Personal Aspects Of Roman Threat:

Counseling Individuals With Life-Threatening Illness Kenneth J. Doka, 2008-09-15 With a Foreword by Robert A Neimeyer PhD Where was this book when I was new as a counselor Fortunately it is here now and with all the scope depth resourcefulness and balance required for such situations Dr Robert Kastenbaum PhD This book will now be an indispensable resource for anyone who wants to understand counsel or otherwise help individuals with life threatening illnesses and their family members Charles A Corr PhD CT Without question this is the book you ll want your own caregivers to have read should you ever contend with life threatening illness Therese A Rando PhD BCETS BCBT Life threatening illness is not only a medical crisis it is a psychological social and spiritual crisis as well Also serious illness affects not only the patient but the patient s family Therefore the two major premises of this book are that care in life threatening illness must be holistic and it must be family centered Doka presents an insightful comprehensive guide for counselors social workers and health care professionals as they assist clients experiencing a serious illness The book builds on a model developed by the author based upon earlier work by Avery Weisman and E M Patterson Doka s model presents illness as a series of phases Prediagnostic individuals may decide how to handle troubling symptoms or to take certain diagnostic tests Diagnostic centered on the existential crisis posed by the diagnosis Chronic individuals must cope with the disease and treatment Recovery acknowledges that even when individuals survive an encounter with life threatening illness there are still considerable issues that must be resolved Terminal phase individuals deal with the inevitability of death In his discussion of each phase the author delineates specific tasks for patients to perform and the issues they must adapt to He also presents strategies for counselors and health care professionals to use with individuals in each phase of illness Danger! Educated Gypsy Ian Hancock, 2010 This is a timely collection of Ian Hancock s selected writings His impact upon Romani Studies has been truly remarkable both in terms of his contributions to linguistics and Gypsy historiography and in his re assessment of Romani identity within the Western cultural fabric **Stereotype Threat** Michael Inzlicht, Toni Schmader, 2012 The 21st century has brought with it unparalleled levels of diversity in the classroom and the workforce It is now common to see in elementary school high school and university classrooms not to mention boardrooms and factory floors a mixture of ethnicities races genders and religious affiliations But these changes in academic and economic opportunities have not directly translated into an elimination of group disparities in academic performance career opportunities and levels of advancement Standard explanations for these disparities which are vehemently debated in the scientific community and popular press range from the view that women and minorities are genetically endowed with inferior abilities to the view that members of these demographic groups are products of environments that frustrate the development of the skills needed for success Although these explanations differ along a continuum of nature vs nurture they share in common a presumption that a large chunk of our population lacks the potential to achieve academic and career success In contrast to intractable factors like biology or

upbringing the research summarized in this book suggests that factors in one's immediate situation play a critical yet underappreciated role in temporarily suppressing the intellectual performance of women and minorities creating an illusion of group differences in ability Research conducted over the course of the last fifteen years suggests the mere existence of cultural stereotypes that assert the intellectual inferiority of these groups creates a threatening intellectual environment for stigmatized individuals a climate where anything they say or do is interpreted through the lens of low expectations This stereotype threat can ultimately interfere with intellectual functioning and academic engagement setting the stage for later differences in educational attainment career choice and job advancement

Care for the Sorrowing Soul Duane Larson, Jeff Zust, 2017-10-26 Moral Injury is now recognized as a growing major problem for military men and women Operant conditioning can overwhelm moral convictions and yet the question of whether to shoot or not to shoot often will never have a settled answer Certain theories and treatment models about MI have been well developed but too often overlook root issues of religious faith The authors propose a new model for understanding moral injury and suggest ways to mitigate its virtually inevitable occurrence in pre combat training and ways to resolve MI post trauma with proven spiritual resources People outside the military too among whom the incidence of MI also is a growing threat will benefit from this analysis The stories of the injured their shaping and their telling are the key and there are many illuminating stories of moral injury and recovery Those who suffer MI their families and caregivers including counselors pastors and faith communities will find hope giving first steps toward the healing of MI in this book

Identifying Threats and Threatening Identities David L. Rousseau, 2006 Using a variety of social scientific methods of investigation ranging from laboratory experiments and public opinion surveys to computer simulations and case studies Rousseau untangles the complex relationship between social identity and threat perception between states

The Literary Digest Edward Jewitt Wheeler, Isaac Kaufman Funk, William Seaver Woods, Arthur Stimson Draper, Wilfred John Funk, 1906

Bishops under Threat Sabine Panzram, Pablo Poveda Arias, 2023-03-20 The late antique and the early medieval periods witnessed the flourishing of bishops in the West as the main articulators of social life This influential position exposed them to several threats both political and religious Researchers have generally addressed violence rebellions or conflicts to study the dynamics related to secular powers during these periods They haven't paid similar attention however to those analogous contexts that had bishops as protagonists This book proposes an approach to bishops as threatened subjects in the late antique and early medieval West In particular the volume pursues three main goals Firstly it aims to identify the different types of threats that bishops had to deal with Then it sets out to frame these situations of adversity in their own contexts Finally it will address the episcopal strategies deployed to deal with such contexts of adversity In sum we aim to underline the impact that these contexts had as a dynamiting factor of episcopal action Thus the episcopal threats may become a useful approach to study the bishops relationships with other agents of power the motivations behind their actions and last but not least for understanding the episcopal rising power

Literary Digest, 1906 Handbook of Citizenship Studies Engin F Isin, Bryan S Turner, 2002 The contributions of Woodiwiss Lister and Sassen are outstanding but not unrepresentative of the many merits of this excellent collection The British Journal of Sociology From women's rights civil rights and sexual rights for gays and lesbians to disability rights and language rights we have experienced in the past few decades a major trend in Western nation states towards new claims for inclusion This trend has echoed around the world from the Zapatistas to Chechen and Kurdish nationalists social and political movements are framing their struggles in the languages of rights and recognition and hence of citizenship Citizenship has thus become an increasingly important axis in the social sciences Social scientists have been rethinking the role of political agent or subject Not only are the rights and obligations of citizens being redefined but also what it means to be a citizen has become an issue of central concern As the process of globalization produces multiple diasporas we can expect increasingly complex relationships between homeland and host societies that will make the traditional idea of national citizenship problematic As societies are forced to manage cultural difference and associated tensions and conflict there will be changes in the processes by which states allocate citizenship and a differentiation of the category of citizen This book constitutes the most authoritative and comprehensive guide to the terrain Drawing on a wealth of interdisciplinary knowledge and including some of the leading commentators of the day it is an essential guide to understanding modern citizenship About the editors Engin F Isin is Associate Professor of Social Science at York University His recent works include *Being Political* Genealogies of Citizenship Minnesota 2002 and with P K Wood *Citizenship and Identity* Sage 1999 He is the Managing Editor of *Citizenship Studies* Bryan S Turner is Professor of Sociology at the University of Cambridge He has written widely on the sociology of citizenship in *Citizenship and Capitalism* Unwin Hyman 1986 and *Citizenship and Social Theory* Sage 1993 He is also the author of *The Body and Society* Sage 1996 and *Classical Sociology* Sage 1999 and has been editor of *Citizenship Studies* since 1997 Law and the Utopian Imagination Austin Sarat, Lawrence Douglas, Martha Merrill Umphrey, 2014-05-21 *Law and the Utopian Imagination* seeks to explore and resuscitate the notion of utopianism within current legal discourse The idea of utopia has fascinated the imaginations of important thinkers for ages And yet who writes seriously on the idea of utopia today The mid century critique appears to have carried the day and a belief in the very possibility of utopian achievements appears to have flagged in the face of a world marked by political instability social upheaval and dreary market realities Instead of mapping out the contours of a familiar terrain this book seeks to explore the possibilities of a productive engagement between the utopian and the legal imagination The book asks is it possible to re imagine or revitalize the concept of utopia such that it can survive the terms of the mid century liberal critique Alternatively is it possible to re imagine the concept of utopia and the theory of liberal legality so as to dissolve the apparent antagonism between the two In charting possible answers to these questions the present volume hopes to revive interest in a vital topic of inquiry too long neglected by both social thinkers and legal scholars **Sexual Interactions and HIV Risk** Mitchell

Cohen, Gustavo Guizzardi, Dominique Hausser, Luc Van Campenhoudt, 2003-12-16 How sexual risk is negotiated between partners is an area of considerable theoretical interest with the dominant models of analysis focusing on individual decisions to engage in sexual behaviour and relying on rational decision making This work based on the findings from work coordinated by the Centre d Etudes Sociologiques in Brussels offers a social critique of the theories and perspectives which have currently been brought to bear in the study of sexual risk behaviour and HIV Leading European researchers offer a conceptual framework for analysis based on sexual interactions and their social context The practical relevance of new perspectives on sexual behaviour in the context of HIV AIDS prevention is also discussed Prime Time Soap Operas

Douglas M. Snauffer, 2009-09-03 Prime time soaps are often revered long after their runs on television have ended as Dallas Twin Peaks and Beverly Hills 90210 readily demonstrate Due to their profound impact it s easy to forget how recently the genre itself was born Dallas premiered in 1978 and was originally intended to air solely as a five part mini series Then in 1981 producer Aaron Spelling stepped in and introduced his own ultra glitzy entry Dynasty Between these two mega hits the era of the nighttime soap was born Soaps soon spun off into non traditional avenues as well in sitcoms like Filthy Rich and the supernatural drama Twin Peaks Then with the arrival of the more youth oriented Fox Network producers were able to hook an entirely new generation on programs such as Beverly Hills 90210 Melrose Place and Party of Five Pay cable channels have also stepped into the picture and now act as trendsetters with hits like Sex and the City Six Feet Under The Sopranos and The L Word Now from the spiritually themed 7th Heaven to the naughty neighbors of ABC s Desperate Housewives soaps dominate prime time Prime Time Soaps covers all the major shows within the soap opera genre and also investigates all the ways that soaps have contributed to the development of more general television trends Interviews with producers actors and other artistic collaborators also supplement this revealing and entertaining account Even outside of their genre these shows continue to influence current programming Few series on TV today are purely episodic instead containing on going storylines involving the personal dilemmas of their characters Another very recognizable contribution from soaps occurred on the evening of March 21 1980 when Dallas finished out its third year with J R Ewing being shot by an unknown assailant leaving fans to wait until the fall for the resolution This was the beginning of the cliffhanger endings that are now implemented by just about every series on television Prime Time Soaps covers all the major shows and also investigates all the ways that soaps have contributed to the development of more general television trends Interviews with producers actors and other artistic collaborators supplement this revealing and entertaining account Library of Congress
