Renovating Politics In Contemporary Vietnam:

Renovating Politics in Contemporary Vietnam Zachary Abuza, 2001 Moving from the 1950s to the present Zachary Abuza explores Vietnamese politics and culture through the lens of the internal debates over political reform Abuza focuses on issues of representation intellectual freedom the rise of civil society and the emergence of a loyal opposition assessing the prospects for change He finds that while some mildly dissident groups may add impetus to the effort internal party protest remains the most legitimate and most likely form of political dissent in the country His analysis offers a compelling portrayal of the extraordinary contradictions that are at the core of contemporary Vietnam Abuza explores contemporary Vietnamese politics through the lens of the internal debates over political reform *Politics in Contemporary Vietnam* J.

Contemporary Documentary Film Alexandra Juhasz, Alisa Lebow, 2015-03-03 A Companion to Contemporary Documentary Film presents a collection of original essays that explore major issues surrounding the state of current documentary films and their capacity to inspire and effect change Presents a comprehensive collection of essays relating to all aspects of contemporary documentary films Includes nearly 30 original essays by top documentary film scholars and makers with each thematic grouping of essays sub edited by major figures in the field Explores a variety of themes central to contemporary documentary filmmakers and the study of documentary film the planet migration work sex virus religion war torture and surveillance Considers a wide diversity of documentary films that fall outside typical canons including international and avant garde documentaries presented in a variety of media United Front Paul Schuler, 2021-01-12 Conventional wisdom

emerging from China and other autocracies claims that single party legislatures and elections are mutually beneficial for citizens and autocrats This line of thought reasons that these institutions can serve multiple functions like constraining political leaders or providing information about citizens In United Front Paul Schuler challenges these views through his examination of the past and present functioning of the Vietnam National Assembly VNA arguing that the legislature's primary role is to signal strength to the public When active the critical behavior from delegates in the legislature represents cross fire within the regime rather than genuine citizen feedback In making these arguments Schuler counters a growing scholarly trend to see democratic institutions within single party settings like China and Vietnam as useful for citizens or regime performance His argument also suggests that there are limits to generating genuinely consultative authoritarianism through quasi democratic institutions Applying a diverse range of cutting edge social science methods on a wealth of original data such as legislative speeches election returns and surveys Schuler shows that even in a seemingly vociferous legislature like the VNA the ultimate purpose of the institution is not to reflect the views of citizens but rather to signal the regime's

preferences while taking down rivals **Politics and Society in Southeast Asia** Peter A. Poole, 2014-11-18 The Asian financial crisis of 1997 1998 caused severe hardship in Southeast Asia and many countries tightened their regulation of banks and other financial institutions adopted more conservative fiscal policies and made themselves less vulnerable to Western market fluctuations by forming closer trade and investment ties with their neighbors This book analyzes the major political and economic reforms that resulted from the Asian financial crisis looking particularly at how such reforms helped to prepare Asian countries for coping with the 2009 global recession In each of the ten country chapters the historical background social and political system economic development and foreign relations of each country are analyzed and compared with those of neighboring countries The concluding chapter looks ahead at the prospects for Southeast Asia in a more integrated Asian region Instructors considering this book for use in a course may request an examination copy here

Imagined Ancestries of Vietnamese Communism Christoph Giebel, 2011-10-01 Imagined Ancestries of Vietnamese Communism illuminates the real and imagined lives of Ton Duc Thang 1888 1980 a celebrated revolutionary activist and Vietnamese communist icon but it is much more than a conventional biography This multifaceted study constitutes the first detailed re evaluation of the official history of the Vietnamese Communist Party and is a critical analysis of the inner workings of Vietnamese historiography never before undertaken in its scope In prominence and public visibility second only to Ho Chi Minh whom he succeeded in the presidency Ton Duc Thang in fact lacked any real power Author Christoph Giebel reconciles this seeming contradiction by showing that it was only Ton Duc Thang who could personify for the Party crucial legitimizing ancestries those that linked Vietnamese communism with the Russian October Revolution highlighted proletarian internationalism among its ranks and rooted the Party in Viet Nam s south The study traces the decades long complex processes in which famous heroic episodes in Ton Duc Thang s life were manipulated or simply fabricated and depending on prevailing historical and political necessities utilized as propaganda by the Communist Party Over time narrative control over these tales switched hands however and since the late 1950s the stories came to be used in factional disputes by competing ideological and regional interests within the revolutionary camp Based on innovative archival research in Viet Nam and France and on analyses of biographical writings propaganda and museum representations the study challenges core assumptions about the history of the Vietnamese Communist Party and sheds light on divisions within the revolutionary movement along regional class and ideological lines Giebel uses the fictions and contested facts of Ton s life to demonstrate that history writing and the constructions of memories and identities are always political acts *Local Organizations and Urban Governance in East and Southeast Asia* Benjamin L. Read, Robert Pekkanen, 2009-06-02 This edited collection brings together enterprising pieces of new research on the many forms of organization in East and Southeast Asia that are sponsored or mandated by government but engage widespread participation at the grassroots level Straddling the state society divide these organizations play important roles in society and politics yet remain only dimly understood This book

behind which remain in Vietnam today **Environmental Governance in Vietnam** Stephan Ortmann, 2017-01-30 This book deals with institutional reforms in response to a mounting environmental crisis in Vietnam. The author introduces the reader to the most important environmental problems that Vietnam is currently facing and shows how the emphasis on economic growth has come at the expense of the natural environment. Following an assessment of the still deteriorating environmental situation, the book develops a theoretical framework of institutional change within the political system seeking to overcome the traditionally static understanding of institutions. The empirical analysis devotes attention to the main aspects on Vietnam's environmental governance including the government, society, businesses, and international organizations. The book is based on four years of empirical research including interviews with government officials and representatives of international and national non-governmental organizations, observations of meetings, official documents, and numerous Vietnamese newspaper reports. This book is directed both at academics, students, as well as development practitioners and activists. It seeks to engage those working in the fields of environmental politics, governance, and institutional change in one-party states.

Corruption Control in Authoritarian Regimes Christopher Carothers, 2022-04-07 Corruption is rampant in many authoritarian regimes, leading most observers to assume that autocrats have little incentive or ability to curb government wrongdoing. *Corruption Control in Authoritarian Regimes* shows that meaningful anti-corruption efforts by nondemocracies are more common and more often successful than is typically understood. Drawing on wide-ranging analysis of authoritarian anti-corruption efforts globally and in-depth case studies of key countries such as China, South Korea, and Taiwan over time, Dr. Carothers constructs an original theory of authoritarian corruption control. He disputes views that hold democratic or quasi-democratic institutions as necessary for political governance successes and argues that corruption control in authoritarian regimes often depends on a powerful autocratic reformer having a free hand to enact and enforce measures curbing government wrongdoing. This book advances our understanding of authoritarian governance and durability while also opening up new avenues of inquiry about the politics of corruption control in East Asia and beyond.

The Vietnamese Health Care System in Change Kerstin Priwitzer, 2012 Within the last twenty years, a large-scale bottom-up privatization has taken place in Vietnam, changing and dismantling the public health care system. This process has led to severe tensions inherent in the transitional society of Vietnam between equity and access to health care support, especially for the poor, elderly, migrants, and ethnic minorities on the one hand, and its efficiency on the other hand. The book traces the reform efforts to modernize the health care system by the Communist Party of Vietnam and the Vietnamese government. The author bases her findings on little-known primary literature and interviews with key stakeholders of the policy network involved in the reform of the health care system, thereby painting an authentic atmospheric picture of the profound changes in the health care system in Vietnam.

Speaking Out in Vietnam Benedict J. Tria Kerkvliet, 2019-06-15 Since 1990, public political criticism has evolved into a prominent feature of Vietnam's political landscape. So argues Benedict Kerkvliet in his

analysis of Communist Party ruled Vietnam Speaking Out in Vietnam assesses the rise and diversity of these public displays of disagreement showing that it has morphed from family whispers to large scale use of electronic media In discussing how such criticism has become widespread over the last three decades Kerkvliet focuses on four clusters of critics factory workers demanding better wages and living standards villagers demonstrating and petitioning against corruption and land confiscations citizens opposing China's encroachment into Vietnam and criticizing China Vietnam relations and dissidents objecting to the party state regime and pressing for democratization He finds that public political criticism ranges from lambasting corrupt authorities to condemning repression of bloggers to protesting about working conditions Speaking Out in Vietnam shows that although we may think that the party state represses public criticism in fact Vietnamese authorities often tolerate and respond positively to such public and open protests

Doing Research as a Native Kira D. Jmet, Merouan Mekouar, 2024 When I started fieldwork for my PhD dissertation I was fresh out of Edward Schatz's qualitative methods graduate seminar at the University of Toronto The seminar was based on his edited volume Political Ethnography Schatz 2009 which I devoured but I have only recently grasped the book's importance in my discipline of political science Political Ethnography signaled that questions of positionality were finally being taken seriously by political scientists many years after their integration in fields such as anthropology sociology and geography Around the same time the late Lee Ann Fujii whose 2018 book Interviewing in Social Science Research in many ways defined the direction of qualitative methods in political science gave a job talk in my department Mesmerized by her account of how local ties shaped mass scale violence in Rwanda I asked Fujii to join my doctoral committee Looking back I realize just how much these formative mentors influenced what I would see as my key responsibilities during my first fieldwork trips to the former Yugoslavia region in 2010 and 2011

The Dragon's Underbelly Nhu Truong,Tuong Vu,2023-01-13 This book shows why Vietnam has not become the dragon it is often touted to be The team of authors include both long time observers and junior scholars who present cutting edge research on the latest trends as well as major challenges facing the country's economy and political system As Vietnam seeks to escape from poverty and the legacies of mistaken socialist policies its economy has become fully integrated into the global economy Yet without an effective and far sighted leadership it is still occupying a low position in the global value chains and becoming increasingly dependent on China Politically after three decades of reform the Vietnamese Communist Party's grip on power has well adapted to the market economy but is confronting deep vulnerabilities as observed in its eroding ability to control workers the media public universities and state owned enterprises The book also includes a section that applies formal and statistical methods to compare Vietnam with China in two critical areas of political accountability and anti corruption policy
