Reno Hub Of Washoe Country An Illustrated History:

A Short History of Reno, Second Edition Richard Moreno, 2015-10-01 This completely revised and updated edition of A Short History of Reno provides an entertaining and informative account of Reno's remarkably colorful history. Richard Moreno discusses Reno's efforts from its early beginnings in the 1850s to the present day to reinvent itself as a recreation, entertainment, education, and technology hub. Moreno looks at the gamblers, casino builders, and performers who helped create the world-famous gaming industry, and he considers the celebrities who came to end unhappy marriages back when Reno was the divorce capital of the world. Moreno brings the city's history up to date with coverage of the businesspeople and civic leaders who helped make Reno an attraction that still lures millions of visitors each year. Today's travelers and residents explore Reno's flamboyant heart and scenic wonders, topics the author examines in an accessible and lively fashion.

The Genesis of Reno Jack Harpster, 2016-09-13 Over 157 years ago, before there was a Reno, Nevada, before there was a state of Nevada, and even before there was a Nevada Territory, there was a bridge over the Truckee River at a narrow, deeply rutted cattle and wagon trail that would one day become Virginia Street. There was also a small rustic inn and tavern occupying a plot of ground at the southern end of the log and timber bridge, catering to thirsty cowboys, drovers, and miners. The inn and the bridge were the first two structures in what would one day be a bustling metropolitan area, and to this day they still form the nucleus of the city. The Genesis of Reno traces their history up to the present day. The 111-year-old concrete bridge that was replaced in 2016 by a magnificent new structure was honored for its longevity and unique character with placement on the National Register of Historic Places in 1980.

Resort City In The Sunbelt, Second Edition Eugene P. Moehring, 2016-10-01 Resort City in the Sunbelt is a non-sensationalistic scholarly account of Las Vegas from the building of the Hoover Dam to the construction of the MGM Grand Hotel. Historian Eugene Moehring provides a balanced view of the city's urban development. Although a unique city in many ways, Las Vegas has displayed characteristics common to other sunbelt cities across the western United States, including underfunded social services, low-density urbanization with a heavy reliance upon automobiles, a sluggish response to problems within minority communities, a preference for efficient business-like government, and a mania for low taxes. The gaming and resort aspects are fully considered, but Moehring emphasizes the city as part of the continually expanding sunbelt. From this important study, historians will conclude that despite some of its unusual traits, Las Vegas is much like other western cities and therefore deserves recognition as one of the fastest-growing centers in postwar America. In a new and expanded epilogue to this edition, Moehring looks at the major events of the three decades leading up to 2000 and their underpinnings.

Urbanism and Empire in the Far West, 1840-1890 Eugene P. Moehring, 2004 The scope of Moehring's inquiry is vast, incorporating such themes as the roles of

railroads local and regional capital investment and boosterism in the creation of municipal centers interactions with Indians the relationship between water and town development the importance of agricultural centers in reinforcing trade the role of urban competition and the part that cultural and racial superiority assumptions played in creating the American urban framework Jacket **Reno, Las Vegas, and the Strip** Eugene P. Moehring, 2014-09-15 Eugene P Moehring analyzes the development of Reno and Las Vegas since 1945 with special emphasis on the years after 1970 Major factors that shaped the development of both cities were the growth of corporate gaming and megaresorts and increased personal leisure and affluence Moehring provides an engaging informative and readable history of the divergent paths that Reno and Las Vegas took over the past forty years Reno the nation's gambling mecca in the 1950s led the way developing the successful tourist economy that Las Vegas later embraced Through the 1970s the two cities resembled each other greatly but Las Vegas grew to achieve global significance while Reno slowly declined searching for new industries to power its future Moehring shows that the development of the Las Vegas Strip was crucial to southern Nevada's success The casinos hotels and entertainments of the Strip and the workers they supported formed a new urban center ringed by offices residences shopping and a major university In effect it became a third metropolis governed by county commissioners larger than Reno and Las Vegas combined Moehring brings the story of the three cities to the present day examining lessons learned from the Great Recession and the efforts under way in all three metropolises to diversify their economies Moehring makes an important contribution with the only current study of Nevada's cities focusing on urban development issues rather than social history or the gaming industry As the service economy continues to grow not only in Nevada but throughout the United States Moehring's work has many implications for urban studies and particularly the study of urban development in other metropolitan areas **Bulletin - Association of Engineering Geologists** Association of Engineering Geologists, 1992
