Real Time Andrzej Jarczewski, 2020-01-15 This book examines reality using verbs in their real time which like a segment of clock time runs from the occurrence of the cause to the inevitable effect As argued here errors in our decisions often result from a noun approach to the problem A good decision depends on whether it is made on the basis of real premises and whether the decision maker is able to define what is good These two eternal issues truth and goodness are the subject of inquiry here The findings presented in this book invalidate the paradigm of noun philosophy of the 20th century It will appeal to philosophers as well as managers and decision makers *Intelligent Automation* Marie Myers, Carol Brace, Lila Carden, 2023-11-13 Since prehistoric times humans have invented ways to simplify daily activities to improve productivity The most recent milestone in this journey is robotic process automation RPA helping to build software robots that can be leveraged to automate mundane and repetitive tasks that can be labor intensive and prone to errors In recent years RPA has been integrated with emerging artificial intelligence AI and machine learning ML technologies to create what is referred to as intelligent automation IA emulating human actions and decision making abilities This book addresses the critical questions about the rise usage and future of IA practices This book is structured by general personas considered as its primary target audience ranging from Early stage practitioners seeking to learn effective management of IA programs Established IA practitioners seeking to drive maturity and scale Business leaders seeking to understand how to drive business value using IA Practitioners or academicians seeking to collaborate This book is strongly recommended for practitioners seeking to plan implement and scale IA practices in their organization and for researchers and students who intend to study strategy implementation and management of IA practice to accelerate the digital transformation agenda **C++ how to Program** Harvey M.
