Reproducing Narrative Gender Reproduction And The Law:

Reproducing Narrative Michael Thomson, 2018-12-20 First published in 1998 *Reproducing Narrative* sets out to interrogate a number of medico legal reproductive discourses Recognizing that these dialogues are heavily imprecated in broader social political and economic discourses it is contended that responses to reproductive issues are influenced and possibly determined by non reproductive concerns both at a parochial and more general level Whilst a number of such influential narratives are recognized the book concentrates on the narratives of gender which appear implicit within the discourses and practices considered Given the productive nature of discourse and the traditional premising of gender on sexual difference it becomes apparent that the explicit figuring of the female reproductive body becomes a means of realizing the implicit gender narratives within these discourses Privileged medico legal discourses become understood as a technology of gender an important site at which gender is constituted **Reproducing Narrative** Michael Andrew Thomson, 1995

Law, Policy and Reproductive Autonomy Erin Nelson, 2014-07-18 Reproductive choices are at once the most private and intimate decisions we make in our lives and undeniably also among the most public Reproductive decision making takes place in a web of overlapping concerns political and ideological socio economic health and health care all of which engage the public and involve strongly held opinions and attitudes about appropriate conduct on the part of individuals and the state *Law Policy and Reproductive Autonomy* examines the idea of reproductive autonomy noting that in attempting to look closely at the contours of the concept we begin to see some uncertainty about its meaning and legal implications about how to understand reproductive autonomy and how to value it Both mainstream and feminist literature about autonomy contribute valuable insights into the meaning and implications of reproductive autonomy The developing feminist literature on relational autonomy provides a useful starting point for a contextualised conception of reproductive autonomy that creates the opportunity for meaningful exercise of reproductive choice With a contextualised approach to reproductive autonomy as a backdrop the book traces aspects of the regulation of reproduction in Canadian English US and Australian law and policy arguing that not all reproductive decisions necessarily demand the same level of deference in law and policy and making recommendations for reform **The Cambridge Companion to Gender and the Law** Stéphanie Hennette Vauchez, Ruth

Rubio-Marín, 2023-01-26 To what extent is the legal subject gendered Using illustrative examples from a range of jurisdictions and thematically organised chapters this volume offers a comprehensive consideration of this question With a systematic accessible approach it argues that law and gender work to co produce the legal subject Cumulatively the volume s chapters provide a systematic evaluation of the key facets of the legal subject the corporeal the functional and the communal Exploring aspects of the legal subject from the ways in which it is sexed and sexualised to its national and familial dimensions this volume develops a complete account of the various processes through which legal orders produce gendered subjects Across its chapters each theoretically ambitious in its own right this volume outlines how the law not only acts on the social

world but genders it *Ethics, Law and Society* Søren Holm,2017-07-05 This key collection brings together a selection of papers commissioned and published by the Cardiff Centre for Ethics Law Society It incorporates contributions from a group of international experts along with a selection of short opinion pieces written in response to specific ethical issues The collection addresses issues arising in biomedical and medical ethics ranging from assisted reproductive technologies to the role of clinical ethics committees It examines broader societal issues with particular emphasis on sustainability and the environment and also focuses on issues of human rights in current global contexts The contributors collect responses to issues arising from high profile cases such as the legitimacy of war in Iraq to physician related suicide The volume will provide a valuable resource for practitioners and academics with an interest in ethics across a range of disciplines

A Jurisprudence of the Body Chris Dietz,Mitchell Travis,Michael Thomson,2020-08-05 This book brings together a range of theoretical perspectives to consider fundamental questions of health law and the place of the body within it Health and more recently health law has long been animated by

discussions of particular bodies whether they are disordered diseased or disabled but each of these classificatory regimes claim some knowledge about the body This edited collection aims to uncover and challenge the fundamental assumptions that underpin medico legal knowledge claims about such bodies This exploration is achieved through a mix of perspectives but many contributors look towards embodiment as a perspective that understands bodies to be shaped by their institutional contexts Much of this work alerts us to the idea that medical practitioners not only respond to healthcare issues but also create them through their own understandings of normality and fixing Bodies as a result cannot be understood outside of or as separate to their medical and legal contexts This compelling book pushes the possibility of new directions in health care and health justice Chapter 5 is available open access under a Creative Commons Attribution 4 0 International License via link [springer.com](https://www.springer.com)

Fragmenting Fatherhood Richard Collier,Sally Sheldon,2008-09-05 Debates about the future of fatherhood have been central to a range of conversations about changing family forms parenting and society Law has served an important yet often neglected role in these discussions serving as an important focal point for broader political frustrations playing a central role in mediating disputes and operating as a significant symbolic state sanctioned account of the scope of paternal rights and responsibilities **Fragmenting Fatherhood** provides the first sustained engagement with the way that fatherhood has been understood constructed and regulated within English law Drawing on a range of disparate legal provisions and material from diverse disciplines it sketches the major contours of the figure of the father as drawn in law and social policy tracing shifts in legal and broader understandings of what it means to be a father and what rights and obligations should accrue to that status In thematically linked chapters cutting across substantive areas of law the book locates fatherhood as a key site of contestation within broader political debates regarding the family and gender equality Multiple visions of fatherhood evolving unevenly over time across diverse areas of law emerge from this analysis Fatherhood is revealed as an essentially fragmented status and one which is intertwined in complex ways with the legal cultural and political contexts in which discourses of parenthood are produced **Fragmenting Fatherhood** provides an important and unique resource speaking to debates about fatherhood across a range of fields including law and legal theory sociology gender studies social policy marriage and the family women s studies and gender studies

Narratives of Consent and Reproductive Subjects Samantha Halliday,Rebecca Brione,Jacqueline Nicholls,2025-09-02 Consent is the golden principle that determines the legality of most medical treatment However whilst choice is the much vaunted central tenet of maternity care its importance emphasised in policy documents the lived experience is often rather different particularly in the case of individuals constructed as other This collection brings together a range of researchers from multiple disciplines to address the issue of choice in the context of reproduction focussing upon narratives of consent as they pertain to reproductive subjects who all too often are rendered invisible by the law by the healthcare professionals treating them or by society It explores the contours of consent in England and Wales engaging with reproductive justice by focussing upon the way in

which reproductive subjects are othered treated differently due to their skin colour their genetic makeup the fact that they have a serious mental illness or even those who do not want to be mothers It presents original research bringing together multiple perspectives in examining the way in which individuals are rendered invisible in the context of reproductive healthcare The book will be essential reading for academics and professionals in law nursing medicine midwifery sociology ethics and anthropology A History of Infanticide in Britain, c. 1600 to the Present A. Hodges, Marilyn Fayre Milos, 2010-08-25 Circumcision affects 15 3 million children and young adults annually In terms of gender 13 3 million boys and 2 million girls are subjected to the involuntary removal of part or all of their external sexual organs every year The problem of female circumcision has been addressed on an international level but male circumcision remains a controversial subject that many academics have been reluctant to examine Circumcision is tolerated today because it has been practiced for millennia by a small but vocal minority of religious and ethnic groups however when the practice is examined through the lens of modern legal ethical and human rights advancements no place remains in civilized society for this body altering ritual In Genital Autonomy Protecting Personal Choice international experts address various types of genital modifications the impact of these harmful traditional practices on the child on human rights

and on the development of the concept of bodily integrity The papers presented in this volume address these topics from a variety of angles They question and dissect the true motivations of the doctors witch doctors and holy men who promote and profit from circumcision
