Reorientations Critical Theories And Pedagogies:

Reorientations Bruce Henricksen, Thais E. Morgan, 1990 *The Struggle For Pedagogies* Jennifer Gore, 2013-02-01
Jennifer M Gore examines analyses and offers directions for the debate between critical pedagogy and feminist pedagogy one of the fiercest within education theory *Educating About Social Issues in the 20th and 21st Centuries - Vol 4* Samuel Totten, Jon Pedersen, 2014-05-01 This volume is the fourth and last volume in the series entitled *Educating About Social Issues in the 20th and 21st Centuries* An Annotated Bibliography Volumes I and Volume 2 focused on 1 the lives and work of notable scholars dedicated to addressing why and how social issues should become an integral component of the public school curriculum and 2 various topics approaches vis vis addressing social issues in the classroom Volume 3 addressed approaches to incorporating social issues into the extant curricula that were not addressed in the first two volumes This volume Volume Four focuses solely on critical pedagogy both the lives and work of major critical pedagogues and the different strains of critical pedagogy the latter pursued e g critical theory in education critical feminism in education critical race theory Rhetoric in an Antifoundational World Professor Michael F Bernard-Donals, Michael F. Bernard-Donals, Richard R. Glejzer, 1998-01-01 In this brilliant collection literary scholars philosophers and teachers inquire into the connections between antifoundational philosophy and the rhetorical tradition What happens to literary studies and theory when traditional philosophical foundations are disavowed What happens to the study of teaching and writing when antifoundationalism is accepted What strategies for human understanding are possible when the weaknesses of antifoundationalism are identified This volume offers answers in classic essays by such thinkers as Richard Rorty Terry Eagleton and Stanley Fish and in many new essays never published before The contributors to this book explore the nexus of antifoundationalism and rhetoric critique that nexus and suggest a number of pedagogical and theoretical alternatives The editors place these statements into a context that is both critical and evaluative and they provide for voices that dissent from the antifoundational perspective and that connect specific practical pedagogies to the broader philosophical statements For those with an interest in rhetoric philosophy comparative literature or the teaching of composition this book sets forth a wealth of thought provoking ideas I have nothing but praise for this work a masterful treatment of the question What positive intellectual projects are possible within a world that radically questions the existence of philosophical foundations Steven Mailloux University of California Irvine Pedagogy And The Politics Of Hope Henry Giroux, 2018-02-20 Henry A Giroux is one of the most respected and well known critical education scholars social critics and astute observers of popular culture in the modern world For those who follow his considerably influential work in critical pedagogy and social criticism this first ever collection of his classic writings augmented by a new essay is a must have volume that reveals his evolution as a scholar In it he takes on three major considerations central to pedagogy and schooling The first section offers Giroux's most widely read theoretical critiques on the culture of positivism and technocratic rationality He contends that by emphasizing the logic

of science and rationality rather than taking a holistic worldview these approaches fail to take account of connections among social political and historical forces or to consider the importance of such connections for the process of schooling In the second section Giroux expands the theoretical framework for conceptualizing and implementing his version of critical pedagogy His theory of border pedagogy advocates a democratic public philosophy that embraces the notion of difference as part of a common struggle to extend the quality of public life For Giroux a student must function as a border crosser as a person moving in and out of physical cultural and social borders He uses the popular medium of Hollywood film to show students how they might understand their own position as partly constructed within a dominant Eurocentric tradition and how power and authority relate to the wider society as well as to the classroom In the last section Giroux explores a number of contemporary traditions and issues including modernism postmodernism and feminism and discusses the matter of cultural difference in the classroom Finally in an essay written especially for this volume Giroux analyzes the assault on education and teachers as public intellectuals that began in the Reagan Bush era and continues today

Feminisms and Critical Pedagogy Carmen Luke, Jennifer Gore, 2014-02-04 Feminisms and Critical Pedagogy centres around the theoretical effort to construct a feminist pedagogy which will democratize gender relations in the classroom and practical ways to implement a truly feminist pedagogy

Wordsworth, Dialogics and the Practice of Criticism Don H.

Bialostosky,1992-02-28 Wordsworth's poetry has been a focus for many of the theoretical schools of criticism that comprise modern literary studies Don Bialostosky here proposes to adjudicate the diverse claims of these numerous schools and to trace their implications for teaching Bialostosky draws on the work of Bakhtin and his followers to create a dialogic critical synthesis of what Wordsworth's readers from Coleridge to de Man have made of his poetry He reveals Wordsworth's poetry as itself dialogically responding to its various contexts and opens up fruitful possibilities for criticism and teaching of Wordsworth This challenging book uses the case of Wordsworth studies to make a far reaching survey of modern literary theory and its implications for the practice of criticism and teaching today **Theorizing Composition** Mary

Kennedy,1998-06-25 The last 25 years have witnessed extraordinary growth in the academic specialization variously described as composition studies or rhetoric and composition What was noticeable about the field in its infancy was a preoccupation with practice a lack of emphasis on theory and an exclusive reliance on the writing process As its disciplinary status has grown the field has become far more theoretical Composition studies has expanded its focus reconceptualized the writing process and embraced a wide range of critical perspectives The result of this change is that terms such as poststructuralism social construction gender and genre which were largely unknown in 1965 now dominate discussion This reference book is a guide to the multiplicity of theories that have emerged to form the disciplinary foundation of composition studies The volume consists of 66 entries each of which is written by an expert contributor and focuses on a particular theory or group of theories While the entries show how various individuals have contributed to theoretical movements very few concentrate on the work of a single theorist Each entry first provides a critical summary of a particular theory or group of theories including key elements basic concepts and claims and information about seminal or particularly influential works It then reviews the theory's critical reception in composition studies and discusses its significance in the field The bibliography at the end of each entry lists primary texts and major scholarship related to the theory and provides additional suggestions for further reading The volume closes with a selected bibliography of important works *Decolonizing Tradition* Karen

Lawrence,1992 Derrida & Education , *With Literacy and Justice for All* Carole Edelsky,2006-03-21 The third edition of *With Literacy and Justice for All* Rethinking the Social in Language and Education continues to document Carole Edelsky's long involvement with socially critical holistic approaches to the everyday problems and possibilities facing teachers of language and literacy This book helps education professionals understand the educational societal situations they are dealing with and literacy instruction and second language learning in particular contexts Edelsky does not offer simplistic pedagogical formulas but rather progressively works through differences and tensions in the discourses and practices of sociolinguistics bilingual education whole language and critical pedagogy fields whose practitioners and advocates too often work in isolation from each other and at times at cross purposes In this edition what Edelsky means by rethinking is improving and extending her own views while at the same time demonstrating that such rethinking always occurs in the light

of history The volume includes a completely new Introduction and two entirely new chapters one on reconceptualizing literacy learning as second language learning and another on taking a historical view of responses to standardized testing Throughout in updating the volume Edelsky uses a variety of structural styles to note contrasts in her views across time and to make the distinction clear between the original material and the current additions This edition is a rare example of a scholarly owning up to changes in thinking and a much needed demonstration of the historically grounded nature of knowledge As a whole the third edition emphasizes recursiveness and questioning within a deliberately political framework

Readers and Reading Andrew Bennett, 2014-07-15 Much literary criticism focuses on literary producers and their products but an important part of such work considers the end user the reader It asks such questions as how far can the author condition the response of the reader and how much does the reader create the meaning of a text Dr Bennett s collection includes important essays from such writers and critics as Wolfgang Iser Mary Jacobus Roger Chartier Michel de Certeau Shoshana Felman Maurice Blanchot Paul de Man and Yves Bonnefoy It looks in turn at deconstructionist feminist new historicist and psychoanalytical response to the school The book then considers the act of reading itself discussing such issues as the uniqueness of any reading and the difficulties involved in its analysis

Encyclopedia of Contemporary Literary Theory Irene Rima Makaryk, 1993-01-01 The last half of the twentieth century has seen the emergence of literary theory as a new discipline As with any body of scholarship various schools of thought exist and sometimes conflict within it I R Makaryk has compiled a

welcome guide to the field Accessible and jargon free the Encyclopedia of Contemporary Literary Theory provides lucid concise explanations of myriad approaches to literature that have arisen over the past forty years Some 170 scholars from around the world have contributed their expertise to this volume Their work is organized into three parts In Part I forty evaluative essays examine the historical and cultural context out of which new schools of and approaches to literature arose The essays also discuss the uses and limitations of the various schools and the key issues they address Part II focuses on individual theorists It provides a more detailed picture of the network of scholars not always easily pigeonholed into the categories of Part I This second section analyses the individual achievements as well as the influence of specific scholars and places them in a larger critical context Part III deals with the vocabulary of literary theory It identifies significant complex terms places them in context and explains their origins and use Accessibility is a key feature of the work By avoiding jargon providing mini bibliographies and cross referencing throughout Makaryk has provided an indispensable tool for literary theorists and historians and for all scholars and students of contemporary criticism and culture

The Employment of English Michael Bérubé, 1998 What sorts of cultural criticism are teachers and scholars to produce and how can that criticism be employed in the culture at large In The Employment of English Michael Berube examines the cultural legitimacy of literary study Berube asserts that we must situate these questions in a context in which nearly half of all college professors are part time labor and in which English departments are torn between their traditional mission of defining the movements of literary history and the protocols of textual interpretation and their newer tasks of interrogating wider systems of signification under rubrics like gender hegemony rhetoric textuality including film and video and culture

Scandalous Bodies Smaro Kamboureli, 2011-04-07 Scandalous Bodies is an impassioned scholarly study both of literature by diasporic writers and of the contexts within which it is produced It explores topics ranging from the Canadian government s multiculturalism policy to media representations of so called minority groups from the relationship between realist fiction and history to postmodern constructions of ethnicity from the multicultural theory of the philosopher Charles Taylor to the cultural responsibilities of diasporic critics such as Kamboureli herself Smaro Kamboureli proposes no neat or comforting solutions to the problems she addresses Rather than adhere to a single method of reading or make her argument follow a systematic approach she lets the texts and the socio cultural contexts she examines give shape to her reading In fact methodological issues and the need to revisit them become a leitmotif in the book Theoretically rigorous and historically situated this study also engages with close reading not the kind that views a text as a sovereign world but one that opens the text in order to reveal the method of its making Her practice of what she calls negative pedagogy a self reflexive method of learning and unlearning of decoding the means through which knowledge is produced allows her to avoid the pitfalls of

constructing a narrative of progress Her critique of Canadian multiculturalism as a policy that advocates what she calls sedative politics and of the epistemologies of ethnicity that have shaped for example the first wave of ethnic anthologies in Canada are the backdrop against which she examines the various discourses that inform the diasporic experience in Canada Scandalous Bodies was first published in 2000 and received the Gabrielle Roy Prize for Canadian Criticism *Interpreting Judaism in a Postmodern Age* Steven Kepnes, 1996 Twelve Jewish studies scholars interpret Jewish texts from various postmodern critical stances finding resonances between the theories of interpretation and the texts themselves e g the word as cosmology in both deconstructionism and the Torah The papers examine deconstruction and the bible Talmudic cultural poetics Kabbalistic Hermeneutics struggles over the Hebrew canon postmodernism and the Holocaust Zionism and post Zionist discourses and Jewish feminist identity Annotation copyright by Book News Inc Portland OR
