van Zanten**

Republiek Van Rivaliteiten Nederland Sinds 1813:

A History of the Netherlands Friso Wielenga, 2015-06-25 Books offering an overview of Dutch history are few and far between in the English speaking world Friso Wielenga's *A History of the Netherlands From the Sixteenth Century to the Present Day* fills this gap It offers a modern integrated outline of Dutch history from the period in which the country took shape as a geographical administrative and political entity and undermines the presumption that Dutch history since the 16th century was characterised by political consensus and religious toleration Domestic and foreign politics take pride of place interwoven with the broad lines of economic and cultural developments as Wielenga uses the Netherlands geographical location and its international relations to better understand the partially tumultuous past and present of this small land on the North Sea *A History of the Netherlands* provides an authoritative comprehensive in depth survey and will be of great value to students of modern European history

The Rise of the Dutch New Right Merijn Oudenampsen, 2020-09-13 In the past 20 years a wave of right wing populist movements has swept over Europe changing the face of European politics The Netherlands has been one of the more iconic countries to partake in this shift Known internationally as an emblem of progressivism and tolerance the country soon became a frontrunner in the revival of nationalist and anti immigrant sentiment This is the first study to offer an extensive engagement with the ideas behind the Dutch swing to the right The emergence of Dutch populism this book shows formed an integral part of a broader conservative tendency identified as the Dutch New Right In the US and the UK the term New Right has been used to describe conservative backlash movements that arose in opposition to the progressive movements of the 1960s The Dutch swing to the right this book argues formed a belated iteration of the New Right backlash that occurred overseas This text will be essential reading for students and scholars in the fields of European Studies and Political Science and Dutch politics and society more specifically

The selfmade land Gerhard Dekker, Len de Klerk, Peter Paul Witsen, Hans van der Cammen, 2012-09-26 Nederland is n van de meest dichtbevolkte landen ter wereld Dan moet je verstandig omgaan met de beschikbare ruimte Waar gaan we werken waar wonen en waar vakantie houden Wat bebouwen en wat blijft ongerept Nergens ter wereld wordt daar zo grondig over nagedacht als in Nederland Internationaal geldt Nederland als gidsland op het gebied van de ruimtelijke ordening Vanwege deze positie en om aan de vraag vanuit het Engelstalige onderwijs te voorzien verschijnt nu deze geheel herziene Engelstalige editie van het standaardwerk Ruimtelijke ordening

Globalizing Automobility Gijs Mom, 2020-08-07 Why has car society proven so durable even in the face of mounting environmental and economic crises In this follow up to his magisterial *Atlantic Automobility* Gijs Mom traces the global spread of the automobile in the postwar era and investigates why adopting more sustainable forms of mobility has proven so difficult Drawing on archival research as well as wide ranging forays into popular culture Mom reveals here the roots of the exuberance excess and danger that define modern automotive culture

Forgotten Captives in Japanese-Occupied Asia Kevin Blackburn, Karl Hack, 2007-12-14 Using archival oral and

literary sources Blackburn and Hack along with an impressive team of international contributors rectify the obscured picture of the Japanese captive by bringing together for the first time a collection of essays covering an extremely broad range of forgotten captives

Border-crossing in Education Joëlle Droux, Rita Hofstetter, 2018-02-02 Border crossing in Education comprises a series of case studies covering a variety of cultural areas in order to reveal the density of connections and exchanges that inform educational practices policies and systems It attaches particular importance to individual and collective actors that govern these flows initiating promoting or reconfiguring transfers of policy models The contributors explore various aspects of the circulatory mechanisms that have been deployed in the field of education during the modern and contemporary period Varying the observation scales from local to international they demonstrate the multilateral character of the circulatory dynamics observed The implementation of rich and varied approaches to these complex processes offers a perspective that complements and renews our knowledge of the genesis and evolution of educational policies and systems most notably highlighting their foreign inspirations However these studies do not merely evoke borrowings and hybridization as if national borders proved porous or non existent Instead they show that the phenomena of resistance reinterpretation and rejection are also an integral part of transnational mechanisms of exchanges The book thus demonstrates the relevance of a historical approach in addressing these transnational mechanisms in the field of education and childhood policy This book was originally published as a special issue of *Paedagogica Historica*

A History of Dutch Corruption and Public Morality (1648-1940) Toon Kerkhoff, Ronald Kroeze, Pieter Wagenaar, Michel Hoenderboom, 2020-07-03 This book represents the first extensive discussion of 300 years of change continuity and diversity in Dutch corruption and public morality between 1648 and 1940 A collection of rich historical case studies on public and political debates surrounding supposedly corrupt acts of administrators and politicians is set against the backdrop of the major political and socio economic developments of the time As the book moves from early modern beginnings of the Dutch Republic to the age of Enlightenment and into modern politics it tells the story of how when and why Dutch political administrative thought and practice concerning good and bad government actually evolved It provides the reader with an understanding of past and present ideas on Dutch corruption and public morality and places these within a wider European historical context The book will primarily appeal to those interested in European and Dutch political administrative history the history of corruption anti corruption public values and ethics and integrity

From Micro to Macro: Dealing with Uncertainties in the Global Marketplace Felipe Pantoja, Shuang Wu, 2022-04-04 The focus of the volume is on dealing with uncertainties and challenges within the global marketplace brought by digital technology companies that are leveraging artificial intelligence machine learning cloud computing robotic automation augmented reality and other recent advancements Additionally these companies operate in the sharing economy and offer collaborative consumption opportunities Featuring contributions presented at the 2020 Academy of Marketing Science AMS Virtual Annual Conference the enclosed contributions assess the

Afterlife of the Leiden Anatomical Collections Hieke Huistra,2018-11-02 The Afterlife of the Leiden Anatomical Collections starts where most stories end after death It tells the story of thousands of body parts kept in bottles and boxes in nineteenth century Leiden a story featuring a struggling medical student more than one disappointed anatomist a monstrous child and a glorious past Hieke Huistra blends historical analysis morbid anecdotes and humour to show how anatomical preparations moved into the hands of students and researchers and out of the reach of lay audiences In the process she reveals what a centuries old collection can teach us about the future fate of the biobanks we build today **History of the**

Low Countries J. C. H. Blom,E. Lamberts,2006-06 The history of the smaller European countries is rather neglected in the teaching of European history at university level We are therefore pleased to announce the publication of the first comprehensive history of the Low Countries in English from Roman Times to the present Remaining politically and culturally fragmented with its inhabitants speaking Dutch French Frisian and German the Low Countries offer a fascinating picture of European history en miniature For historical reasons parts of northern France and western Germany also have to be included in the Low Countries a term that must remain both broad and fluid a convenient label for a region which has seldom if ever composed a unified whole In earlier ages it as even more difficult to the region set parameters again reflecting Europe as a whole when tribes and kingdoms stretched across expanses not limited to the present states of Belgium Luxembourg and the Netherlands Nevertheless its parts did demonstrate many common traits and similar developments that differentiated them from surrounding countries and lent them a distinct character Internationally the region often served both as a mediator for and a buffer to the surrounding great powers France Britain and Germany an important role still played today as Belgium and the Netherlands have increasingly become involved in the broader process of European integration in which they often share the same interest and follow parallel policies This highly illustrated volume serves as an ideal introduction to the rich history of the Low Countries for students and the generally interested reader alike **Handbook of Dutch Church**

History Herman J. Selderhuis,2014-12-10 Herman Selderhuis as editor of this volume has brought together a team of experts resulting in a unique approach since each chapter is co written by a catholic and a protestant author who have all integrated

the latest research results Each section begins with a brief historiographical overview The same time ecclesiastical events are always set within a greater framework of political social and cultural developments for which reason each author has taken the liberty to describe its own method The user will find in this book tables diagrams and illustrations Also many source texts are integrated in the narration Theses texts are intended to bring the described events and people closer to the reader and as it were to let them speak the words The name of the book as Handbook of the church history of the Netherlands immediately brings to mind three problematic complexes which are relevant to its user First there is the nature of a handbook that is intended to be a good tool but also has its limitations it stimulates and necessitates the use of further books Second the area The Netherlands is a plurality and that is also noticeable in its church history for each region town and village has its own church history Third the history of the church for sure is the most important aspect but this history can only be understood if it is described in the context of political and social developments

Memory Wars in the Low Countries, 1566-1700 Jasper van der Steen, 2015-07-28 The Revolt in the Netherlands erupted in 1566 and tore apart the Low Countries In *Memory Wars in the Low Countries 1566 1700* Jasper van der Steen explains how public memories of the Revolt in the Habsburg Netherlands in the South and the Dutch Republic in the North diverged and became the objects of fierce contestation in domestic political struggles on both sides of the border and throughout the seventeenth century Against widespread assumptions about the supposed modernity of cultural memory *Memory Wars* argues that early modern public memory did not require the presence of state actors nationalism and modern mass media in order to play a role of political importance in both North and South

Historical Perspectives on Democracies and their Adversaries Joost Augusteijn, Constant Hijzen, Mark Leon de Vries, 2019-08-07 This book historicizes the debate over how democratic regimes deal with anti democratic groupings in society Democracies across the world increasingly find themselves under threat from enemies ranging from terrorists to parties and movements that undermine democratic institutions from within This compilation of essays provides the first historical exploration of how democracies have dealt with such anti democratic forces in their midst and how this impacted upon what democracy meant to all involved From its inception in the nineteenth century modern democratic politics has included fundamental debates over whether it is undemocratic and dangerous to ban parties with anti democratic objectives and whether democracies should defend themselves if necessary with violence against perceived anti democratic forces This volume shows that implicit conceptions of democracy and democratic repertoires become explicit fluid and contested throughout these confrontations not only within democratic parties but also among their adversaries Both sides have at times used force or limited the expression of ideas thus blurring the lines between who is democratic and who is not

Political and Legal Perspectives Keith Robbins, 2010 *Political and Legal Perspectives* highlights the impact of political change or democratization on religious reform in Northern Europe

The House of Orange in Revolution and War Jeroen Koch, Dik van der Meulen, Jeroen van Zanten, 2022-06-06 An epic account of the

House of Orange Nassau over one hundred and fifty years of European history Three rulers from the House of Orange Nassau reigned over the Netherlands from 1813 to 1890 King William I from 1813 to 1840 King William II from 1840 to 1849 and King William III from 1849 to 1890 Theirs is an epic tale of joy and tragedy progress and catastrophe disappointment and glory all set against the backdrop of a Europe plagued by war and revolution The House of Orange in Revolution and War relates one and a half centuries of House of Orange history in a gripping narrative leading the reader from the last stadholders of the Dutch Republic to the modern monarchy of the early twentieth century from the French Revolution and the Napoleonic wars to World War I and the European Revolutions that came after it **The Oxford Handbook of Dutch**

Politics ,2024-09-25 The Oxford Handbook of Dutch Politics provides a comprehensive longitudinal overview of the state of the art of academic research on the Dutch political system its origins and historical development its key institutions main fault lines pivotal processes and key public policy dynamics In each of the chapters researchers take stock of what if anything has changed over time how scholars have conceptualized and studied these dynamics and what key factors can account for the developmental patterns found to be at play Notwithstanding its considerable degree of constitutional and institutional stability Dutch politics has seen considerable step changes and occasional upheavals across the last half century Influenced by long term demographic socio economic and cultural shifts the old social cleavages have waned New social identities and dividing lines such as ethnicity education place and gender have influenced Dutch citizens political attitudes and behaviours including their voting patterns The media landscape and the information environment have been altered by new technologies that politicians and citizens alike have to navigate This has produced changes in such pivotal components as the party system coalition formation and management process and executive legislative relations and many others Moreover public policy paradigms and the political coalitions that sustained them have ascended and lost traction in most of the eleven policy domains discussed in the Handbook In all this volume provides unique and indispensable insights into stability and change in a political system that once gained notoriety as an archetype of a consensual or consociational democracy **The Miracle**

of Amsterdam Charles Caspers,Peter Jan Margry,2019-05-31 The Miracle of Amsterdam presents a cultural biography of a Dutch devotional manifestation According to tradition on the night of March 15 1345 a Eucharistic host thrown into a burning fireplace was found intact hours later A chapel was erected over the spot and the citizens of Amsterdam became devoted to their Holy Stead From the original Eucharistic processions evolved the custom of individual devotees walking around the chapel while praying in silence and the growing international pilgrimage site contributed to the rise and prosperity of Amsterdam With the arrival of the Reformation the Amsterdam Miracle became a point of contention between Catholics and Protestants and the changing fortunes of this devotion provide us a front row seat to the challenges facing religion in the world today Caspers and Margry trace these transformations and their significance through the centuries from the Catholic medieval period through the Reformation to the present day Servants of the Kingdom David Bos,2010-06-14

Minister of the Word shepherd and teacher the titles of Dutch pastors exude authority and prestige In the course of the nineteenth century however their social position was slowly undermined by the separation of church and state the emancipation of Catholics and dissenters and the rise of all sorts of secular shepherds and teachers This work of historical sociology analyzes the development of the profession of pastor in the Netherlands Reformed Church focusing on pastors changing relationships with the state the universities other professions and their own congregants It paints a surprising lively and often humorous picture of nineteenth century ecclesiastical and religious life and of the many areas of Dutch society and culture where pastors made their mark in particular the literary world **Region and State in**

Nineteenth-Century Europe J. Augusteijn,H. Storm,2012-10-24 In reaction to the centralizing nation building efforts of states in nineteenth century Europe many regions began to define their own identity In thirteen stimulating essays specialists analyze why regional identities became widely celebrated towards the end of that century and why some considered themselves part of the new national self image Twentieth-Century Mass Society in Britain and the Netherlands Bob Moore,Henk van Nierop,2006-10-01 From the beginning of the nineteenth century Western Europe witnessed the emergence of a mass society Grand social processes such as urbanization industrialization and democratization blurred the previous sharp distinctions that had divided society This massive transformation is central to our understanding of modern society Comparing the British and Dutch experience of mass society in the twentieth century this book considers five major areas politics welfare media leisure and youth culture In each section two well known specialists one from each country examine the conditions behind the rise of a mass society and show how these conditions were distinctively British or Dutch Drawing on history cultural studies and sociology the authors bring new insight into the development of modern European society
