### **Narratives of Academics' Personal Journeys in Contested Spaces** Namrata Rao, Anesa Hosein, Ian M.

Kinchin, 2023-05-18 *Narratives of Academics' Personal Journeys in Contested Spaces* provides theoretically informed personal narratives of 11 emerging and established leaders in learning and teaching in Australia, Finland, New Zealand, Singapore, the UK, and the USA. The academics' narratives focus on how the individuals have navigated to their current leadership role in learning and teaching whilst negotiating contested identities such as gender and physical and social marginalised spaces such as interstitial middle leadership positions. These international narratives provide unique perspectives on the sense making of academics as they reflect on their learning and teaching leadership journey and how these journeys are shaped by their contested identities and the marginalised spaces they inhabit. Often such identities and spaces are not recognised in higher education which may lead to even more isolating and challenging leadership journeys. The book contributes to our understanding of the subjective experiences that academics encounter in their leadership journeys. Further, the personal narratives included in the book capture how the contested identities and marginalised spaces influence the learning and teaching leadership practices in various educational, cultural, and national contexts. *Paper to Screen-The Future of*

Prof. Vikas Singh, 2020-04-17 Are you willing to shift from classroom to online and feeling afraid? How to handle light camera and action to be a hero to your students? Which Learning Management System both teacher and students can quickly adopt? How to ensure student engagement and interest in online learning? How to assess student learning attainment during lockdown times? How to monitor quality of sessions and do summative assessment to declare results and decide about students' promotion to next year? How a parent can facilitate learning environment at home and reduce the intimidation being faced by young students? There is a paradigm shift happening in the education sector as it is moving from paper to screen. Is this shift permanent and going to stay? This book is written in very simple language to help find answers to these questions and more. This Global pandemic has forced people to stay indoors and social distancing is the new norm. All the schools, colleges, and universities are seeing suspension of all academic activities on the campuses. However, the teaching-learning process must continue, and there is a need that the learning process gets shifted to the online platform. Only a few teachers were involved in online teaching in both K12 and higher education before this pandemic. Teachers who have only taught in the classrooms using chalk and talk method are now finding this transition to online teaching to be a daunting task. Academic administrators and university leaders are finding it difficult to assure quality of teaching and use online assessment tools to measure learning attainment. Parents are also on the same boat of discomfort and anxiety as they have never experienced their kids to study at home for hours using screen and not papers. This book has tips and actionable points for smooth transition to online teaching from regular brick and mortar classrooms. This book is for every teacher, academic administrator, student, and parent willing to shift to online education and not knowing how. **Normal Instructor and Teachers World**
