East The Jalayirid sultans sought to preserve the social and political order of the Ilkhanate while claiming that they were the rightful heirs to the rulership of that order Central to the Jalayirids claims to the legacy of the Ilkhanate was their attempt to control the Ilkhanid heartland of Azarbayjan and its major city Tabriz Control of Azarbayjan meant control of a network of long distance trade between China and the Latin West which continued to be a source of economic prosperity through the 8th 14th century Azarbayjan also represented the center of Ilkhanid court life whether in the migration of the mobile court camp of the ruler or in the complexes of palatial religious and civic buildings constructed around the city of Tabriz by members of the Ilkhanid royal family as well as by members of the military and administrative elite

The Art and Architecture of Islam

1250-1800 Sheila S. Blair,Jonathan M. Bloom,1996-09-25 They discuss for example how the universal caliphs of the first six centuries gave way to regional rulers and how in this new world order Iranian forms techniques and motifs played a dominant role in the artistic life of most of the Muslim world the one exception was the Maghrib an area protected from the full brunt of the Mongol invasions where traditional models continued to inspire artists and patrons By the sixteenth century say the authors the eastern Mediterranean under the Ottomans and the area of northern India under the Mughals had become more powerful and the Iranian models of early Ottoman and Mughal art gradually gave way to distinct regional and imperial styles

Mediaeval Persian Painting Adel' Tigranovna Adamova,2008 This book is a survey of the historical evolution of Persian painting and the factors internal as well as external which shaped its development and brought significant changes in the subject matter and forms of representation As these forms changed so did their status and the hierarchies of values they embodied coming to reflect changing views on the status of images and the nature of painterly skill Thus an age when monumental painting largely determined the character of the representational arts gave way to a period when books and book painting defined artistic taste while subsequently a fashion for paintings and drawings on single sheets created a taste for painting in oils on canvas The final chapter of the book is an attempt to reconstruct one of the most famous albums the so called St Petersburg Muraqqa BOOK JACKET

the role of the Iranian peoples in the development and consolidation of Islamic civilization In his key essay Ehsan Yarshater casts fresh light on that role challenging the view that after reaching a climax in Baghdad in the ninth century Islamic culture entered a period of decline In fact he maintains a new and remarkably creative phase began in Khurasan and Transoxania symbolized by the adoption of Persian as a medium of literary expression By the mid sixteenth century Persian literary and intellectual paradigms had spread from Anatolia to India encompassing the greater part of the Islamic world Yarshater also challenges traditional assumptions about the Islamization of Persia In the essays which follow six distinguished scholars consider the historical cultural and religious aspects of the Persian presence in the Islamic world **Prefacing the Image**
