

In regard to reintegration and integration, Guatemala is still in the process of implementing State programmes and projects. However, the following progress has been made:

- ❖ Developing legislation on trafficking in persons, in accordance with guiding principles such as the “Life Project”.
- ❖ Strengthening a strategy to address the issue of unaccompanied boys, girls and adolescents which allows the institutions to provide them with immediate assistance and detection of unreported cases of repatriation of minors. It also facilitates the provision and monitoring of basic services needed to provide comprehensive and personalized care based on the reintegration and prevention of irregular migration of this vulnerable sector of the migrant population.

Moors,2000-10 How Maya refugees found new lives in strange lands      **Cultural Psychology of Immigrants** Ramaswami Mahalingam,2013-12-19 This new volume provides an interdisciplinary perspective on how intersections of race class gender sexuality and culture shape the cultural psychology of immigrants It demonstrates the influence transnational ties and cultural practices and beliefs play on creating the immigrant self Distinguished scholars from a variety of fields examine the cultural psychological consequences of displacement among different immigrant communities Cultural Psychology of Immigrants opens with a variety of theoretical perspectives on immigration and a historical overview of sociological research on immigrants It then examines the racial discrimination of immigrants and the multifaceted influences on the creation of immigrant identities The final section documents the pivotal role of family contexts in shaping identity Each chapter illustrates the commonalities and differences among immigrants in the ways in which they make sense of their newfound selves in a displaced context Intended for advanced students and researchers in the fields of psychology social work marriage and family therapy public health anthropology sociology education and ethnic studies the book also serves as a resource in courses on cultural psychology immigrant studies minority groups race and ethnic relations self and identity culture and human development and immigrants and mental health      Annihilating Difference Alexander Laban Hinton,2002-08-15 Genocide is one of the most pressing issues that confronts us today Its death toll is staggering over one hundred million dead Because of their intimate experience in the communities where genocide takes place anthropologists are uniquely positioned to explain how and why this mass annihilation occurs and the types of devastation genocide causes This ground breaking book the first collection of original essays on genocide to be published in anthropology explores a wide range of cases including Nazi Germany Cambodia Guatemala Rwanda and Bosnia      **Paradise in Ashes** Beatriz Manz,2004-03-15 Paradise in Ashes is a deeply engaged and moving account of the violence and repression that defined the murderous Guatemalan civil war of the 1980s In this compelling book Beatriz Manz an anthropologist who spent over two decades studying the Mayan highlands and remote rain forests of Guatemala tells the story of the village of Santa Mar a Tzej near the border with Mexico Manz writes eloquently about Guatemala s tortured history and shows how the story of this village its birth destruction and rebirth embodies the forces and conflicts that define the country today Drawing on interviews with peasants community leaders guerrillas and paramilitary forces Manz creates a richly detailed political portrait of Santa Mar a Tzej where highland Maya peasants seeking land settled in the 1970s Manz describes these villagers plight as their isolated lush but deceptive paradise

became one of the centers of the war convulsing the entire country After their village was viciously sacked in 1982 desperate survivors fled into the surrounding rain forest and eventually to Mexico and some even further to the United States while others stayed behind and fell into the military's hands With great insight and compassion Manz follows their flight and eventual return to Santa Mar a Tzej where they sought to rebuild their village and their lives **The Point of No Return**

Katy Long,2013-08-29 In the past twenty years over 25 million refugees have returned home These refugee repatriations are considered by the international community to be the only real means of solving mass refugee crises Yet despite the importance placed on repatriation both in principle and practice there has been very little exploration of the political controversies that have framed refugee return Several questions remain unresolved do refugees have a right to refuse return How can you remake citizenship after exile Is home a place or a community How should the liberal principles be balanced against nationalist state order The Point of No Return Rights Refugees and Repatriation sets out to answer these questions and to examine the fundamental tensions between liberalism and nationalism that repatriation exposes It makes clear that repatriation cannot be considered as a mere act of border crossing a physical moment of return Instead repatriation must be recognised to be a complex political process involving the remaking of a relationship between citizen and state the recreation of a social contract Importantly The Point of No Return shows that this rebuilding of political community need not actually involve refugees becoming residents in their country of origin Instead refugees may rebuild their state citizen relationship while living as migrants or holding regional or dual citizenships In fact in some settings mobile repatriation may not just be a possible but a necessary form of post conflict citizenship The Point of No Return therefore concludes with the radical claim that repatriation not only can but also sometimes should happen without return What Justice? Whose Justice? Susan

Eckstein,Timothy P. Wickham-Crowley,2003-10-09 This splendid collection by two of our leading political sociologists pioneers new directions in the study of social justice in Latin America What Justice Whose Justice is impassioned scholarship at its best It brings together detailed studies of rights and institutions inequality and struggle citizenship and indigenous politics war and peace This book is essential reading for anyone interested in what the so called triumph of democracy over dictatorship in the region really means today in the lives of the still dispossessed Matthew C Gutmann author of The Romance of Democracy Compliant Defiance in Contemporary Mexico This book offers a stimulating interdisciplinary analysis of the gripping problems of justice inequality and citizenship and of citizen responses to these issues in contemporary Latin America It is essential reading on these interrelated themes Scott Mainwaring co editor of Presidentialism and Democracy in Latin America First rate contributors address the quality of democracy in several Latin American countries in these readable and provocative essays The volume focuses particularly on the relation between democracy and the law on the importance of the past and on informal politics and indigenous political movements A must read for all those who are tracking the course of democracy in the region and who are concerned about its political future Jane S Jaquette co editor of Women and Democracy

Latin America and Central and Eastern Europe For anyone who still assumes that markets plus elections suffice to resolve the problems of injustice that are the political social and economic patrimony of Latin America this book will be a firm wake up call At the same time the excellent case studies in this book make it clear that the current global neoliberal regime is no more effective at suppressing local struggles for justice than the more traditional forms of domination that came before it It is valuable and provocative reading for anyone interested in understanding the contemporary political dynamics of justice and injustice Peter Evans editor of Livable Cities      **Quiet Genocide** Etelle Higonnet, 2017-09-08 Quiet Genocide reviews the legal and historical case that genocide occurred in Guatemala in 1981-1983 It includes the full text of the genocide section of a United Nations sponsored Commission on Historical Clarification in Guatemala CEH brokered by the UN In its final report the CEH's rigorously reviewed abuses throughout the whole country However the memory of the Guatemalan dirty war which predated the genocide and continued for over a decade of the heightened killing has rapidly faded from international awareness The book renders a historical picture of the 1948 Genocide Convention and its unique status in international law It reminds readers of the difficulty of preventing and punishing genocide as illustrated by the ongoing tragedy of Darfur and discusses the evolution of international and hybrid tribunals to prosecute genocide along with war crimes and crimes against humanity Then it sketches a brief history of Guatemala with a focus on genocide It explores how internal and global politics were an expression of structural violence designed to ensure cheap abundant and quiescent Indian labor for coffee planters a The volume provides the commission's general considerations legal definitions methodology period of analysis and victim groups and finds that genocide had been perpetrated against five indigenous Guatemalan groups By translating the genocide argument of the CEH into English and framing it in a lively accessible way this volume recovers the past sets the record straight and promotes accountability This exploratory effort provides insight into the world of transitional justice and truth commissions and valuable insights about how to engage with the question of genocide in the future These findings shed light on a crucial and dark chapter of trans American Cold War history and will thus be of interest not only to scholars focused on Guatemala but also on Central America and even more broadly on the Cold War

Massacres In The Jungle Ricardo Falla, 2021-11-28 Between 1975 and 1982 the Guatemalan military systematically and sadistically punished the campesino population for the activities of guerrilleros in their region This account by Ricardo Falla an anthropologist and Jesuit priest who is himself a Guatemalan exile shows how the victims and their communities were destroyed and provides a detailed record of assassinations and disappearances The book also bears witness to the work of Catholic priests who are dedicating themselves to improving the lives of the peoples of Central America      **Maya In Exile** Allan Burns, 2010-05-03 The first report on the cultural adaptation of Guatemalan Maya immigrants to Florida      **Journeys of Fear** Liisa North, Alan Burtham Simmons, 1999 Understanding democracy human rights and development in the conflict ridden societies of the third world is at the heart of Journeys of Fear a stimulating collection of papers prepared by Canadian

and Guatemalan scholars Edited and with contributions by Liisa North and Alan Simmons this collection explores the participation of the oppressed and marginalised Guatemalan refugees most of them indigenous Mayas who fled from the army's razed earth campaign of the early 1980s in government negotiations regarding the conditions for return The essays adopt the refugees language concerning return defining it as a self organized and participatory collective act that is very different from repatriation a passive process often organized by others with the objective of reintegration into the status quo Contributors examine the extent to which the organized returnees and other social organizations with similar objectives have been successful in transforming Guatemalan society creating greater respect for political social and economic rights They also consider the obstacles to democratization in a country just emerging from a history of oppressive dictatorships and a thirty six year long civil war Liisa L North is professor of political science and a fellow of the Centre for Research on Latin America and the Caribbean at York University Alan B Simmons is associate professor of sociology and a fellow of the Centre for Research on Latin America and the Caribbean at York University

**Beyond Displacement** Molly Todd, 2010-12-22 During the civil war that wracked El Salvador from the mid 1970s to the early 1990s

the Salvadoran military tried to stamp out dissidence and insurgency through an aggressive campaign of crop burning kidnapping rape killing torture and gruesome bodily mutilations Even as human rights violations drew world attention repression and war displaced more than a quarter of El Salvador s population both inside the country and beyond its borders Beyond Displacement examines how the peasant campesinos of war torn northern El Salvador responded to violence by taking to the hills Molly Todd demonstrates that their flight was not hasty and chaotic but was a deliberate strategy that grew out of a longer history of collective organization mobilization and self defense

**The Routledge Research Companion to Border Studies** Doris Wastl-Walter,2016-04-01 Throughout history the functions and roles of borders have been continuously changing They can only be understood in their context shaped as they are by history politics and power as well as cultural and social issues Borders are therefore complex spatial and social phenomena which are not static or invariable but which are instead highly dynamic This comprehensive volume brings together a multidisciplinary team of leading scholars to provide an authoritative state of the art review of all aspects of borders and border research It is truly global in scope and besides embracing the more traditional strands of the field including geopolitics migration and territorial identities it also takes in recently emerging topics such as the role of borders in a seemingly borderless world creating neighbourhoods and border enforcement in the post 9 11 era

*Refugee Women* Susan Forbes Martin,2004-01-01 Refugee Women originally published in 1992 turned awareness for the first time to the particular issues faced by women driven from their homes as a result of international conflict Used in coursework for training and as a springboard for policy development this enormously influential book still has not done enough In the second edition of Refugee Women Susan Forbes Martin draws on years of personal field experience and policy work to revisit the particular concerns of female refugees In this new edition Martin provides crucial background for understanding the legal issues and policies developed to protect women persecuted because of their gender She also describes the recent genesis of the category of internally displaced persons focusing on the unique hardships of women who flee their homes but remain within the borders of their own countries Finally Martin demonstrates how women can advance toward greater participation in legal and economic decision making affirming the power women possess to affect their own destiny when given the necessary support
