Requiem Mass And Office For The Dead:

The Church Music of Davide Perez and Niccolò Jommelli Maurício Dottori, 2008 *The Responsories and Versicles of the Latin Office of the Dead* Knud Ottosen, 2008-01-25 It may seem astonishing to some that there is a need for reprinting a 14 year old dissertation but the fact is that the book is exactly as relevant to scholars today as it was in 1993 It still represents the world s largest database to compare the responsories of the Office of the Dead in more than 2 000 sources Since the order of these responsories differed from church to church this order can be used to localize medieval and Renaissance liturgical books The book is therefore an absolute necessity for everyone who conducts research on the area it covers Put differently the book reveals the geography of the concept of death in Europe from the 9th 16th centuries from a theological liturgical ecclesiastical musical and political perspective seen from one particular liturgical office The Office of the Dead

The Royal Chapel in the Time of the Habsburgs Juan José Carreras López, Bernardo José García García, Tess Knighton, 2005 Focusing on the royal chapel established by Philip II in Madrid the essays in this richly illustrated volume offer a series of different perspectives on the development of the main court chapels of Europe English version edited by Tess Knighton The royal chapel in Europe as a whole and in Spain in particular was a cultural institution where court ceremonial politics music and the arts were brought together in terms of space and function The ramifications for the patronage and cultivation of the arts and the dynamic between music and the arts and the concept of kingship form the focus of the text The phenomenon of groupings of singers chaplains and musicians at the service of the different European monarchies is of great significance both for the history of music and the political and cultural history of the court in general The royal chapel established by Philip II in Madrid was the central religious and musical institution of royal power until well into the eighteenth century and using this as a focus the essays in this richly illustrated volume offer a series of different perspectives on the development of the main court chapels of Europe These papers were delivered at the international seminar La Real Capilla de Palacio en la poca de los Austrias under the auspices of the Fundación Carlos de Amberes Madrid from 14 to 16 December 2000 The volume is edited by Tess Knighton Juan José Carreras and Bernardo García García and translated by Yolanda Acker
