## **Reproductive Ethics:**

*Reproductive Ethics II* Lisa Campo-Engelstein, Paul Burcher, 2018-08-20 This book is the second collection of essays on reproductive ethics from Drs Campo Engelstein and Burcher This volume is unique in that it is both timely and includes several essays on new technologies while also being a comprehensive review of most of the major questions in the field from racial disparities in reproductive healthcare to gene editing and the possibility of the creation of a transhuman species The scholars writing these essays are pre eminent in their fields and their backgrounds are quite varied including philosophers anthropologists physicians and professors of law Reproductive ethics remains an underdeveloped area of bioethics despite the recent technological breakthroughs that carry both great promise and potential threats Building on the first volume of work from a conference held just over one year ago this new collection of essays from a conference held April 2017 continues this discussion as well as provides ethical insights and reviews of these emerging technologies The ethical questions swirling around human reproduction are both old and new but the conference presentations and the essays derived from them focus on new ways of appreciating old arguments such as the ethics of abortion as well as new ways of seeing new technologies such as CRISPR and mitochondrial transfer

*Reproductive Ethics in Clinical Practice* Julie Chor, Katie Watson, 2021 Reproductive health care professionals in fields such as Obstetrics and Gynecology Family Medicine and Pediatrics face difficult ethical issues because they work at the crossroads of patient decision making scientific advancement political controversy legal regulation and profound moral considerations The dilemmas these professionals face expose big picture bioethics questions of interest to everyone Yet for clinicians striving to deliver excellent patient care the ethical questions that make daily practice challenging can be just as nuanced This volume presents a carefully curated compilation of essays written by leading experts in the fields of medicine ethics and law who address key issues at the forefront of reproductive ethics It is organized into three main sections I Contraception and Abortion Ethics Preventing Pregnancy and Birth II Assisted Reproduction Ethics Initiating Pregnancy and III Obstetric Ethics Managing Pregnancy and Delivery Each section begins with a short introduction by the editors providing an overview of the area and contextualizing the essays that follow This volume s primary aim is to be useful to practicing clinicians students and trainees by providing short and practical essays covering urgent topics from race religion and abortion to legal liability violations of confidentiality and maternal choices that risk future children s health This collection provides clinicians at all levels of training with frameworks they need to approach the intimate and high stakes encounters central to their profession

*The Oxford Handbook of Reproductive Ethics* Leslie Francis, 2016-12-28 Intimate and medicalized natural and technological reproduction poses some of the most challenging ethical dilemmas of our time Reproduction presses the boundaries of humanity and ethical respect the permissible limits of technology conscientious objection by health care professionals and social justice This volume brings together scholars from multiple perspectives to address both traditional and novel questions about the rights and

responsibilities of human reproducers their caregivers and the societies in which they live Among issues treated in the volume are what it is to be a parent the responsibilities of parents and the role of society in facilitating or discouraging parenting May gamete donors be anonymous Is surrogacy in which a woman gestates a child for others ethically permissible when efforts are made to prevent coercion or exploitation Should it be mandatory to screen newborns for potentially serious conditions or permissible to sequence their genomes Are both parties to a reproductive act equally responsible to support the child even if one deceived the other Are there ethical asymmetries between male and female parents and is the lack of available contraceptives for men unjust Should the costs of infertility treatment be socially shared as they are for other forms of health care Do parents have a duty to try to conceive children under the best circumstances they can or to avoid conception if the child will suffer What is the status of the fetus and what ethical limits constrain the use of fetal tissue Reproduction is a rapidly changing medical field with novel developments such as mitochondrial transfer or uterine transplantation occurring regularly And there are emerging natural challenges too with Zika virus just the latest The volume gives readers tools not only to address the problems we now know but ones that may emerge in the future as well

**Reproductive Ethics** Lisa Campo-Engelstein, Paul Burcher, 2017-06-10 This book summarizes the contributions at an April 2016 conference held at Albany Medical College Reproductive Ethics New Challenges and Conversations Reproductive ethics does not suffer from a lack of challenging issues yet a few hot button issues such as abortion and surrogacy seem to attract most of the attention while other issues and dilemmas remain relatively underdeveloped in bioethics literature The goal of this book is to explore and expand the range of topics addressed in reproductive ethics This is a multi disciplinary book bringing together philosophers clinicians sociologists anthropologists and other scholars whose research or clinical interests touch reproductive issues The results of this compilation are a comprehensive and unique discussion of the evolving issues in the rapidly changing field The majority of the popular reproductive ethics anthologies were published at least 10 years ago The field of reproductive ethics would benefit from a new anthology that addresses some of the perennial dilemmas in reproductive ethics e g abortion sex selection from updated perspectives and that also covers new technologies that have emerged only in the last few years such as social egg freezing

Reproductive Ethics Michael D. Bayles, 1984 *Clinical Ethics at the Crossroads of Genetic and Reproductive Technologies* Sorin Hostiuc, 2023-08-14 The Human Genome Project has triggered a technological revolution that has influenced nearly every field of medicine including reproductive medicine obstetrics gynecology andrology prenatal genetic testing and gene therapy This second edition of *Clinical Ethics at the Crossroads of Genetic and Reproductive Technologies* offers a thorough timely discussion of ethical issues raised by the latest genetic and genomic technologies applied in human reproductive and prenatal medicine providing practical recommendations guidelines and algorithms to support ethical clinical practice Here international experts consider the ethics of technologies from preconception carrier screening to genetic engineering CRISPR gene editing mitochondrial gene

replacement therapy sex selection predictive testing secondary findings embryo reduction and the moral status of the embryo genetic enhancement and the sharing of genetic data Throughout the book contributors adopt a global holistic perspective on applied challenges and the moral questions around the implementation of genetic reproductive technologies The book is an ideal resource for practitioners regulators lawmakers clinical researchers genetic counselors and graduate and medical students This fully updated second edition examines new developments in the field tackling ethical aspects of organoid development recent advances in pharmacogenomics direct to consumer genetic testing and genetic engineering Provides practical analysis of the ethical issues raised by cutting edge techniques and recent advances in prenatal and reproductive genetics Contains contributions from leading bioethicists and clinicians who offer a global holistic perspective on applied challenges and moral questions relating to genetic and genomic reproductive technology Discusses preconception carrier screening genetic engineering and the use of CRISPR gene editing mitochondrial gene replacement therapy and ethical issues among others Considers ethical aspects of recent advances and new technologies in the field from organoid development to pharmacogenomics and direct to consumer genetic testing

*Nursing Ethics* Janie B. Butts, Karen Rich (MN.), Karen L. Rich, 2005 Based on the concept that compassionate relationships between nurses and patients form a vital element of humanistic nursing *Nursing Ethics Across the Curriculum and Into Practice* provides foundational knowledge about ethics to prepare nursing students for the moral issues they will experience daily Derived from theoretical foundations clinical evidence and case study this text is ideal for nursing students by providing decision making approaches and models rationale for decisions and management of care for various topics Addressing a wide array of nursing moral issues this text includes current scholarly literature related news briefs and research and legal findings regarding ethical issues

*The Ethics of Genetic Control* Joseph Fletcher, 2011-09-29 The patriarch of medical ethics explains why some accepted ethical values need to catch up with the science of human reproduction and why newer reproductive methods can be more natural and humane than those they replace

**Reproductive Ethics in Clinical Practice** Julie Chor, Katie Watson, 2021 Like all clinicians reproductive health care providers face specialty specific ethical questions However the first editor of this book Dr Julie Chor JC has never found an ethics text that is tailored to the needs of practicing clinicians students and trainees in Reproductive Healthcare This is an unfortunate gap in the literature because whether reproductive health providers come from Obstetrics and Gynecology Family Medicine Pediatrics or another field they all must be able to identify and analyze complex ethical issues that lie at the crossroads of patient decision making scientific advancement political controversy government regulation and profound moral considerations in the context of continually evolving medical legal and societal factors To fill this gap Dr Chor invited co editor Professor Katie Watson KW to partner in creating the text that she has always longed to use but has never found as an Obstetrician Gynecologist practicing and teaching in this complex milieu
