Personal and Public Interests Susan L. Brinson, 2002 Unlike many of her female contemporaries during the thirties and forties whose political activities furthered the agendas of male politicians Frieda B Hennock pursued her own political goals Guided by intense personal and public interests she became the first woman appointed to serve on the Federal Communications Commission and her tenure there coincided with a period of unprecedented regulatory activity during which the FCC made several significant decisions regarding the development of television Simultaneously challenging the FCC's status quo and making a political name for herself with her tireless efforts to develop educational television Hennock became one of the most significant female political figures of this century Utilizing both critical and historical research methodologies Brinson highlights key events in Hennock's career including her dissenting position in the color TV hearings and her blindness to the deficiencies of the UHF system Personal and Public Interests serves as a much needed corrective to the scholarly oversight of Hennock's life and work which represent the intersection of the histories of both broadcasting and women in the United States More than mere biography this insightful work examines the union of history technology and personality creating a vivid portrait of both a woman and her era

**The Red Scare, Politics, and the Federal Communications Commission, 1941-1960** Susan L. Brinson, 2004-05-30 The Red Scare at the FCC started when James Lawrence Fly led the agency in many important decisions that were inspired by the New Deal These decisions outraged both the broadcasting industry and politically conservative legislators causing them to accuse the FCC of Communist sympathies This book analyzes the political transition taken by the FCC that turned it into an agency that fully participated in the Red Scare of the 1950s This book analyzes many significant FCC cases and policies that have never been considered within the context of New Deal policymaking or its impact This work is the first to look into the impact of the Red Scare on an executive agency Its combination of new archival and behind the scenes information makes this book a great addition to the growing body of research on media history and regulation

**Republic on the Wire** John McMurria, 2017-02 The history of cable television in America is far older than networks like MTV ESPN and HBO which are so familiar to us today Tracing the origins of cable TV back to the late 1940s media scholar John McMurria also locates the roots of many current debates about premium television cultural elitism minority programming content restriction and corporate ownership Republic on the Wire takes us back to the pivotal years in which media regulators and members of the viewing public presciently weighed the potential benefits and risks of a two tiered television system split between free broadcasts and pay cable service Digging into rare archives McMurria reconstructs the arguments of policymakers whose often sincere advocacy for the public benefits of cable television were fueled by cultural elitism and the priority to maintain order during a period of urban Black rebellions He also tells the story of the people of color rural residents women s groups veterans seniors and low income viewers who challenged this reasoning and demanded an equal say over the future of television By excavating this early cable history and placing equality at the center of our understanding of media democracy Republic on the Wire is a real eye opener as it develops a new methodology for studying media policy in the past and present

**Network Nations** Michele Hilmes,2012

In *Network Nations* Michele Hilmes reveals and re conceptualizes the roots of media globalization through a historical look at the productive transnational cultural relationship between British and American broadcasting Though frequently painted as opposites the British public service tradition contrasting with the American commercial system in fact they represent two sides of the same coin Neither could have developed without the constant presence of the other in terms not only of industry and policy but of aesthetics culture and creativity despite a long history of oppositional rhetoric Based on primary research in British and American archives *Network Nations* argues for a new transnational approach to media history looking across the traditional national boundaries within which media is studied to encourage an awareness that media globalization has a long and fruitful history Placing media history in the framework of theories of nationalism and national identity Hilmes examines critical episodes of transnational interaction between the US and Britain from radio e tm s amateurs to the relationship between early network heads from the development of radio features and drama to television spy shows and miniseries as each other e tm s largest suppliers of programming and as competitors on the world stage and as a network of creative business and personal relationships that has rarely been examined but that shapes television around the world As the global circuits of television grow and as global regions particularly Europe attempt to define a common culture the historical role played by the British US media dialogue takes on new significance

*The Hellhound of Wall Street* Michael Perino,2010-10-14 A gripping account of the underdog Senate lawyer who unmasked the financial wrongdoing that led to the Crash of 1929 and forever changed the relationship between Washington and Wall Street In *The Hellhound of Wall Street* Michael Perino recounts in riveting detail the 1933 hearings that put Wall Street on trial for the Great Crash Never before in American history had so many financial titans been called to account before the public and they had come within a few weeks

of emerging unscathed By the time Ferdinand Pecora a Sicilian immigrant and former New York prosecutor took over as chief counsel the investigation had dragged on ineffectively for nearly a year and was universally written off as dead The Hellhound of Wall Street provides a minute by minute account of the ten dramatic days when Pecora turned the hearings around cross examining the officers of National City Bank today s Citigroup particularly its chairman Charles Mitchell one of the best known bankers of his day Mitchell strode into the hearing room in obvious disdain for the proceedings but he left utterly disgraced Pecora s rigorous questioning revealed that City Bank was guilty of shocking financial abuses from selling worthless bonds to manipulating its stock price Most offensive of all was the excessive compensation and bonuses awarded to its executives for peddling shoddy securities to the American public Pecora became an unlikely hero to a beleaguered nation The man whom the press called the hellhound of Wall Street was the son of a struggling factory worker Precocious and determined he became one of New York s few Italian American lawyers at a time when Italians were frequently stereotyped as anarchic criminals The image of an immigrant lawyer challenging a blue blooded Wall Street tycoon was just one more sign that a fundamental shift was taking place in America By creating the sensational headlines needed to galvanize public opinion for reform the Pecora hearings spurred Congress to take unprecedented steps to rein in the freewheeling banking industry and led directly to the New Deal s landmark economic reforms A gripping courtroom drama with remarkable contemporary relevance The Hellhound of Wall Street brings to life a crucial turning point in American financial history
