Astronomical Union C. de Jager, A. Jappel, 2012-12-06 The changing character of the IAU General Assemblies becomes most clear from a comparison of the agenda of the Brighton meeting with that of one of the earlier meetings The fourth General Assembly Cambridge Mass 1932 had about 240 participants registered guests included the Brighton meeting had about 2300 people attending The Cambridge meeting lasted 5 working days of which however three half days were exclusively devoted to excursions leaving four real meeting days At that time the nearly 30 commissions had each only one meeting during part of a morning or afternoon some commissions did not meet at all There was one public lecture by Sir Arthur Eddington on The Expanding Universe Most of the small European countries were represented by two or three delegates only but the delegations of France and Great Britain were composed of 20 and 18 scientists respectively at that time there were only two delegates from Germany After the Brighton General Assembly with about 200 commission meetings one commission met eleven times six Joint Discussions four Invited Discourses a Special Meeting and hardly time for excursions there were a few complaints about too many overlapping meetings Transactions of the International Astronomical Union , Reports on Astronomy
