Renewing Hope within Neighborhoods of Despair Herbert J. Rubin, 2000-04-27 Honorable Mention 2003 Paul Davidoff Award presented by the Association of Collegiate Schools of Planning *Renewing Hope within Neighborhoods of Despair* builds upon narratives provided by leaders of community based development organizations CBDOs to describe how they bring about affordable quality housing commercial opportunities and employment within poor areas The book illustrates both the obstacles CBDOs face and how these obstacles are overcome in part by leveraging resources for social change projects from foundations government and intermediaries Guiding the effort of the developmental activists is an organic theory that explains what can and should be accomplished The material extends new institutionalism models of inter organizational behavior

Radical Possibilities Jean Anyon, 2005 Anyon discusses the influence of federal and metropolitan policies and practices on the poverty that plagues schools and communities in American cities and segregated low income suburbs She argues that these public policies such as those regulating the minimum wage job availability tax rates federal transit and affordable housing all create conditions in urban areas that no education policy as currently conceived can transcend and that we must replace these federal and metro area policies with more equitable ones so that urban school reform can have positive life consequences for students Anyon reminds us that historically equitable public policies have been typically created as a result of the political pressure brought to bear by social movements Basing her analysis on new research in civil rights history and social movement theory she explains how the current moment offers serious possibilities for the creation of such a force from publisher description

Place Matters Peter Dreier, John H. Mollenkopf, Todd Swanstrom, 2004 Analyzes the problematic trends facing America's cities and older suburbs and challenges us to put America's urban crisis back on the national agenda

In a Voice of Their Own: Urban Aboriginal Community Development, 2006 This paper focuses on urban Aboriginal community development We draw upon the experiences of 26 Aboriginal people who have been and are active in various forms of community development in Winnipeg's inner city The study shows how Aboriginal people have been constructed as the other in Canadian society The process of colonization caused great damage to Aboriginal people Over and over the 26 Aboriginal people with whom we spoke referred to the process of colonization as being at the root of Aboriginal people's problems In many cases their personal testimonies were painful and moving

To Live in Peace Mark R. Gornik, 2002-09-17 Building on both the perspective of God's new creation and the view from the neighborhood *To Live in Peace* shows how the life of the church the strategies of community development and the practices of peacemaking can make a transformational difference

Walker,2015-01-30 Opportunities to have your say get involved and join the conversation are everywhere in public life From crowdsourcing and town hall meetings to government experiments with social media participatory politics increasingly seem

like a revolutionary antidote to the decline of civic engagement and the thinning of the contemporary public sphere Many argue that with new technologies flexible organizational cultures and a supportive policymaking context we now hold the keys to large scale democratic revitalization Democratizing Inequalities shows that the equation may not be so simple Modern societies face a variety of structural problems that limit potentials for true democratization as well as vast inequalities in political action and voice that are not easily resolved by participatory solutions Popular participation may even reinforce elite power in unexpected ways Resisting an oversimplified account of participation as empowerment this collection of essays brings together a diverse range of leading scholars to reveal surprising insights into how dilemmas of the new public participation play out in politics and organizations Through investigations including fights over the authenticity of business sponsored public participation the surge of the Tea Party the role of corporations in electoral campaigns and participatory budgeting practices in Brazil Democratizing Inequalities seeks to refresh our understanding of public participation and trace the reshaping of authority in today s political environment

Stephen and

Matilda Jim Bradbury, 2011-10-21 Stephen's reign was one of the darkest periods of English history. He had promised Henry I that he would support the king's daughter Matilda as the rightful heir to the English throne but when Henry dies in December 1135 he broke his promise and quickly made himself king. Like many of the nobles he was unwilling to yield the crown to a woman. Civil wars and the battle for the English Crown dominated his reign and this fascinating book examines the conflict between Stephen and his cousin. The campaigns, battles and sieges of England's first civil war are explored including the two major battles at the Standard and Lincoln which show that Stephen always held more ground than his opponents and was mostly on the offensive. The two sides finally reached a compromise after 14 years with the Treaty of Wallingford. Stephen would rule unopposed until his death but the throne would then pass to Henry of Anjou, Matilda's son. Full of colourful characters, this is a fascinating story of rivalry for the English throne which throws new light on a neglected aspect of Stephen's reign. **Defending Rumba in Havana** Maya J. Berry, 2024-11-29 In *Defending Rumba in Havana* anthropologist and dancer Maya J. Berry examines rumba as a way of knowing the embodied and spiritual dimensions of Black political imagination in post-Fidel Cuba. Historically a Black working class popular dance, rumba, Berry contends, is a method of Black Cuban struggle that provides the community with accountability, sustenance and dignity that neither the state nor the expanding private market can. Berry's feminist theorization builds on the notion of the undercommons to show how rumba creates a space in which its practitioners enact deeply felt and dedicatedly defended choreographies of reciprocity, refusal, sovereignty, devotion and pleasure both on stage and in their daily lives. Berry demonstrates that this Black corporeal undercommons emphasizes mutual aid and refuses neoliberal development logics favoring instead a collective self-determination rooted in African diasporic spiritual practices through which material compensation and gendered power dynamics are negotiated. By centering rumba to analyze how poor Black Cubans navigate gendered and racialized life, Berry helps readers better understand the constraints and yearnings that move diasporic Black struggles to seek refuge beyond the bounds of the nation-state. Duke University Press Scholars of Color First Book Award *Urban Politics* Bernard H.

Ross, Myron A. Levine, 2011-08-10 This popular text mixes the best classic theory and research on urban politics with the most recent developments in urban and metropolitan affairs. Its very balanced and realistic approach helps students to understand the nature of urban politics and the difficulty of finding effective solutions in a suburban and global age. The eighth edition provides a comprehensive review and analysis of urban policy under the Obama administration and brand new coverage of sustainable urban development. A new chapter on globalization and its impact on cities brings the history of urban development up to date and a focus on the politics of local economic development underscores how questions of economic development have come to dominate the local arena. The book traces the changing style of community participation including the emergence of CDCs, BIDs and other new style service organizations. It analyzes the impacts of the New Regionalism, the New Urbanism and much more at an approachable level. The eighth edition is significantly shorter and more

affordable than previous editions and the entire text has been thoroughly rewritten to engage students Boxed case studies of prominent recent and current urban development efforts provide material for class discussion and concluding material demonstrates the tradeoff between more ideal and more pragmatic urban politics Source material provides Internet addresses for further research
