   Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office,1975   Meta-Religion James W. Laine,2015-01-03 Whereas many textbooks treat the subject of world religions in an apolitical way as if each religion were a

path for individuals seeking wisdom and not a discourse intimately connected with the exercise of power James W Laine treats religion and politics as halves of the same whole tracing their relationship from the policies of Alexander the Great to the ideologies of modern Europe secularists with stops in classical India China and the Islamic world Meta Religion is a groundbreaking text that brings power and politics to the fore of our understanding of world religions placing religion at the center of world history This synthetic approach is both transformative and enlightening as it presents a powerful model for thinking differently about what religion is and how it functions in the world With images and maps to bring the narrative to life Meta Religion combines sophisticated scholarly critique with accessibility that students and scholar alike will appreciate

   Women of the Praia Sally Cooper Cole,1991-10-27 In this richly detailed sensitive ethnographic work Sally Cole takes as

her starting point the firsthand accounts of five differently situated Portuguese women who describe their lives in a rural fishing community on the north coast of Portugal Skillfully combining these life stories with cultural and economic analysis Cole radically departs from the picture of women as sexual beings that prevails in the anthropological literature on Europe and the Mediterranean Her very different strategy a focus on women as workers reflects the Portuguese women s own definition of themselves and allows them the strong resonant voice that is the goal of both the new ethnography and feminist scholarship From this new perspective Cole proposes an important critique of the dominant paradigm of southern European gender relations as being embedded in the code of honor and shame Covering the Salazar years as well as the period since the 1974 Revolution Cole shows that fisherwomen of the past enjoyed greater autonomy in work and social relations than do their daughters and granddaughters who live in a context of increasing commoditization and industrialization Central to this account is an examination of the changing structure and role of the household as economic production moved to the factory

The Making of the Modern Greek Family Paul Sant Cassia,Constantina Bada,1992 This 1991 study deals with a specific set of institutions in nineteenth century Athens Relying on matrimonial contracts travellers accounts memoirs and popular literature the authors show how distinctive forms of marriage kinship and property transmission evolved in Athens in the nineteenth century These forms then became a feature of wider Greek society which continued into the twentieth century Greece was the first post colonial modern nation state in Europe whose national identity was created largely by peasants who had migrated to the city As Athenian society became less agrarian a new mercantile group superseded and incorporated previous elites and went on to dominate and control the new resources of the nation state Such groups developed their own more mobile systems of property transmission mostly in response to external pressures of a political and economic character This is a persuasive piece of detective work which has advanced our knowledge of modern Greece It is a model for scholarship on the development of family and other intimate ideologies where nation states encroach upon local consciousness   *Pieties in Transition* Elisabeth Salter,2017-05-15 This significant and innovative collection explores the changing piety of townspeople and villagers before during and after the Reformation It brings together leading and new scholars from England and the Netherlands to present new research on a subject of importance to historians of society and religion in late medieval and early modern Europe Contributors examine the diverse evidence for transitions in piety and the processes of these changes The volume incorporates a range of approaches including social cultural and religious history literary and manuscript studies social anthropology and archaeology This is therefore an interdisciplinary volume that constitutes a cultural history of changing pieties in the period c 1400 1640 Contributors focus on a number of specific themes using a range of types of evidence and theoretical approaches Some chapters make detailed reconstructions of specific communities groups and individuals some offer perceptive and useful analyses of theoretical and comparative approaches to transition and to piety and others closely examine cultural practices ideas and tastes Through this range of detailed work

which brings to light previously unknown sources as well as new approaches to more familiar sources contributors address a number of questions arising from recent published work on late medieval and early modern piety and reformation Individually and collectively the chapters in this volume offer an important contribution to the field of late medieval and early modern piety They highlight for the first time the centrality of processes of transition in the experience and practice of religion Offering a refreshingly new approach to the subject this volume raises timely theoretical and methodological questions that will be of interest to a broad audience   **Encountering Mary** Sandra L. Zimdars-Swartz,2014-07-14 In the past two centuries hundreds of apparitions of the Virgin Mary have been reported drawing crowds to the seers and the sites and constituting events of great religious significance for millions of people worldwide Here Sandra Zimdars Swartz provides a detective like investigation of the experiences and interpretations of six major apparitions including those at La Salette and Lourdes in France during the mid nineteenth century at Fatima Portugal in 1917 and the more recent ones at San Damiano Italy Garabandal Spain and Medjugorje Yugoslavia where the apparitions continue Adopting a phenomenological approach to these encounters with Mary one that is neither apologetic nor antagonistic the author explores the tension between the personal meaning of the events for their subjects and the public appropriation of this meaning by a larger religious community Along the way she examines the backgrounds of the seers their willingness or reluctance to talk about the apparitions and their messages the amount of emotional support they received from family and community as news of the apparitions spread the reports of miracles at apparition sites the reactions of local authorities and the steps taken by the Roman Catholic Church in officially recognizing or rejecting the apparitions as worthy of belief The author concludes with a survey of religious worldviews based on Marian apparitions focusing especially on the now popular transcultural apocalyptic nature of these messages to the modern world Originally published in 1991 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905
