The Oxford Handbook of the History of Communism S. A. Smith, 2014-01-09 The impact of Communism on the twentieth century was massive equal to that of the two world wars Until the fall of the Soviet Union in 1991 historians knew relatively little about the secretive world of communist states and parties Since then the opening of state party and diplomatic archives of the former Eastern Bloc has released a flood of new documentation The thirty five essays in this Handbook written by an international team of scholars draw on this new material to offer a global history of communism in the twentieth century In contrast to many histories that concentrate on the Soviet Union The Oxford Handbook of the History of Communism is genuinely global in its coverage paying particular attention to the Chinese Revolution It is global too in the sense that the essays seek to integrate history from above and from below to trace the complex mediations between state and society and to explore the social and cultural as well as the political and economic realities that shaped the lives of citizens fated to live under communist rule The essays reflect on the similarities and differences between communist states in order to situate them in their socio political and cultural contexts and to capture their changing nature over time Where appropriate they also reflect on how the fortunes of international communism were shaped by the wider economic political and cultural forces of the capitalist world The Handbook provides an informative introduction for those new to the field and a comprehensive overview of the current state of scholarship for those seeking to deepen their understanding

The Czech And Slovak Republics Carol Leff, 2018-02-15 This clear objective introduction to the politics of Czechoslovakia and the successor Czech and Slovak Republics provides a comprehensive analysis of Czechoslovakia in the postcommunist period Carol Leff builds a framework for understanding the dynamics of the triple transition democratization marketization and a national transformation that has reconfigured the dynamic between state and nation She shows how the interaction of these three transformational agendas has shaped Czechoslovakia's development ultimately culminating in the paradoxical disintegration of a state that most of its citizens wished to preserve The book offers a valuable case study of a country coming back to Europe but it also provides an opportunity for analyzing the influence of communism on what had been a significant interwar European state The book's strong comparative element will make it invaluable as well for those seeking to understand contemporary Central and Eastern Europe

Notable American Women with Czechoslovak Roots Miloslav Rechcigl Jr., 2019-09-16 Even though there exist only a few general studies on the subject of Czechoslovak American women this is not at all a reflection of the paucity of work done by these women as this publication demonstrates This monograph is a compendium of notable American women with Czechoslovak roots who distinguished themselves in a particular field or area from the time they first immigrated to America to date Included are not only individuals born on the territory of former Czechoslovakia but also their descendants This project has been approached strictly geographically irrespective of the language or ethnicity Because of the lack of bibliographical information most of the monograph comprises biobibliographical information in which area a plethora of information exists As the reader will discover these women have been involved practically in every field of human endeavor in numbers that surprise On the whole they have been noted for their independent spirit and nonconforming role

[The Rights of the Roma](#) Celia Donert, 2017-12-14 The Rights of the Roma writes Romani struggles for citizenship into the history of human rights in socialist and post socialist Eastern Europe If Roma have typically appeared in human rights narratives as victims Celia Donert here draws on extensive original research in Czech and Slovak archives sociological and ethnographic studies and

oral histories to foreground Romani activists as subjects and actors Through a vivid social and political history of Roma in Czechoslovakia she provides a new interpretation of the history of human rights by highlighting the role of Socialist regimes in constructing social citizenship in postwar Eastern Europe The post socialist human rights movement did not spring from the dissident movements of the 1970s but rather emerged in response to the collapse of socialist citizenship after 1989 A timely study as Europe faces a major refugee crisis which raises questions about the historical roots of nationalist and xenophobic attitudes towards non citizens

Reproducing Gender Susan Gal,Gail Kligman,2021-04-13 The striking fact that abortion was among the first issues raised after 1989 by almost all of the newly formed governments of East Central Europe points to the significance of gender and reproduction in the postsocialist transformations The fourteen studies in this volume result from a comparative collaborative research project on the complex relationship between ideas and practices of gender and political economic change The book presents detailed evidence about women s and men s new circumstances in eight of the former communist countries exploring the intersection of politics and the life cycle the differential effects of economic restructuring and women s public and political participation Individual contributions on the former German Democratic Republic Poland the Czech Republic Slovakia Hungary Serbia Romania and Bulgaria provide rich empirical data and interpretive insights on postsocialist transformation analyzed from a gendered perspective Drawing on multiple methods and disciplines these original papers advance scholarship in several fields including anthropology sociology women s studies law comparative political science and regional studies The analyses make clear that practices of gender and ideas about the differences between men and women have been crucial in shaping the broad social changes that have followed the collapse of communism In addition to the editors the contributors are Eleonora Zieli ska Eva Maleck Lewy Myra Marx Ferree Sharon Wolchik Irene D lling Daphne Hahn Sylka Scholz Mira Marody Anna Giza Poleszczuk Katalin Kov cs M nika V radi Julia Szalai Adriana Baban Ma gorzata Fuszara Laura Grunberg Zorica Mrsevi Krassimira Daskalova Joanna Goven and Jasmina Luki

Anthropology of Breast-Feeding Vanessa Maher,2024-11-01 On the whole the

debates surrounding the issues of breast feeding often reflecting ethnographic and ill informed medical and demographic approaches have failed to treat the deeper issues The significance of breast feeding reaches far beyond its biological function in fact the authors of this volume argue there is nothing natural about breast feeding itself On the contrary attitudes and practices are socially determined and breast feeding has to be seen as an essential element in the cultural construction of sexuality This volume offers an ethnography of breast feeding by examining cultural norms and practices in a number of European and non European societies thus presenting valuable and often astonishing empirical material that is not otherwise readily available The highly original focus of this volume therefore throws new light on gender and on social relationships in general

Revenge of the Domestic Donna Harsch, 2018-06-26 *Revenge of the Domestic* examines gender relations in East Germany from 1945 to the 1970s focusing especially on the relationship between ordinary women the Communist Party and the state created by the Communists the German Democratic Republic GDR The book weaves together personal stories from interviews statistical material and evidence from archival research in Berlin Potsdam Leipzig Merseburg and Chemnitz to reconstruct the complex interplay between state policy toward women and the family on the one hand and women's reactions to policy on the other Donna Harsch demonstrates that women resisted state decisions as citizens wageworkers mothers wives and consumers and that in every guise they maneuvered to overcome official neglect of the family As state dependence on female employment increased the book shows the Communists began to respond to the insistence of women that the state pay attention to the family In fits and starts the party state begrudgingly retooled policy in a more consumerist and family oriented direction This domestication was partial ambivalent and barely acknowledged from above It also had ambiguous arguably regressive effects on the private gender arrangements and attitudes of East Germans Nonetheless the economic and social consequences of this domestication were cumulatively powerful and the book argues gradually undermined the foundations of the GDR
