**Reordering Marriage and Society in Reformation Germany** Joel F. Harrington, 1995-01-27 This book examines the impact of the Protestant Reformation on both the ideal and practice of marriage in sixteenth century Germany Combining extensive archival work with a broad synthesis of scholarly research in legal theological and social history it provides the most comprehensive evaluation to date of the Reformation's impact on marriage The author compares Protestant reforming goals and achievements to those of contemporary Catholics All sixteenth century campaigns to restore traditional family values he argues must be viewed in the context of more gradual social transformations in private morality public authority and familial relations The apparent innovations of the reformers including the abolition of clerical celibacy and introduction of divorce fade in comparison to their much greater adherence to the theological legal and social traditions shared with their Catholic ancestors and contemporaries

**Affectionate Authorities** Philip Grace, 2016-03-16 In one of his sermons the medieval preacher Bernardino of Siena listed seven fathers to whom one owed obedience God one's natural father godfather confessor benefactor a government official and any elderly man This book seeks to answer the question of why medieval Europeans saw the need for so many fathers Why was fatherhood so appealing as a metaphor Situated at the intersection of social and cultural history the study draws upon a variety of late medieval and early modern sources including witness depositions personal letters and pedagogical treatises from the city of Basel Switzerland It focuses on how people from different walks of life invoked ideas about fatherhood in the pursuit of various goals not only the ideological agendas of scholarly elites but also the more pragmatic problems of closing a business deal claiming an inheritance or choosing sides in a fistfight before turning to what these ideas reveal about fatherhood on the ground The book argues that it was precisely fatherhood's basis in lived experience that gave it a familiar shape in the several roles that fathers played including provision affection disciplinary authority and education The most potent rhetorical aspect of fatherhood however was not as a static image or shape but rather the possibility of invoking connections between one role and another The most potent connection between roles was the idea that fathers were affectionate authorities combining power over subordinates with desire for their well being Tracing the connections and contradictions of these identities this study provides a nuanced view of concepts of fatherhood on the eve of the Reformation

**Historical Dictionary of the Reformation and Counter-Reformation** Hans J. Hillerbrand, 2013-04-03 The Reformation of the 16th century has always been seen as one of the pivotal events in European history Lord Acton the famous 19th century British historian compared the importance of Martin Luther's speech at the diet at Worms in 1521 with Napoleon's defeat at the Battle of Waterloo in 1813 Lord Acton's may or may not be an extravagant claim but it is certainly true that the events of the 16th and 17th centuries now called the Reformation and Counter Reformation changed forever the religious and political history of the West The Historical Dictionary of the Reformation and

Counter Reformation provides a one volume balanced alternative to the overwhelming amounts of literature on the events of the time and the theological and political debates that spawned those events      Christianity and Sexuality in the Early Modern World Merry Wiesner-Hanks, 2014-05-22 The book surveys the ways in which Christian ideas and institutions shaped sexual norms and conduct from the time of Luther and Columbus to that of Thomas Jefferson It is global in scope and geographic in organization with chapters on Protestant Catholic and Orthodox Europe Latin America Africa and Asia and North America All the key topics are covered including marriage and divorce fornication and illegitimacy clerical sexuality same sex relations witchcraft and love magic moral crimes and inter racial relationships Each chapter in this second edition has been fully updated to reflect new scholarship with expanded coverage of many of the key issues particularly in areas outside of Europe Other updates include extra analysis of the religious ideas and activities of ordinary people in Europe and new material on the colonial world The book sets its findings within the context of many historical fields the history of sexuality and the body women s history legal and religious history queer theory and colonial studies and provides readers with an introduction to key theoretical and methodological issues in each of these areas Each chapter includes an extensive section on further reading surveying and commenting on the newest English language secondary literature      *Reforming Mary* Beth Kreitzer, 2004-03-18 Catholics and Protestants have since the earliest days of the Reformation held markedly different views about the Virgin Mary In *Reforming Mary* Beth Kreitzer examines the development of Lutheran views on this subject as expressed in 16th century Lutheran published sermons starting with the earliest of Luther s own Reformation sermons She shows that from the beginning Lutherans rejected much of the theology and piety that surrounded Mary in Catholicism especially her status as heavenly queen and intercessor with Christ They affirmed those orthodox teachings about Mary that related to Christ the Virgin s role as Theotokos the virgin birth and by extension Mary s purity or perpetual virginity As time went on Lutheran preachers showed less interest in Mary as a topic and by the later part of the century showed an increasingly harsh and critical view of her These later sermons reveal a new willingness in opposition to received tradition to impute sin to Mary Kreitzer attributes this changed attitude to the increasing distance of Lutherans from their Catholic roots the logical results of theological changes in the Reformation and a perception of an increased threat of re catholicization Finally she shows Mary was pressed into service by preachers who endeavored to instruct the laity in both what to believe and how to live making a causal connection between being a good Christian and being a good citizen of society In this context Mary was used as a role model and was often promoted as an exemplar for females in ways that served to constrain and domesticate women placing them more firmly under male authority But despite the attempts by preachers to domesticate and mold her Kreitzer argues the Lutheran Mary remains a complex and paradoxical figure      **The History of the European Family: Family life in early modern times (1500-1789)** David I.
