Longshoremen Community And Resistance On The Brooklyn Waterfront Critical Studies In Work And Community:

Longshoremen William DiFazio,1985 **Work: Quo Vadis?** Jan Holmer,Jan Ch. Karlsson,2019-01-15 First published in 1997 this volume is the result of the third Karlstad symposium which aimed to bring together and reflect current empirical trends and theoretical discussions on the questions what exactly is happening to work and consequentially what should happen to work This book disseminates contributions from seventeen scientists from eleven countries to a wider audience It should prove stimulating to postgraduates researchers policy makers and others to encourage further work on conditions both at work and on the labour market *Working-Class New York* Joshua B. Freeman,2021-04-06 A lucid detailed and imaginative analysis The Nation of the model city that working class New Yorkers created after World War II and its tragic demise More than any other city in America New York in the years after the Second World War carved out an idealistic and equitable path to the future Largely through the efforts of its working class and the dynamic labor movement it built New York City became the envied model of liberal America and the scourge of conservatives everywhere cheap and easy to use mass transit work in small businesses and factories that had good wages and benefits affordable public housing and healthcare for all Working Class New York is an engrossing Dissent account of the birth of that ideal and the way it came crashing down In what Publishers Weekly calls absorbing and beautifully detailed history historian Joshua Freeman shows how the anticommunist purges of the 1950s decimated the ranks of the labor movement and demoralized its idealists and how the fiscal crisis of the mid 1970s dealt another crushing blow to liberal ideals as the city s wealthy elite made a frenzied grab for power A grand work of cultural and social history Working Class New York is a moving chronicle of a dream that died but may yet rise again **Love Or Greatness (Routledge Revivals)** Roslyn Wallach Bologh,2009-12-15 This work first published in 1990 reissues the first thorough examination of the essentially masculine nature of Max Weber s social and political thinking Through a detailed examination of his central texts the author demonstrates Weber s masculine reading of social life and shows how his work advocates a masculine form of life that poses a challenge to contemporary women and to feminism In particular she addresses the patriarchal implications of Weber s belief in the need to relegate the ethic of brotherly love to a private sphere in order to make possible rational action and the achievement of greatness in the public sphere U.S. Labor Movement and Latin America Philip S. Foner,1988-02-28 Covers the relationships between labour movements in the United States and in Latin America from the Mexican War of 1846 up to the founding of the Pan American Federation of Labor in 1918 Deals with the Mexican Revolution of 1910 and with the aid given by US trade unionists and socialists to the Mexican revolutionists Registering Interest James Reveley,2017-10-18 This study is bookended by two major events in New Zealand s maritime history The first is the 1951 waterfront dispute that led to the dissolution of the Waterside Workers Union WWU and the creation of twenty six port unions in its place The second is a mirror event occurring

in 2001 where a reconstituted WWU and two other unions competed for members leading to widespread protest Though historians have treated the events leading up to 1951 with interest little attention has been given to the fifty year period between events a history which this journal attempts to fill Author James Reveley considers the following questions in his history of union management interactions Firstly why employer prerogative did not increase after the 1951 dissolution of the WWU second how the unions regained power so quickly and third why the WWU s substantial industrial power was so friable during the 1990s The conclusion assesses the relationship between government and unions and believes that union response when facing globalisation within maritime industries which alliances they will form for example will have a significant impact on the future direction of maritime activity in New Zealand
