The Psychology of Personal Constructs: A theory of personality George Kelly, 1991 Examining two centuries of Balkan politics from the emergence of nationalism to the retreat of Communist power in 1989 this is the first book to systematically argue that many of the region's problems are external in origin A decade of instability in the Balkan states of southeast Europe has given the region one of the worst images in world politics The Balkans has become synonymous with chaos and extremism Balkanization meaning conflict arising from the fragmentation of political power is a condition feared across the globe This new text assesses the key issues of Balkan politics showing how the development of exclusive nationalism has prevented the region's human and material resources from being harnessed in a constructive way It argues that the proximity of the Balkans to the great powers is the main reason for instability and decline Britain Russia Austria Hungary France and finally the USA had conflicting ambitions and interests in the region Russia had imperial designs before and after the 1917 Revolution The Western powers sometimes tolerated these or encouraged undemocratic local forces to exercise control in order to block further Soviet expansion Leading authority Tom Gallagher examines the origins of these Western prejudices towards the Balkans tracing the damaging effects of policies based on Western lethargy and cynicism and reassesses the negative image of the region its citizens their leadership skills and their potential to overcome crucial problems *Personal Construct Perspectives on Forensic Psychology* James Horley, 2004-06-02 Why do people commit violent offences Does rehabilitation really work Personal Construct Perspectives on Forensic Psychology provides a new approach to the three main areas of application of forensic psychology rehabilitation of offenders work with police and research and consultation on legal issues and processes Challenging the mainstream approach to viewing offenders this book emphasizes responsibility for life choices and eschews the biomedical view of people Practising psychologists share their perspectives and illustrate their discussion with case studies and personal research Reviewing relevant literature in many substantive areas including violent sexual and mentally disordered offenders working with police stress and treating

offenders in prison these outstanding authors make a strong argument from a personal construct perspective In an area of increasing interest Personal Construct Perspectives on Forensic Psychology provides a solid background for further growth Forensic practitioners theorists and researchers alike will all benefit from the books many insights and clinical tips

Anticipating Personal Construct Psychology Franz R. Epting, A. W. Landfield, 1985 *Personal Construct Psychology* Peter Caputi, Heather Foster, Linda L. Viney, 2006-10-02 This book presents the latest thinking and research in Personal Construct Psychology PCP covering a broad range of areas of interest to both researcher and practitioner It provides reports of empirical research reflections by practicing personal construct psychologists and conceptual analyses of issues pertaining to current and emerging theoretical issues in PCP The book consists of five sections covering Theory and History Assessment and Understanding Problems of Living Evidence Based Interventions Other Interventions Clinical and Educational Contributors are international scholars and practitioners based in a variety of clinical settings In addition the contributions reflect the internationalisation of PCP with contributors coming from the USA the UK Europe and Australasia Personal Construct Psychology is a valuable resource for a wide range of health professionals educationalists and practitioners in counselling and clinical psychology *Philosophical Dimensions of Personal Construct Psychology* Bill Warren, 2002-09-11 This book traces the philosophical history of Personal Construct Psychology through the broad and complex tradition of phenomenology and thinkers such as Spinoza Hegel and Heidegger The author also gives credit to the influence of general creative and dramatic literature across a variety of cultures Specific issues addressed in depth include the position of Personal Construct Psychology with regard to philosophy of science determinism and free will concepts of mental illness and the implications for social and political philosophy **A Psychology for Living** Peggy Dalton, Gavin Dunnnett, 2005 As this accessibility is what has attracted the favourable response the second edition retains the chapters on the theory and procedures for its practical application largely unchanged only amended and clarified where this was felt necessary Examples of the ideas in action have been updated and the work of later writers and practitioners brought in The scope of the book is widened by the introduction of a new chapter on the use of PCP in work for organisations an area of development which has expanded greatly in the last ten years Jacket
