Charmé, 2015-09-30 This book explores major theoretical issues in the study of an individual life through its focus on Jean Paul Sartre Sartre's quest for an existential psychoanalysis led him to develop what he called true novels in the landmark studies of Flaubert and others In clarifying Sartre's philosophical ideas in relation to the analysis of the self Stuart L. Charmé examines the attraction repulsion of Freudian concepts and explores parallels to Erikson's ego psychology Certain mythic qualities in religious biography and autobiography are seen as central to Sartre who presents lives including his own as normative models The book concludes by making a provocative link between the modern preoccupation with self analysis in biography and autobiography and a fundamental religious need that was once fulfilled by primitive myth

Excessive Punishment Lauren-Brooke Eisen, 2024-04-09 The United States has by far the world's largest population of incarcerated people More than a million Americans are imprisoned hundreds of thousands more are held in jails This vast system has doled out punishment particularly to people from marginalized groups on an unfathomable scale At the same time it has manifestly failed to secure public safety instead perpetuating inequalities and recidivism Why does the United States see punishment as the main response to social harm and what are the alternatives This book brings together essays by scholars practitioners activists and writers including incarcerated and formerly incarcerated people to explore the harms of this punitive approach The chapters address a range of issues from policing to prosecution and from how people are treated in prison to the consequences of a criminal conviction Together they consider a common theme We cannot reduce our dependence on mass incarceration until we confront our impulse to punish in ways that are excessive often wildly

disproportionate to the harm caused Essays trace how a maze of local state and federal agencies have contributed to mass incarceration and deterred attempts at reform They shed light on how the excesses of America s criminal legal system are entwined with poverty racism and the legacy of slavery A wide ranging and powerful look at the failures of the status quo Excessive Punishment also considers how to reimagine the justice system to support restoration instead of retribution
