facing Chinese women especially those related to employment and marriage The Economics of Population Growth Julian Lincoln Simon, 2019-04-23 Comparison with stationary and very fast rates of population growth shows modern population growth to have long run positive effects on the standards of living This is Julian Simon's contention and he provides support for its validity in both more and less developed countries He notes that since each person constitutes a burden in the short run whether population growth is judged good or bad depends on the importance the short run is accorded relative to the long run The author first analyzes empirical data formulating his conclusions using simulation models He then reviews our knowledge of the effect of economic level upon population growth A final section of his book considers the framework of welfare economics and values within which population policy decisions are now made He finds that the implications of policy decisions can prove inconsistent with the values that prompt their recommendation Originally published in 1977 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *Proceedings of the 2022 3rd International Conference on Big Data and Social Sciences (ICBDSS 2022)* Guiyun Guan, Bo Qu, Ding Zhou, 2024-03-13 This is an open access book As a leading role in the global megatrend of scientific innovation China has been creating a more and more open environment for scientific innovation increasing the depth and breadth of academic cooperation and building a community of innovation that benefits all Such endeavors are making new contributions to the globalization and creating a community of shared future The 3rd International Conference on Big Data and Social Sciences ICBDS 2022 was held on August 19-21, 2022 in Hulunbuir China With the support of experts and professors the ICBDS 2022 conference successfully held its first conference last year In order to allow more scholars to have the opportunity to participate in the conference to share and exchange experience This conference mainly focused on big data social science and other research fields to discuss At present my country has entered the era of big data cloud migration that is the era of big data the Internet of things cloud computing and mobile Internet The market demand for big data talents is also increasing day by day The purpose of the conference is to provide a way for experts scholars engineering technicians and technical R D personnel engaged in big data and social science research to share scientific research results and cutting edge technologies understand academic development trends broaden research ideas strengthen academic research and discussion and promote the academic achievement industry Platform for chemical cooperation The conference sincerely invites experts scholars from domestic and foreign universities scientific research institutions business people and other relevant personnel to participate in the conference **Library Book Catalog** United States.
