Maltsev, 1993      The Oxford Handbook of Communist Visual Cultures Aga Skrodzka, Xiaoning Lu, Katarzyna

Marciniak, 2020-04-01 Stereotypes often cast communism as a defunct bankrupt ideology and a relic of the distant past However recent political movements like Europe's anti austerity protests the Arab Spring and Occupy Wall Street suggest that communism is still very much relevant and may even hold the key to a new idealized future In *The Oxford Handbook of Communist Visual Cultures* contributors trace the legacies of communist ideology in visual culture from buildings and monuments murals and sculpture to recycling campaigns and wall newspapers all of which work to make communism's ideas and values material Contributors work to resist the widespread demonization of communism demystifying its ideals and suggesting that it has visually shaped the modern world in undeniable and complex ways Together contributors answer curcial questions like What can be salvaged and reused from past communist experiments How has communism impacted the cultures of late capitalism And how have histories of communism left behind visual traces of potential utopias An interdisciplinary look at the cultural currency of communism today *The Oxford Handbook of Communist Visual Cultures* demonstrates the value of revisiting the practices of the past to form a better vision of the future      *Sport and the Transformation of Modern Europe* Alan Tomlinson, Christopher Young, Richard Holt, 2013-06-17 In the modern era sport has been an important agent and symptom of the political cultural and commercial pressures for convergence and globalization In this fascinating inter disciplinary study leading international scholars explore the making of modern sport in Europe illuminating sport and its cultural and economic impacts in the context of the supra state formations and global markets that have re shaped national and trans national cultures in the later twentieth century The book focuses on the emergence and expansion of media markets high performance sport's transformation by and effects upon Cold War dynamics and relations and the implications of the Treaty of Rome for an emerging European identity in sport as in other areas for example the influence of soccer's governing body in Europe UEFA and its club and international competitions It traces the connections between the forces of ideological division economic growth leisure consumption European integration and the development of European sport and examines the role of sport in the changing relationship between Europe and the US Illuminating a key moment in global cultural history this book is important reading for any student or scholar working in international studies modern history or sport      Written in Red Gina Herrmann, 2010 The first major study of the profound impact of international communist politics and culture on Spanish letters      **Polish Postcommunist Cinema** Ewa Mazierska, 2007 This book covers the history of Polish cinema from 1989 up to the present in a broad political and cultural context looking at both the film industry and film artistry It considers the main ideas behind the institutional changes in the Polish film industry after the

In the Storms of Transformation Ulf Brunnbauer, Philipp Ther, Piotr Filipkowski, Andrew Hodges, Stefano Petrunaro, Peter Wegenschimmel, 2024-12-16 In the 1990s states in what would become the eastern edge of the European Union transformed their political systems and economies leaving state socialism behind for liberal democracies and free markets In the ensuing decades two shipyards that were once the pride of their cities in Gdynia Poland and Pula Croatia went bankrupt unable to withstand global competition Through an interdisciplinary study of these two shipyards In the Storms of Transformation brings together a team of researchers to re evaluate the shift from state socialism to market capitalism and offer a new periodization With perspectives from social anthropology sociology and business history the book argues that this transformation began with the oil crisis of the early 1970s and ended with EU accession in 2004 in Poland and in 2013 in Croatia highlighting the EU competition laws and global competition that pushed the shipyards into bankruptcy and diminishing the role of the revolutions of 1989 In the Storms of Transformation bridges local labour history with global market forces going beyond prevalent narratives of loss and nostalgia or successful neoliberal change to offer a novel and nuanced reading of post communist transformation and its contradictions *Collateral Damage* Zygmunt

Bauman, 2013-04-16 The term collateral damage has recently been added to the vocabulary of military forces to refer to the unintended consequences of armed interventions consequences that are unplanned but nevertheless damaging and often very costly in human and personal terms But collateral damage is not unique to the world of armed intervention it is also one of the most salient and striking dimensions of contemporary social inequality The inflammable mixture of growing social inequality and the rising volume of human suffering marginalized as collateral is becoming one of most cataclysmic problems of our time For the political class poverty is commonly seen as a problem of law and order a matter of how to deal with

individuals such as unemployed youths who fall foul of the law But treating poverty as a criminal problem obscures the social roots of inequality which lie in the combination of a consumerist life philosophy propagated and instilled by a consumer oriented economy on the one hand and the rapid shrinking of life chances available to the poor on the other In our contemporary liquid modern world the poor are the collateral damage of a profit driven consumer oriented society aliens inside who are deprived of the rights enjoyed by other members of the social order In this new book Zygmunt Bauman one of the most original and influential social thinkers of our time examines the selective affinity between the growth of social inequality and the rise in the volume of collateral damage and considers its implications and its costs *The Encyclopedia of Twentieth-Century Fiction, 3 Volume Set* Brian W. Williams, 2013-08-16 Moving through the elegiac ruins of the Berlin Wall and the Yugoslav disintegration *Writing Postcommunism* explores literary evocations of the pervasive disappointment and mourning that have marked the postcommunist twilight *Committing the Future to Memory* Sarah Clift, 2013-09-01 Whereas historical determinacy conceives the past as a complex and unstable network of causalities this book asks how history can be related to a more radical future To pose that question it does not reject determinacy outright but rather seeks to explore how it works In examining what it means to be determined by history it also asks what kind of openings there might be in our encounters with history for interruptions re readings and re writings Engaging texts spanning multiple genres and several centuries from John Locke to Maurice Blanchot from Hegel to Benjamin Clift looks at experiences of time that exceed the historical narration of experiences said to have occurred in time She focuses on the co existence of multiple temporalities and opens up the quintessentially modern notion of historical succession to other possibilities The alternatives she draws out include the mediations of language and narration temporal leaps oscillations and blockages and the role played by contingency in representation She argues that such alternatives compel us to reassess the ways we understand history and identity in a traumatic or indeed in a post traumatic age **Romania**

**Confronts its Communist Past** Vladimir Tismaneanu, Marius Stan, 2018-05-17 Reckoning with mass crimes perpetrated by an ideologically driven regime entails engaging in a thorough going exploration of its utopian foundations In the case of Romania such an analysis requires an interpretation of the role of personality in the construction of a uniquely grotesque and unrepentant form of neo Stalinist despotism Of all the revolutions of 1989 the only violent one took place in Romania Confronting its communist past therefore involves addressing the abuses committed by the communist regime up to its very last day its failure to engage in Round Table type agreements with democratic representatives and the repression during the first post communist years a direct legacy of the old regime This book shows how moral justice can contribute to a restoration of truth and a climate of trust in politics in the absence of which any democratic polity remains exposed to authoritarian attack

*What is Soviet Now?* Thomas Lahusen, Peter H. Solomon, 2008 Economists and political scientists wrestle with the challenges faced by Russian officials and public alike in adapting to a market economy and democracy including the fragility of property rights and elections still rooted in old institutional structures This book examines the reforms of health and welfare and the hierarchy of privilege and access and consider how Putin's statist approach to mythmaking compares to that of previous Soviet and post Soviet regimes Historians and anthropologists explore the issue of nostalgia gender punishment belief and how history itself is being created and perceived today The book concludes with a journey through the ruined landscape of real socialism

#### **Worlds Apart? A Postcolonial Reading of post-1945**

**East-Central European Culture** Cristina Sandru, 2013-01-16 This study explores the relation of the Eastern European problematic to postcolonial critical practice interrogating the extent to which postcolonialism can help illuminate instances of imperial domination in non Third World contexts It argues that colonisation is to be understood principally as a condition of ideological domination that has engendered similar forms of literary and cultural resistance consequently it offers a comparative framework which enables a reading in differential contexts of texts that ostensibly have little in common but which on close examination reveal a shared imaginative space rhetoric and narrative agency The book consists of two interrelated parts Part one is a critical discussion of the ideologies cultural imaginaries and representational practices articulated in a diverse range of representative postcolonial and post 1945 East Central European texts these are shown to share despite dissimilar conditions of production uncannily related narrative modes and thematic emphases Part two is a comparative literature case study which discusses two authors whose work is both highly representative of the cultural formations discussed in the first part Milan Kundera and Salman Rushdie and at the same time highly controversial The chapters dedicated to Kundera's and Rushdie's work examine the cultural geography of their novels particularly in the writers use of memory and story telling to reconfigure history and personal identity in conditions of literal and metaphorical displacement While their novels thrive on ironic subversion and ambiguity they simultaneously gesture towards a redemptive space of the imagination transcending the constraints of both locality and history

**After the Stasi** Annie Ring, 2015-10-22

Why did so many citizens of the GDR agree to collaborate with the Stasi Reading works of literature since German unification in the light of previously unseen files from the archives of the Stasi After the Stasi uncovers how writers to the present day have explored collaboration as a challenge to the sovereignty of subjectivity Annie Ring here interweaves close analysis of literary fiction and life writing by former Stasi spies and victims with documents from the archive new readings from literary modernism and cultural theories of the self In its pursuit of the strange power of the Stasi the book introduces an archetypal character in the writing of German unification one who is not sovereign over her or his actions but instead is compelled by an imperative to collaborate an imperative that persists in new forms in the post Cold War age Ring s study identifies a monumental historical shift after 1989 from a collaboration that took place in concert with others in a manner that could be recorded in the archive to the more isolated and ultimately less accountable complicities of the capitalist present While considering this shift in the most recent texts by East German writers Ring provocatively suggests that their accounts of collaboration under the Stasi and of the less than sovereign subjectivity to which it attests remain urgent for understanding the complicities to which we continue to consent in the present day

**Mapping Postcommunist Cultures** Vitaly Chernetsky,2007-01-08 In Mapping Postcommunist Cultures Chernetsky argues that Russia and Ukraine exemplify the principal paradigms of post Soviet cultural development In Russia this has manifested itself in the subversive dismantling of the totalitarian linguistic regime and the foregrounding of previously marginalized subject positions In Ukraine work in these areas shows how the traumas of centuries of colonial oppression are being overcome through the carnivalesque decrowning of ideological dogmas and an affirmation of a new type of community most recently demonstrated in the peaceful Orange Revolution of 2004 Mapping Postcommunist Cultures also critiques the neglect of the former communist world in current models of cultural globalization
