Longing for the Lost Caliphate Mona Hassan, 2018-08-14 In the United States and Europe the word caliphate has conjured historically romantic and increasingly pernicious associations Yet the caliphate's significance in Islamic history and Muslim culture remains poorly understood This book explores the myriad meanings of the caliphate for Muslims around the world through the analytical lens of two key moments of loss in the thirteenth and twentieth centuries Through extensive primary source research Mona Hassan explores the rich constellation of interpretations created by religious scholars historians musicians statesmen poets and intellectuals

Hassan fills a scholarly gap regarding Muslim reactions to the destruction of the Abbasid caliphate in Baghdad in 1258 and challenges the notion that the Mongol onslaught signaled an end to the critical engagement of Muslim jurists and intellectuals with the idea of an Islamic caliphate. She also situates Muslim responses to the dramatic abolition of the Ottoman caliphate in 1924 as part of a longer trajectory of transregional cultural memory revealing commonalities and differences in how modern Muslims have creatively interpreted and reinterpreted their heritage. Hassan examines how poignant memories of the lost caliphate have been evoked in Muslim culture, law, and politics, similar to the losses and repercussions experienced by other religious communities, including the destruction of the Second Temple for Jews and the fall of Rome for Christians. A global history, *Longing for the Lost Caliphate* delves into why the caliphate has been so important to Muslims in vastly different eras and places.

The Ma'luf in Contemporary Libya Philip Ciantar, 2016-03-03
The musical tradition of Ma'luf is believed to have come to North Africa with Muslim and Jewish refugees escaping the Christian reconquista of Spain between the tenth and seventeenth centuries. Although this Arab Andalusian music tradition has been studied in other parts of the region, until now the Libyan version has not received Western scholarly attention. This book investigates the place of this orally transmitted music tradition in contemporary Libyan life and culture. It investigates the people that make it and the institutions that nurture it as much as the tradition itself. Patronage, music-making discourse, both about life and music history and ideology, all unite in a music tradition which looks innocent from the outside but appears quite intriguing and intricate the more one explores it.

Historical Dictionary of Sacred Music Joseph P. Swain, 2016-10-11
Sacred music is a universal phenomenon of humanity. Where there is faith, there is music to express it. Every major religious tradition and most minor ones have music and have it in abundance and variety. There is music to accompany ritual and music purely for devotion; music for large congregations and music for trained soloists; music that sets holy words and music without words at all. In some traditions, Islamic and many Native American, to name just two, the relation between music and religious ritual is so intimate that it is inaccurate to speak of the music accompanying the ritual. Rather, to perform the ritual is to sing, and to sing the ritual is to perform it. This second edition of *Historical Dictionary of Sacred Music* contains a chronology, an introduction, appendixes, and an extensive bibliography. The dictionary section has over 800 cross-referenced entries on major types of music, composers, key religious figures, specialized positions, genres of composition, technical terms, instruments, fundamental documents, and sources, significant places, and important musical compositions. This book is an excellent access point for students, researchers, and anyone wanting to know more about sacred music.
