American Heroes: Profiles of Men and Women Who Shaped Early America Edmund S. Morgan, 2010-05-10 A wise humane and beautifully written book Bret Stephens Wall Street Journal From the best selling author of Benjamin Franklin comes this remarkable work that will help redefine our notion of American heroism Americans have long been obsessed with their heroes but the men and women dramatically portrayed here are not celebrated for the typical banal reasons contained in Founding Fathers hagiography Effortlessly challenging those who persist in revering the American history status quo and its tropes and falsehoods Morgan now ninety three continues to believe that the past is just not the way it seems

The Senator's Favorite Alex. McVeigh Mrs. Miller, 2019-12-19 In *The Senator's Favorite* Alex McVeigh Miller employs a vivid narrative style characteristic of late 19th century American literature combining rich descriptions with intricate character development Set against the backdrop of political intrigue and societal norms of the Gilded Age the novel explores themes of love ambition and moral dilemmas through the lens of its heroine who navigates the treacherous waters of high society and familial expectations As a serialized fiction the book captures the pulse of contemporary readers reflecting their fascination with the intersection of personal aspirations and public roles within an

evolving democratic landscape Alex McVeigh Miller emerged as a prominent voice in American fiction during a period marked by rapid social change With a background in journalism and a keen interest in the cultural dynamics of his age Miller s works often reveal his critical insights on social stratification and the complexities of human relationships His own experiences within a politically charged environment likely informed the development of Millie the titular character embodying the struggles faced by women in asserting their identities amidst patriarchal constraints This compelling novel is highly recommended for readers interested in rich historical narratives that intertwine romance and social commentary Miller s intricate storytelling and compelling characters will appeal not only to fans of classic American literature but also to those seeking a deeper understanding of the societal structures that continue to influence contemporary life **The B**

Word Maria San Filippo,2013-04-12 Often disguised in public discourse by terms like gay homoerotic homosocial or queer bisexuality is strangely absent from queer studies and virtually untreated in film and media criticism Maria San Filippo aims to explore the central role bisexuality plays in contemporary screen culture establishing its importance in representation marketing and spectatorship By examining a variety of media genres including art cinema sexploitation cinema and vampire films bromances and series television San Filippo discovers missed moments where bisexual readings of these texts reveal a more malleable notion of subjectivity and eroticism San Filippo s work moves beyond the subject of heteronormativity and responds to compulsory monosexuality where it s not necessarily a couple s gender that is at issue but rather that an individual chooses one or the other The B Word transcends dominant relational formation gay straight or otherwise and brings a discursive voice to the field of queer and film studies **Making Crime Television** Anita Lam,2013-10-15 This book employs actor network theory in order to examine how representations of crime are produced for contemporary prime time television dramas As a unique examination of the production of contemporary crime television dramas particularly their writing process Making Crime Television Producing Entertaining Representations of Crime for Television Broadcast examines not only the semiotic relations between ideas about crime but the material conditions under which those meanings are formulated Using ethnographic and interview data Anita Lam considers how textual representations of crime are assembled by various people including writers directors technical consultants and network executives technologies screenwriting software and whiteboards and texts newspaper articles and rival crime dramas The emerging analysis does not project but instead concretely examines what and how television writers and producers know about crime law and policing An adequate understanding of the representation of crime it is maintained cannot be limited to a content analysis that treats the representation as a final product Rather a television representation of crime must be seen as the result of a particular assemblage of logics people creative ideas commercial interests legal requirements and broadcasting networks A fascinating investigation into the relationship between television production crime and the law this book is an accessible and well researched resource for students and scholars of Law Media and Criminology *Las Lugosi's Dracula: The Cradle of Evil*
