Amadeus Mozart, 2018-01-01 Don Giovanni is one of Mozart's most popular and enduringly fascinating works. E. T. A. Hoffmann described it as the opera of all operas. This edition begins with a discussion of its comic elements by Michael F. Robinson. An overall view of the score is given by David Wyn Jones, showing how Mozart maintained dramatic momentum over its two acts and giving an overview of the dramatic pacing and orchestration in some of the most important scenes. Christopher Raeburn concludes the commentary with an engaging portrait of Lorenzo Da Ponte, Mozart's libertine librettist and his relationship with the composer. This guide contains more than thirty photographs covering performances of Don Giovanni to the present day, a detailed thematic analysis, the libretto in Italian with a facing literal translation, an up-to-date bibliography and a discography, as well as DVD and website guides. Contains: The Comic Element in Don Giovanni, Michael F. Robinson; Music and Action in Don Giovanni, David Wyn Jones; Lorenzo Da Ponte, Christopher Raeburn; Characterization in Don Giovanni, E. J. Dent; Brigid Brophy; Julian Rushton; Lawrence Lipking; Andrew Steptoe; George Hall. Don Giovanni Libretto by Lorenzo da Ponte. Don Giovanni English translation by Visiontext. **Sudden Genius?** Andrew Robinson, 2010-09-16

The highly admired scientist Linus Pauling, a double Nobel laureate in chemistry and peace, was once asked by a student, Dr. Pauling, how do you have so many good ideas? Pauling thought for a moment and replied, Well, David, I have a lot of ideas and throw away the bad ones. Where do ideas come from? Why do some people have many more of them than others? How do you distinguish the good ideas from the bad? Most intriguing of all, perhaps, why do the best ideas sometimes strike in a flash of sudden genius? These questions are the subject of this book. Andrew Robinson explores the exceptional creativity in both scientists and artists by following the trail that led ten individuals from childhood to the achievement of a famous creative breakthrough as an adult in archaeology, architecture, art, biology, chemistry, cinema, music, literature, photography and physics. Broken into three parts, the book begins with the scientific study of creativity, covering talent, genius, intelligence, memory, dreams, the unconscious, savant syndrome, synaesthesia and mental illness. The second part tells the stories of five breakthroughs by scientists and five by artists, ranging from Curie's discovery of radium and Einstein's theory of special relativity to Mozart's composing of The Marriage of Figaro and Virginia Woolf's writing of Mrs Dalloway. Robinson concludes by considering what highly creative people who achieve breakthroughs have in common, whether breakthroughs in science and art follow patterns and whether they always involve imaginative leaps and even genius. **Celestial Music?** Wilfrid Mellers, 2002. Articles on masterpieces of European religious music from the middle ages to Stravinsky and Tavener. The late Wilfrid Mellers, who occupies a special place among music critics, described himself as a non-believer, but his preference for music that displays a sense of the

numinous in his words will strike a chord with many who listen to religious music nowadays and who share his view that music that confronts first and last things is likely to offer more than music that evades them. The essays form five groups which together offer a survey of religious music from around the first millennium to the beginning of the second in the context of the difficult issues of what religious music is and for good measure what is religion. The parts are: The Ages of Christian Faith, The Rebirth of a Rebirth, From Renaissance to High Baroque, From Enlightenment to Doubt, From the Death of God to the Unanswered Question, and The Ancient Law and the Modern Mind. Musical discussion with copious examples is conducted throughout the book in a context that is also religious and indeed philosophical, social and political, with the open-endedness that such an approach demands in the presentation of ideas about music's most fundamental nature and purposes.

Heinrich Schenker Larry Laskowski, 1978-01-01. Experiencing Mozart David Schroeder, 2013-06-13. Titles in the Listener's Companion Series provide readers with a deeper understanding of key musical genres and the work of major artists and composers. Aimed at nonspecialists, each volume clearly explains how to listen to works from particular artists, composers, and genres. Examining both the context in which the music appeared and its form, authors provide the environments in which key musical works were written and performed. From a 1950s bebop concert at the Village Vanguard to a performance of Handel's *Messiah* in eighteenth-century Dublin, Wolfgang Amadeus Mozart (1756-1791) remains as popular today as ever. His recordings fill iTunes playlists and annual Mozart festivals are performed worldwide. His eminence as a musician has supported overseas guided tours, served as the subject of a cartoon series, *Little Amadeus* (twenty-nine episodes from 2006 to 2008), inspired movies and documentaries, and launched a French rock opera. In *Experiencing Mozart*, a Listener's Companion, music historian David Schroeder illustrates how the issues Mozart cared about so deeply remain important to modern listeners. His views on politics, women, authority, and religion are provided along with compelling analysis of selected great symphonies and sonatas, moving concertos, and innovative keyboard works and groundbreaking operas. Schroeder merges his vast knowledge of the great artist's personal and professional life, late eighteenth-century European culture and society, and remarkable musicianship to guide listeners in the art of listening to Mozart. This work is an ideal introduction to readers and listeners at any level.
