Policy-making in the European Communities Helen S. Wallace, William Wallace, Carole Webb, 1977 *EU Environmental Policies in Subnational Regions* Antje C.K. Brown, 2017-10-05 This title was first published in 2001 Despite the fact that environmental directives are one of the strongest areas of policy decreed by the EU it has a much poorer record when it comes to actual implementation of these policies Instead of focusing on the traditional state centrist accounts this book compares two subnational regions within the EU Scotland and Bavaria and their role in the policy process The author offers a multi layered implementation map which highlights three main government layers involved in the filtering process and identifies various formal and informal determinants which shape EU environmental policies during the process The book not only compares implementation performances between the two regions and their respective states but also compares the region s processes against the national processes thereby exposing determinants that would otherwise remain undetected In doing so it confirms that subnational regions feature determinants which differ in many respects from national determinants and influence the effectiveness of EU environmental policies The book contributes to a better understanding of the implementation deficit and presents a more refined picture of the EU environmental policy reality *The Politics Of European Union Health Policies* Greer, Scott, 2009-06-01 The book examines the ways that the successful health lobbies and member states work identifies weaknesses and emphasizes the challenge to health policymakers *Policy-Making in the European Union* Laura Cram, 2005-06-28 Laura Cram takes a fresh view at attempts to conceptualize the process of European integration Her book explores the impact of the day to day work of policy maker interest groups and bureaucrats in influencing the environment in which European Treaty formulation and ratification are taken She sheds new light on the wide range of policy areas in which institutions such as the Commission of the European Union and the European Court of Justice have succeeded in expanding the scope of EU competence despite national government opposition **Policies and Policy Processes of the European Union** Laurie Buonanno, Neill Nugent, 2020-11-28 The dynamic and complex system of European Union policymaking is analysed in this new edition of a much praised textbook It offers the most integrated understanding of EU policy available Major approaches to policymaking including intergovernmentalism neofunctionalism supranationalism and critical theory are presented and supplemented with the authors own theoretical model federal integration to create a comprehensive evaluation of the EU s interests and actors in key policy domains The text covers the EU s main policy areas including those on the single market Economic and Monetary Union foreign policy migration and
