Person-Environment Psychology and Mental Health William E. Martin, Jr., Jody L. Swartz-Kulstad, William E. Martin, 2000-03 In recent years mental health professionals who have traditionally focused on the emotional state of the individual have come to realize that problems arise from the unique interactions between particular individuals and environments From necessity they are beginning to look at context no longer can they place the responsibility for mental health on the shoulders of the person alone Most attention has been paid to the impact of educational and work settings but it is clear that all life settings contribute meaningfully to positive psychological adaptation and must be considered in any attempt to understand a person s difficulties This book explores the crucial ramifications of new theory and research in person environment psychology for assessment and intervention All practitioners seeking to deliver effective mental health services to adolescents and adults will learn from it Person-environment Psychology and Mental Health William Eugene Martin, Jody L. Whittaker, Elizabeth M. Tracy, 2024-11-01 Person Environment Practice addresses a core but long neglected dimension in social work and human services practice accurate environmental assessment and strategic environmental intervention Despite the centrality of person environment as a key construct in direct practice the domain of environmental assessment intervention has received relatively little systematic attention in the practice literature For a variety of reasons the core focus of direct practice assessment and change strategies has centered more on person than environment This book seeks to redress that imbalance Ironically the relative lack of attention to environmentally oriented practice persists even as current demands of practice fall increasingly under the rubric of what we here call environmental intervention defined as both action in the environment and the process of transforming individual and collective perspectives through critical analysis of the impact of environmental conditions The authors argue that the ability to understand environment from the client's perspective and to function effectively in the environmental domain is central to many emergent areas of practice such as practice with extended families and personal networks practice from a strengths perspective and culturally competent practice In Person Environment Practice the authors offer a coherent critique and overview of environmental assessment and intervention congruent with the demands of both newly emerging and established interpersonal helping approaches within social work s domain Robert Halpern of the Erikson Institute for Advanced Studies in Child Development described the book as as clear thoughtful and subtle a discussion of how to consider the environment

in interpersonal helping as I have seen in the literature and Anthony Maluccio of Boston College called the book a timely and exciting contribution with appreciation and respect for social work practices and qualities of inspiration as well as intellectual stimulation Susan P Kemp is assistant professor School of Social Work The University of Washington Seattle James K Whittaker is professor School of Social Work The University of Washington Seattle Elizabeth M Tracy is associate professor Mandel School of Applied Social Sciences Case Western Reserve University Cleveland Ohio Mental Health and Behavioral-Ecology A.M. Jeger, R.S. Slotnick, 2012-12-06 This volume is addressed to professionals and students in community mental health including researchers clinicians administrators educa tors and students in relevant specialities within the fields of psychology psychiatry social work public health and nursing The intent of this book is to serve as a practical resource for professionals and also as a di dactic text for students In addition the volume seeks to make a theoret ical contribution to the field by presenting for the first time in book form a behavioral ecological perspective in community mental health We present behavioral ecology as an emerging perspective that is concerned with the interdependence of people behavior and their sociophysical environments Behavioral ecology attributes mental health problems to transactions between persons and their settings rather than to causes rooted exclusively within individuals or environments In this volume we advance the notion of behavioral ecology as an integration of two broad perspectives behauioral approaches as derived from the individual psychology of learning and ecological approaches as encompassing the study of communities environments and social systems Through the programs brought together in this book we are arguing for a merging of these two areas for purposes of advancing theory research and practice in community mental health
