From Left to Right Nancy Sinkoff, 2020-03-10 Intellectual biography of Holocaust historian Lucy S Dawidowicz *From Left to Right* Lucy S Dawidowicz the New York Intellectuals and the Politics of Jewish History is the first comprehensive biography of Dawidowicz 1915 1990 a pioneer historian in the field that is now called Holocaust studies Dawidowicz was a household name in the postwar years not only because of her scholarship but also due to her political views Dawidowicz like many other New York intellectuals was a youthful communist became an FDR democrat midcentury and later championed neoconservatism Nancy Sinkoff argues that Dawidowicz's rightward shift emerged out of living in prewar Poland watching the Holocaust unfold from New York City and working with displaced persons in postwar Germany Based on over forty five

archival collections From Left to Right chronicles Dawidowicz's life as a window into the major events and issues of twentieth century Jewish life *Histories of Nations* Peter Furtado, 2014-11-10 Now in paperback this global bestseller is an engaging and informative read on the history of a diverse array of countries Global histories tend to be written from the limited viewpoint of a single author and a single perspective which results in an inevitable bias In this book however twenty eight different writers and scholars from around the world contribute giving engaging often passionate accounts of their own nation's history The countries featured in *Histories of Nations* have been selected to represent every continent and type of state large and small mature democracies and religious autocracies states that have existed for thousands of years and those born as recently as the twentieth century Each of these countries has a different relationship with history In the United States for example the myth of the nation's historylessness remains strong but in China history is seen to play a crucial role in legitimizing three thousand years of imperial authority History wars over the content of textbooks rage in countries as diverse as Australia Russia and Japan Some countries such as Iran or Egypt are blessed or cursed with a glorious ancient history that the present cannot equal others such as Germany must find ways of approaching and reconciling the pain of the recent past Original thought provoking and handy in its new paperback format *Histories of Nations* is a crucial primer for the Global Age *Increasing Legal Rights for Zoo Animals* Jesse Donahue, 2017-04-12 We are on the precipice of momentous legal changes for animals that may soon give some of them rights of personhood and citizenship Companion animals in particular are gaining rights to public representation in government access to housing inheritance and increased protection through the criminal justice system Nonhuman primates used as research subjects are also gaining limited rights of personhood in some countries This book examines how zoo animals could benefit from that revolution as well Reviewing zoo law and politics in the United States New Zealand and Southeast Asia scholars and zoo directors grapple with how the current law in those regions of the world impacts zoo animals and how it could be changed to serve them better They discuss the ways in which zoo animals could benefit from some re-worked companion animal law in the United States the challenges of reintroductions and their legal barriers how we can extend ideas of human research subject rights to zoo animal research the stark problems of too few animal welfare laws in South East Asia the need for a central governing body focused solely on exotic captive animals in New Zealand and the need for stricter laws preventing the exotic pet problem that is increasingly affecting both zoos and sanctuaries The book starts a dialogue that moves the scholarship about zoos beyond a general discussion of ethics to a concrete dialogue and set of suggestions about how to extend legal rights to this group of animals
