Garbus's What You Should Know About Politics . . . But Don't, Fourth Edition Everest Media,2022-04-06T22:59:00Z

Please note This is a companion version not the original book Sample Book Insights 1 The American voting system is made up of both national and state elections and there is a lot of variability between them The voter registration process is thought to disproportionately affect minority disadvantaged and younger voters 2 Every election is influenced by the 2000 presidential race between Republican Texas governor George W Bush and Democratic vice president Albert Al Gore The Electoral College which elects the president and vice president is one of America s least loved and least understood institutions 3 The Electoral College was created by the founding fathers as a last ditch compromise on how to choose the president one of the most hotly debated questions faced by the Constitutional Congress in 1787 Some wanted Congress to choose the president thinking that they would be best informed and would choose the most qualified candidate while others argued for direct election by the citizens as a more democratic and egalitarian method 4 The Supreme Court s decision in Bush v Gore halted the recount deeming it unconstitutional The Court stated that there was not enough time to come up with a new result The real nail in the coffin was the Court s conclusion that there wasn t enough time to determine whether or not votes were valid
