Research Shapes Inventions:

Research Shapes Harriet Kinghorn, Mary Morberg, 1989-01-01 Perspectives on Rhetorical Invention Janet Atwill, Janice M. Lauer, 2002 Rhetorical invention the discursive art of inquiry and discovery has great significance in the history of spoken and written communication dating back to the ancient Greeks and Romans Yet invention has received relatively little attention in recent discussions of rhetoric writing and communication This collection of essays is the first book in years to focus on current research in rhetorical invention The contributors include many well established scholars as well as new voices in the field They reflect a variety of approaches and perspectives theory history culture politics institutions pedagogy and community service Several of the essays address the relationship between invention and postmodernism some by refiguring invention others by challenging postmodernism Still other essays explore multicultural conceptions of invention the civic function of invention and rhetoric and the role of rhetorical invention in institutions and in community problem solving Taken together these essays provide a much needed forum for ongoing study of rhetorical invention within the framework of recent developments in both scholarship and the culture at large If invention research is to continue and flourish notes Janice Lauer in her foreword it must remain sensitive to shifts in epistemology ethics and politics The essays in this volume undertake this effort The Editors Janet M Atwill is associate professor of English at the University of Tennessee The author of *Rhetoric Reclaimed* Aristotle and the Liberal Arts Tradition and coauthor of *Four Worlds of Writing Inquiry and Action in Context* and *Writing A College Handbook* she has published articles in *Rhetoric Review* *Encyclopedia of Rhetoric* and the *Journal of Advanced Composition* Janice M Lauer is Reece McGee Distinguished Professor of English at Purdue University where she founded directed and teaches in the graduate program in Rhetoric and Composition She is coauthor of *Four Worlds of Writing and Composition Research Empirical Designs* and has published numerous articles on rhetoric and composition Contributors Frederick J Antczak Janet M Atwill Julia Deems Richard Leo Enos Theresa Enos Linda Flower Debra Hawhee Janice M Lauer Donald Lazere Yameng Liu Arabella Lyon Louise Wetherbee Phelps Jay Satterfield Haixia Wang Mark T Williams **INTELLIGENT CELLS AND THEIR INVENTIONS** Pietro Gaietto, 2014-07-13 *Special Study on Economic Change: Research and innovation : developing a dynamic nation ... way we interact with the past How much is really known about the way medieval music sounded Or have modern beliefs been formed and sustained less by evidence than the personalities of scholars and performers their ideologies and their musical tastes
