Using artworks by Berthe Morisot douard Manet Claude Monet Pierre Auguste Renoir and others The Art of Parisian Chic explores how women and artists in Impressionist Paris 1855 1885 crafted their public images to exploit and resist stereotypes French societal expectations and beauty ideals shaped how women were seen and how they chose to present themselves in public whether on the street in a photograph or in a portrait on the walls of the annual Paris Salon On Paris's broad new boulevards and in its public parks and theaters women dressed to impress anonymous strangers as well as their friends They even circulated aspirational photographs of themselves Looking at a rich array of visual sources from portraits to modern life paintings and from photographs to fashion plates Justine De Young reveals how women were seen how they aspired to be seen and how they navigated public life in Second Empire and Belle poque Paris This book considers how fashionable feminine types made famous in books caricatures and paintings created a visual lexicon and stylistic guide for women Men and women alike relied on these types cocotte mistress jeune veuve young widow amazone independent equestrienne demoiselle de magasin shopgirl and Parisienne chic Parisian woman to judge the class character morality and worth of strangers With a rich set of illustrations from the Impressionist canon and beyond The Art of Parisian Chic shows how modern women used fashion and these stereotypes to construct and reinvent their identities

rest of our lives Countering the contemporary tendency to dismiss works of imagination as enjoyable but epistemologically inert the book considers how various kinds of fictions construct guide and challenge institutional relationships within social groups The contracts of fiction like the contracts of language law kinship and money describe the rules by which members of a group toggle between tokens and types between their material surroundings the stuff of daily life and the abstractions that give it value Rethinking some familiar literary concepts such as genre and style from the perspective of recent work in the biological cognitive and brain sciences the book displays how fictions engage bodies and minds in ways that help societies balance continuity and adaptability Being part of a community means sharing the ways its members use stories pictures plays and movies poems and songs icons and relics to generate usable knowledge about the people objects beliefs and values in their environment Exposing the underlying structural and processing homologies among works of imagination and life processes such as metabolism and memory Ellen Spolsky demonstrates the seamless connection of life to art by revealing the surprising dependence of both on disorder imbalance and uncertainty In early modern London for example reformed religion expanding trade and changed demographics made the obsolescent courts a source of serious inequities Just at that time however a flood of wildly popular revenge tragedies such as Hamlet by their very form by their outrageous theatrical grotesques were shouting the need for change in the justice system A sustained discussion of the genre illustrates how biological homeostasis underpins the social balance that we maintain with difficulty and how disorder itself incubates new understanding

Camille Pissarro Anka Muhlstein, 2023-11-28 A Best Book of 2023 by The New Yorker From the acclaimed biographer and author of Balzac's Omelette an engaging new work on the life of the father of Impressionism and the role his Jewish background played in his artistic creativity The celebrated painter Camille Pissarro 1830-1903 occupied a central place in the artistic scene of his time a founding member of the new school of French painting he was a close friend of Monet a longtime associate of Degas's and Mary Cassatt's experimental work a support to Cézanne and Gauguin and a comfort to Van Gogh and was backed by the great Parisian art dealer Paul Durand-Ruel throughout his career Nevertheless he felt a persistent sense of being set apart different and hard to classify Settled in France from the age of twenty-five but born in the Caribbean he was not French and what is more he was Jewish Although a resolute atheist who never interjected political or religious messages in his art he was fully aware of the consequences of his lineage Drawing on Pissarro's considerable body of work and a vast collection of letters that show his unrestrained thoughts Anka Muhlstein offers a nuanced intimate portrait of the artist whose independent spirit fostered an environment of freedom and autonomy

"Interior Portraiture and Masculine Identity in France, 1789-1914" Heather Belnap Jensen, 2017-07-05 Focusing specifically on portraiture as a genre this volume challenges scholarly assumptions that regard interior spaces as uniquely feminine Contributors analyze portraits of men in domestic and studio spaces in France during the long nineteenth century the preponderance of such portraits alone supports the book's premise that the alignment of men with public life is

oversimplified and more myth than reality The volume offers analysis of works by a mix of artists from familiar names such as David Delacroix Courbet Manet Rodin and Matisse to less well known image makers including Dominique Doncre Constance Mayer Anders Zorn and Lucien Etienne Melingue The essays cover a range of media from paintings and prints to photographs and sculpture that allows exploration of the relation between masculinity and interiority across the visual culture of the period The home and other interior spaces emerge from these studies as rich and complex locations for both masculine self expression and artistic creativity Interior Portraiture and Masculine Identity in France 1789 1914 provides a much needed rethinking of modern masculinity in this period
