**Beyond the Academic Gateway**

Timothy Sibbald, Victoria Handford, 2020-09-01 Tenure is a pivotal decision for the academy. If it is earned it provides security and permanence creating further academic freedom to pursue research and interests important to the institution and to society. If it is not earned then the peer review process provides clarification for why it has not been earned. This book brings together lived experiences of academics around the time of the tenure decision. While the book stands alone it has the same collection of authors who wrote about their tenure track experiences in *The Academic Gateway* making the pair of books a remarkable longitudinal collection. The authors explore the complex relationship between academics, the academy as an ideal and universities as an enactment of that ideal. Personal growth is evident and shows diversity of experience as the maturing relationships with the role and workplace unfurl. Where tenure track is a very personal journey the period around tenure is necessarily a form of engagement with peers. Yet it has challenges particularly in a milieu where academic freedom is being nurtured. Individual authors negotiate their choices between their personal objectives and institutional mandates and policies. Simultaneously after years in the tenure track they continue to be evolving as academics whether through personal growth or by seeking changes in the academy itself. Published in English

#### **Practice as Research in the Arts (and Beyond)**

Robin Nelson, 2022-05-19 This project addresses the contexts of Practice as Research and how to undertake it. This second iteration updates thinking and practices but sustains a direct and clear approach on how to become a practitioner researcher. New features include an extension of range beyond the arts and a case for intra disciplinary in Practice Research as an influence in the formation of the future university. A comparison is made between Artistic Research and Practice Research recognizing that research through practices with being doing knowing is central to both. Acknowledging the current crisis in legitimation a broad view is taken of how things might be known by an onto epistemology for the twenty first century foregrounding the bodymind but sustaining rationality and community by way of Other other dialogic exchange. Perspectives from around the world in Part II offset the more Eurocentric emphasis in Part I

#### **Beyond the Altar** Christine L.M.

Gervais, 2018-04-26 *Beyond the Altar* illustrates how women religious overcome sexist subjugation by side stepping the patriarchal power of the Roman Catholic Church. This book counters the stereotypical image of Catholic nuns as being loyally compliant with their church by showing how a number of current and former women religious in Canada challenge their institutional religion's precepts and engage in transformative strategies to effect change both within and outside the Roman Catholic Church. The sisters' testimonials reveal never before shared details about their painful experiences of male domination, their courageous efforts to move beyond such sexist stifling, and the women-led and women-centered spiritual governance and activist practices they have engendered in the late twentieth and early twenty-first centuries. Featuring many examples of the sisters' resourcefulness, resilience, and resistance, this book fills a void in international scholarship on what Canadian Catholic women religious have endured and accomplished. Through interviews and in-depth accounts of the complexities and nuances present in the current and former sisters' lives, readers will discover their steadfast indomitability as they strategically and sometimes subversively innovate their spiritual spaces. Beyond Methodology Mary Margaret Fonow, 1991-04-22 A stellar cast of authors discuss and describe feminist research reflecting the state of feminist discourse in sociology; its high quality makes it a must in sociology and women's studies collections. Choice: empowering thought provoking. *Gender Society* a valuable addition to the literature on feminism and method that reveals important discrepancies and shared themes in its chapters. *Contemporary Sociology* In this interdisciplinary collection of articles by internationally recognized feminist scholars, the authors examine efforts to apply feminist principles to the research act. Each stage of the research process is examined from sampling techniques to mass media packaging and marketing of feminist research. The essays address both abstract philosophical questions and the more practical ways theories are translated into feminist inquiry.
