*Heaven on Earth* Richard Landes,2011-08-04 Millennialists through the ages have looked forward to the apocalyptic moment that will radically transform society into heaven on earth They have delivered withering critiques of their own civilizations and promised both the impending annihilation of the forces of evil and the advent of a perfect society And all their promises have invariably failed We tend therefore to dismiss these prophets of doom and salvation as crackpots and madmen and not surprisingly historians of our secular era have tended to underestimate their impact on our modern world Now Richard Landes offers a lucid and ground breaking analysis of this widely misunderstood phenomenon This long awaited study shows that many events typically regarded as secular including the French Revolution Marxism Bolshevism Nazism not only contain key millennialist elements but follow the apocalyptic curve of enthusiastic launch disappointment and often catastrophic re entry into normal time Indeed as Landes examines the explicit millennialism behind such recent events as the emergence of Global Jihad since 1979 he challenges the common notion that modern history is largely driven by secular interests By focusing on ten widely different case studies none of which come from Judaism or Christianity he shows that millennialism is not only a cultural universal but also an extremely adaptive social phenomenon that persists across the modern and post modern divides At the same time he also offers valuable insight into the social and psychological factors that drive such beliefs Ranging from ancient Egypt to modern day UFO cults and global Jihad *Heaven on Earth* both delivers an eye opening revisionist argument for the significance of millennialism throughout history and alerts the reader to the alarming spread of these ideologies in our world today

**The Age of Promiscuity** Doru Pop,2018-11-15 This book presents an original and engaging look at contemporary popular culture opening with the provocative idea that this is a day and age of complete exhaustion of ideas images stories and myths Questioning the effects of content recycling in cinema and other media the author further elaborates on the repurposing of cultural junk the reassembling of narratives and myths The thought provoking hypothesis proposed in this research is that we have entered an age of cultural promiscuity By analyzing the mutations of myth making practices and connecting them with larger cultural manifestations the author explains these transformations as integral to the development of a myth illogical imagination Cinematic and mythological representations in

mainstream Hollywood films have reached a point of amalgamation with no return which marks the beginning of a fourth age of representations where signs and meanings are manifested in illogical permutations This is more explicit in films that commingle aliens cowboys undead American presidents and zombie nazis joining together in the same narrative ghosts werewolves and vampires aggregating disjointed storylines and historical fake facts all coalesced in an orgy of empty burlesque and infantile masquerades This interdisciplinary research combines cultural studies film criticism art and myth interpretations bringing into the debate multiple concepts from related fields such as critical theory and media criticism The book also opens up to innovative approaches from a wide array of academic disciplines offering researchers students and those fascinated by the transformations happening in contemporary cinema an interpretative tool based on a revised dialectic approach The conclusion is that we are now victims of a zombie semiotics Meaning making in contemporary culture politics and aesthetics is dominated by a process of incessant desecration of significations specific to the total mishmash of representations analyzed here
