Contemporary Marriage Kingsley Davis, 1986-08-20 This fascinating symposium is based on an assumption that no longer seems to need justification that the institution of marriage is today experiencing profound changes But the nature of those changes their causes and consequences is very much in need of explication The experts contributing to this volume bring a wide range of perspectives sociological anthropological economic historical psychological and legal to the problem of marriage in modern society Together these essays help illuminate a form of relationship that is both vulnerable and resilient biological and social a reflection of and an influence on other social institutions Contemporary Marriage begins with an important assessment of the revolution in marital behavior since World War II tracing trends in marriage age cohabitation divorce and fertility The focus here is primarily on the United States and on industrial societies in general Later chapters provide intriguing case studies of particular countries There is a recurrent interest in the impact on marriage of modernization itself but a number of essays probe influences other than industrial development such as strong cultural and historical patterns or legislation and state control Beliefs and expectations about marriage are explored and human sexuality and gender roles are also considered as factors in the nature of marriage Contemporary Marriage offers a rich spectrum of approaches to a problem of central importance The volume will reward an equally broad spectrum of readers interested in the meaning and future of marriage in our society

Lazarsfeld's Methodology and Its Influence on Postwar Sociology in Europe Hynek Jeřábek, 2024-11-28 This book explains how the Columbia model of sociology which was based on the methodology of P F Lazarsfeld became a dominant sociological school of thought in American and European postwar sociology Providing an overview of Lazarsfeld's inventions and his methodological organisational and institutional innovations it describes the means by which a particular model of sociology was gradually adopted in departments headed by Lazarsfeld and in the work of his successors With attention to the use by Lazarsfeld of methodological texts published by prestigious publishing houses in his research and teaching his activity in international organisations including the UN his collaboration with figures such as Robert K Merton and Raymond Boudon and his attempts to show how the roots of his empirical research methodology lay in the work of early European scholars this volume shows how a particular sociological paradigm came to prevail over others for more than a decade It will therefore appeal to scholars of sociology with interests in the history of the discipline and questions of research methodology

Sociology in America Craig Calhoun, 2008-09-15 Though the word sociology was coined in Europe the field of sociology grew most dramatically in America Despite that disproportionate influence American sociology has never been the subject of an extended historical examination To remedy that situation and to celebrate the centennial of the American Sociological Association Craig Calhoun assembled a team of leading sociologists to produce *Sociology in America* Rather than a story of great sociologists or departments *Sociology in America* is a true history of an often disparate field and a deeply considered look at the ways sociology developed intellectually and institutionally It explores the growth of American sociology as it addressed changes and challenges throughout the twentieth century covering topics ranging from the discipline's intellectual roots to understandings and misunderstandings of race and gender to the impact of the Depression and the 1960s *Sociology in America* will stand as the definitive treatment of the contribution of twentieth century American sociology and will be required reading for all sociologists Contributors Andrew Abbott Daniel Breslau Craig Calhoun Charles Camic Miguel A Centeno Patricia Hill Collins Marjorie L DeVault Myra Marx Ferree Neil Gross Lorine A Hughes Michael D Kennedy Shamus Khan Barbara Laslett Patricia Lengermann Doug McAdam Shauna A Morimoto Aldon Morris Gillian Niebrugge Alton Phillips James F Short Jr Alan Sica James T Sparrow George Steinmetz Stephen Turner Jonathan VanAntwerpen Immanuel Wallerstein Pamela Barnhouse Walters Howard Winant

Case Study Methods Jacques Hamel, Stephane Dufour, Dominic Fortin, 1993-09-15 In this introduction to understanding researching and doing case studies in the social sciences Hamel outlines several differing traditions of case study research including the Chicago School of Sociology the anthropological case studies of Malinowski and the French La

S. A. from 1955-1995 Relating to the Sociological Impact of Corporate Relocation on the Family System** Barbara W. Cummings,1999-04 America is a mobile nation and frequent relocation is a way of life for many corporate families This qualitative review of literature relating to the sociological impact of relocation on the corporate family appears to show that relocation has short term and long term implications for the family system Relocation is not an isolated event but a process of adjustment over time involving emotional stages similar to the stages of grief and loss Each family member may experience the relocation differently and progress through the stages at a different rate This creates a period of disorganization and disorientation for the family similar to a prolonged jet lag which I call Relo Lag This period of adjustment for the family system is the most frequently cited short term effect and can last up to two years Frequent relocations may also precipitate a long term effect by causing the family system to become too tightly closed The family may not seek outside help when needed or accept it when offered Individual family members may experience difficulty with long term close friendships and relationships outside the family In addition children appear to be particularly vulnerable when relocating during the individuation stages years 3 5 and adolescence years 13 16 Not all families experience relocation negatively and some families cope well with relocation Relocation can improve career and financial opportunities for some corporate families but there may be emotional costs that need to be considered before making a decision to relocate Relo Lag is a Trademark of Barbara W Cummings all rights reserved **Municipal Reference Library Notes** New York Public Library.
