because in the beginning breeders crossed long haired cats it didn't matter which origin the cats had. The modern Persian cat besides the long hair is characterized by short legs and a flat face. Since the short nose leads to various problems, the trend towards the Persian cat with nose is gaining ground in Europe. The book informs you in detail about Peke Face and Doll Face and answers many questions about keeping Persian cats. Why Persians do not need regular outdoor access. How time consuming is the care of the cats. What diseases are common in Persian cats. Why you should train a Persian cat. The reading gives a deep insight into the character of Persian cats. You will also get valuable tips on how to gently prepare the animals for necessary but unpleasant procedures. The contents of the book include the following: History of the breed and hereditary diseases, Breed characteristics, appearance and character, Care of cats, brushing, combing or bathing, Healthcare, Selection and purchase of the animal, Preparation for moving in, Necessary purchases, Training and dressage, Socialization and tricks, Dealing with problems and much more. There are over 10 illustrations waiting for you. The book is aimed at people who want to learn about the breed before acquiring a Persian cat, beginners who need advice on how to keep the animals or long time cat owners who are happy to have some additional information. We wish you a lot of fun with the cat.
