International Economic Integration and Asia Michael G. Plummer, Erik Jones, 2006 Regional economic integration has become a key force in international commercial policy in the 2000s Europe has traditionally embraced regionalism the United States became actively involved in preferential trading arrangements only in the 1980s While Asia has been late in accepting formal regional economic integration accords all Asian countries are now in the process of creating various free trade areas and other forms of economic integration programs and some are already in place This volume analyzes the regionalism trend from an Asian perspective It considers the lessons from and the economic implications of various economic integration programs in the OECD mostly the EU but also NAFTA as well as the proposals for closer economic integration in the region itself Chapters deal with both real and financial integration issues Economic Dynamism Of Asia In The New Millennium Yoshinori Shimizu, 2007-02-23 This book is a compendium of papers on various new movements that emerged after the Asian financial crisis which lead to Asia becoming the enhanced growth center of the world Beginning with the analysis of the Asian crisis and the subsequent capital flight the book goes on to study the impact of these events on the Hong Kong economy the role of the government in Indonesia and financial restructuring in Thailand The book then explores the new movement of regional cooperation such as Free Trade Agreement and financial cooperation and integration On the real side of the economy the book delves into issues such as cooperation between Japan and China development of the Greater Mekong sub region growth of China fiscal coordination in Korea technological network in East Asia and growth and inequality in Vietnam a **Future Perspectives On The Economic Development Of Asia** John Malcolm Dowling, 2007-12-17 The future growth and development of Asia the most dynamic economic region in the world today will have important implications for the rest of the global economy This book offers a futuristic perspective of a wide array of developmental challenges and opportunities facing Asian economies over the next two decades The future is approached from several different developmental paradigms including technological change and innovation regional cooperation within Asia and between Asia and the West poverty reduction ethics and corruption and environmental challenges Future prospects for the two giant economies of China and India are also explored By offering a comprehensive look at the medium term future of Asia from such a wide range of different viewpoints this fascinating book will interest economists social scientists politicians international investment managers and the general public alike *Asean Economic Integration: Trade, Foreign Direct Investment, And Finance* Michael G Plummer, 2009-07-17 Given the rapid emergence of regional economic arrangements in Asia especially in Southeast Asia it is useful to understand clearly what regionalism implies for the region as well as to take stock as to the far reaching and complicated effects of formal economic cooperation and integration This book allows the reader to better understand the relevant international policies of the Southeast Asian economies and to appreciate the potential lessons for other developing regions It also focuses on the regionalism trend with an explicit application to

ASEAN as well as the implications of regionalism in the developed countries The goal of this book is to survey the economics and political economy of regionalism in the ASEAN context from a variety of perspectives and using various techniques from standard economic analysis of preferential trading arrangements to the political economy analysis of institutions Its approach is comprehensive in that it includes ASEAN economic integration in the areas of trade foreign direct investment and finance Presentation of the material is designed to be accessible to non technical audiences without sacrificing the rigor expected by economists and other experts *African-Asian Relations: Past, Present, Future* Patrick Ziltener, Christian Suter, 2023-03-15

Is the impression of a new dynamism in African Asian relations empirically correct Is it a process that will once be accepted as one of the fundamental transformations of World Society in the 21st century This volume addresses these questions in 14 chapters from a look back to 2000 years of African Asian contacts and exchange to the analysis of the origins of this new inter regional dynamism On the Asian side the focus is on China which has with the Forum on China African Cooperation FOCAC the Belt and Road Initiative with numerous infrastructure projects development assistance resource deals and the support for the African Union in Africa drawn most attention but also recent initiatives by India and South Korea are described On the African side the recent developments in Burkina Faso Cote d'Ivoire Ethiopia Angola Guinea Tanzania Ghana Zimbabwe and South Africa are analyzed in detail with a special focus on the various impacts of the recent and ongoing projects and initiatives and the conditions under which they exert developmental or detrimental economic Do we witness the repetition of past mistakes of development policies at higher level or is this time everything different **Japanese Studies of Modern China since 1953** Noriko Kamachi, John K.
