Representing Plaintiffs In Title VII Actions Vol 2:

Civil Service Reform Issues United States. Congress. House. Committee on Government Reform and Oversight. Subcommittee on Civil Service, 1999 **Systemic Discrimination in Employment and the Promotion of Ethnic Equality** Ronald L. Craig, 2007 This book argues that traditional complaint based antidiscrimination laws are inherently inadequate to respond to systemic discrimination in employment It examines the mechanisms and characteristics of systemic discrimination and the shortcomings of complaint based laws Yet these characteristics can also inform employers and government authorities of the kinds of preventive action that help alleviate systemic discrimination at the workplace In its search for a rational government policy response to systemic discrimination the book evaluates selected legal regimes which impose proactive obligations on employers to promote equality at the workplace Proactive regimes are regulatory in nature rather than adjudicatory They induce employer compliance through technical assistance dialogue and regulatory pressure rather than court orders By examining the key elements of these regimes the author explains why some proactive regimes function better than others and why proactive regimes function better than complaint based laws in addressing systemic discrimination Hearings on H.R. 4000, the Civil Rights Act of 1990-volume 3 United States.
