The Second Civil War

"Our crime is not that America is white, but that we do not even know it is. The Negro does. He knows it every time a policeman passes ... this is two countries ... war could arise between the two."

Second Civil War Arming For Armageddon:

The Second Civil War-Arming for Armageddon Garry Wills, 1968 **The New Counter-insurgency Era in Critical Perspective** Celeste Ward Gventer, M.L.R Smith, 2014-01-21 The notion of counter insurgency has become a dominant paradigm in American and British thinking about the wars in Iraq and Afghanistan This volume brings together international academics and practitioners to evaluate the broader theoretical and historical factors that underpin COIN providing a critical reappraisal of counter insurgency thinking **Containment Culture** Alan Nadel, 1995-11-20 Alan Nadel provides a unique analysis of the rise of American postmodernism by viewing it as a breakdown in Cold War cultural narratives of containment These narratives which embodied an American postwar foreign policy charged with checking the spread of Communism also operated Nadel argues within a wide spectrum of cultural life in the United States to contain atomic secrets sexual license gender roles nuclear energy and artistic expression Because these narratives were deployed in films books and magazines at a time when American culture was for the first time able to dominate global entertainment and capitalize on global production containment became one of the most widely disseminated and highly privileged national narratives in history Examining a broad sweep of American culture from the work of George Kennan to Playboy Magazine from the movies of Doris Day and Walt Disney to those of Cecil B DeMille and Alfred Hitchcock from James Bond to Holden Caulfield Nadel discloses the remarkable pervasiveness of the containment narrative Drawing subtly on insights provided by contemporary theorists including Baudrillard Foucault Jameson Sedgwick Certeau and Hayden White he situates the rhetoric of the Cold War within a gendered narrative powered by the unspoken potency of the atom He then traces the breakdown of this discourse of containment through such events as the Bay of Pigs invasion and the Free Speech Movement at Berkeley and ties its collapse to the onset of American postmodernism typified by works such as Catch 22 and The Man Who Shot Liberty Valence An important work of cultural criticism Containment Culture links atomic power with postmodernism and postwar politics and shows how a multifarious national policy can become part of a nation's cultural agenda and a source of meaning for its citizenry *The Environmentalist's Dilemma* Arno Kopecky, 2021-10-19 For readers of Ronald Wright Rebecca Solnit and Yuval Noah Harari comes a compelling inquiry into our relationship with humanity's latest and greatest calamity In *The Environmentalist's Dilemma* award winning journalist Arno Kopecky zeroes in on the core predicament of our times the planet may be dying but humanity's doing better than ever To acknowledge both sides of this paradox is to enter a realm of difficult decisions Should we take down the government or try to change it from the inside Is it okay to compare climate change to Hitler Is hope naive or indispensable How do you tackle collective delusion Should we still have kids And can we take them to Disneyland Inquisitive and relatable Kopecky strikes a rare note of optimistic realism as he guides us through the moral minefields of our polarized world From start to finish *The Environmentalist's Dilemma* returns to the central question How should we engage with the story of our times **National Review's Literary Network** Stephen

Schryer,2024 Stephen Schryer traces the careers of novelists journalists and literary critics who wrote for William F Buckley Jr s National Review and highlights these writers enduring impact on movement conservatism **Contempt and Pity** Daryl Michael Scott,2000-11-09 For over a century the idea that African Americans are psychologically damaged has played an important role in discussions of race In this provocative work Daryl Michael Scott argues that damage imagery has been the product of liberals and conservatives of racists and antiracists While racial conservatives often playing on white contempt for blacks have sought to use findings of black pathology to justify exclusionary policies racial liberals have used damage imagery primarily to promote policies of inclusion and rehabilitation In advancing his argument Scott challenges some long held beliefs about the history of damage imagery He rediscovers the liberal impulses behind Stanley Elkins s Sambo hypothesis and Daniel Patrick Moynihan s Negro Family and exposes the damage imagery in the work of Ralph Ellison the leading anti pathologist He also corrects the view that the Chicago School depicted blacks as pathological products of patriarchy New Negro experts such as Charles Johnson and E Franklin Frazier he says disdained sympathy seeking and refrained from exploring individual pathology Scott s reassessment of social science sheds new light on Brown v Board of Education revealing how experts reversed four decades of theory in order to represent segregation as inherently damaging to blacks In this controversial work Scott warns the Left of the dangers in their recent rediscovery of damage imagery in an age of conservative reform Inventing America Garry Wills,2018-01-02 From acclaimed historian Garry Wills author of Lincoln at Gettysburg a celebrated re appraisal of the meaning and the source of inspiration of The Declaration of Independence based on a reading of Jefferson s original draft document Inventing America upended decades of thinking about The Declaration of Independence when it was first published in 1978 and remains one of the most influential and important works of scholarship about this founding document Wills challenged the idea that Jefferson took all his ideas from John Locke Instead by focussing on Jefferson s original drafts he showed Jefferson s debt to Scottish Enlightenment philosophers such as Lord Kames and Francis Hutcheson and even the metaphysics of Aristotle Wills s close reading of the previously overlooked drafts of the Declaration have altered and deepened the meaning and consequences of the single most important document that continues to define America **Protectors of Privilege** Frank Donner,1992-09-30 This landmark expos of the dark history of repressive police operations in American cities offers a richly detailed account of police misconduct and violations of protected freedoms over the past century In an incisive examination of undercover work in Chicago Los Angeles New York and Philadelphia as well as Washington D C Detroit New Haven Baltimore and Birmingham Donner reveals the underside of American law enforcement **Catholic Intellectuals and Conservative Politics in America, 1950-1985** Patrick Allitt,2019-01-24 At the end of World War II conservatism was a negligible element in U S politics but by 1980 it had risen to a dominant position Patrick Allitt helps explain the remarkable growth of the contemporary conservative movement in the light of Catholic history in the United States Allitt focuses on the role of individual Catholics against a backdrop of volatile

cultural change showing how such figures as William F Buckley Jr Garry Wills John T Noonan Jr Michael Novak John Lukacs Thomas Molnar Russell Kirk Clare Boothe Luce Ellen Wilson Charles Rice and James McFadden forged a potent anti liberal intellectual tradition Catholic Intellectuals and Conservative Politics in America 1950 1985 is much more than a history of conservative Catholics for it illuminates critical themes in postwar American society As Allitt narrates the interplay of liberal and conservative politics among Catholics he unfolds a history both intricate and sweeping After describing how New Conservatism was shaped in the 1950s by William F Buckley Jr and an older generation of Catholic thinkers including Ross Hoffman and Francis Graham Wilson Allitt traces the range of Catholic responses to the cataclysmic events of the 1960s the election of John F Kennedy the civil rights movement the decolonization of Africa Supreme Court decisions on school prayer the war in Vietnam and nuclear arms proliferation He shows how the transformation of the Church prompted by the Second Vatican Council not only intensified existing divisions among Catholics but also shattered the unity of the Catholic conservative movement Turning to the 1970s Allitt chronicles bitter controversies concerning family roles contraception abortion and gay rights Next comparing the work of John Lukacs Thomas Molnar Garry Wills and Michael Novak from the 1950s through the 1980s Allitt demonstrates how individual Catholic conservatives drew different lessons from similar contingencies He concludes by assessing recent ideological shifts within American Catholicism using as his test case the conservative resistance to the Catholic Bishops 1983 Pastoral Letter on Nuclear Weapons Offering new insight into the subtle interplay between religion and politics Catholic Intellectuals and Conservative Politics in America 1950 1985 will be engaging reading for everyone interested in the postwar evolution of American politics and culture [A Bibliography on the Black American](#) United States. Symbols, the News Magazines and Martin Luther King Richard Lentz, 1999-03-01 More than two decades after his death Martin Luther King Jr remains America's preeminent symbol of the civil rights movement In the early years of the movement King advocated a policy of nonviolent resistance to the racism ingrained in American society In later years however King adopted a more militant stance toward racial and other forms of injustice In this innovative book Richard Lentz considers King as a cultural symbol from the Montgomery bus boycott of 1955-1956 to the Poor People's Campaign which King helped organize shortly before his assassination in 1968 In particular Lentz examines the ways the three major news weeklies Newsweek Time and U S News World Report presented King to their readers It is primarily through media institutions that Americans shape and interpret their values Newsweek Time and U S News though representing different shadings of political ideology ranging from left of center to conservative were all aimed at the same audience middle class Americans Therefore their influence on the nation's values during a period of enormous social upheaval was significant In the mid 1960s when King shifted from reform to radicalism the news magazines were thrust into what Lentz calls a crisis of Symbols because King no longer fit the symbolic mold the magazines had created for him Lentz investigates how the

magazines responded to this crisis discussing the ways in which their analyses of King shifted over time and the means they employed to create a new symbolic image that made sense of King's radicalization for readers. This is an important perceptive study of Martin Luther King Jr.'s career and an astute critical analysis of the reporting practices of the news media in the modern era.

One Nation Under Guns Dominic Erdozain, 2024-01-30. This brilliant and gut wrenching *The New York Times* Book Review Editors' Choice takedown of American gun culture argues that the nation's founders did not intend the Second Amendment to guarantee an individual right to bear arms and that this distortion of the record is an urgent threat to democracy. At once eye opening and enraging, *One Nation Under Guns* is that rare book that can help change the way we live in this country. Eddie S. Glaude Jr., bestselling author of *Begin Again*. A KIRKUS REVIEWS BEST BOOK OF THE YEAR. More than a hundred lives are lost to firearms every day in America. The cost is more than the numbers; it is the fear, the anxiety, the dread of public spaces that an armed society has created under the tortured rubric of freedom. But the norms of today are not the norms of American history or the values of its founders. They are the product of a gun culture that has imposed its vision on a sleeping nation. Historian Dominic Erdozain argues that we have wrongly ceded the big picture argument on guns. As we parse legislation on background checks and automatic weapons bans, we fail to ask what place guns should have in a functioning democracy. Taking readers on a brilliant historical journey, Erdozain shows how the founders feared the tyranny of individuals as much as the tyranny of kings; the idea that any person had a right to walk around armed was anathema to their notion of freedom and the peaceful republic they hoped to build. They wrote these ideas into the Constitution and the Bill of Rights, ideas that were subsequently affirmed by two centuries of jurisprudence. And yet the twin scourges of racism and nationalism would combine to create a darker American vision: a rogue and reckless freedom based on birth and blood. It was this freedom, not the liberty promised by the Constitution, that generated our modern gun culture with its mystic conceptions of good guys and bad guys, innocence and guilt. By the time the U.S. Supreme Court reinvented the Second Amendment in 2008's *District of Columbia v. Heller*, an opinion that Erdozain convincingly eviscerates, many Americans had already acceded to the fiction: the unfreedom of an armed society. To save our democracy, he argues, we must fight for the founders' true idea of what it means to be free.

Surveying the relationship between American politics and the twentieth-century novel, this volume analyzes how political movements, ideas, and events shaped the American novel. It also shows how those political phenomena were shaped in turn by long-form prose fiction. The book is made up of three major sections. The first section considers philosophical ideologies and broad political movements that were both politically and literarily significant in the twentieth-century United States, including progressive liberalism, conservatism, socialism, and communism, feminism, and Black liberation movements. The second section analyzes the evolving political valences of key popular genres and literary forms in the

twentieth century American novel focusing on crime fiction science fiction postmodern metafiction and immigrant fiction The third section examines ten diverse politically minded novels that serve as exemplary case studies across the century Combining detailed literary analysis with innovative political theory this Companion provides a groundbreaking study of the politics of twentieth century American fiction Amiri Baraka Jerry Watts,2001-08 In a chapter sure to prove controversial Watts links Baraka s famous misogyny to an attempt to bury his own homosexual past BOOK JACKET **From Selma to Sorrow** Mary Stanton,2000-09-01 Extensive and meticulous research marks the first full length look at the life murder and legacy of Viola Liuzzo a civil rights worker murdered by the Klan in 1965 whose memory was defamed by J Edgar Hoover and the FBI UP
